ORIENTAL PHARMA ALUMNI ASSOCIATION BULLETIN

Issue-1, June 2012

ORIENTAL PHARMA ALUMNI ASSOCIATION (OPAA)

The chief patron of OPAA Prof. Javed khan with the co-ordination and co-operation of executive members of Alumni Association established OPAA in 2011. OPAA was formed with a sole objective to help Alumni compete with the practical challenges at various pharma sectors and to benefit our budding pharmacists .

OPAA was registered on 17 Oct. 2011, bearing Registration No. MH/1624/11/Thane, under the Societies Registration Act 1860. The name and designation of Alumni Core Committee are:

No.	Name	Designation
1	Dr. (Mrs.) SUDHA RATHOD	President
2	MR. AMJAD ALI	Secretary
3	MR.SAMEE MUQADAM	Treasurer
4	MR. IMTIYAZ ANSARI	Member
5	MR.KHAN MOHAMMAD TARIQUE	Member
6	MR.UMESH BHANUSHALI	Member
7	MR. TUSHAR BHOSLE	Member

From the Editor's Desk,

Dear Alumni,

It gives us immense pleasure launching the first issue of alumni bulletin of OPAA. The first Alumni meet was conducted on 25th of February 2012, with main aim of improving the college Alumni contacts and help students regarding placements and further studies. This event was memorable, where the alumni of various batches of OCP gathered together.

Two issues of bulletin will be published every year. The issues will comprise of alumni events, campus news, seminar, new course approval, new instruments etc. Readers will also get information about alumni members, regarding their present jobs, addresses and higher study status under alumni database.

Under continuing pharma education column we project the wide spectrum scenario of pharma field beging with an article by Mr. Tanveer Alam Ansari entitled “A snap shot of pharmaceutical industry.” Our first bulletin introduces the entire faculty of OCP to our Alumni.

Alumni are requested to send in their feedback, publications, their progress reports in various fields, opinions and suggestions to make our bulletin more and more informative and interactive and to formulate our plans for coming issues.

Mr. Amjad Ali

Mr. Imtiyaz Ansari

Mrs. Sanah Shaikh

Objectives of OPAA

- (1) To help students view the practical experiences faced in the pharma field through the alumni.
- (2) Implementation execution and application of knowledge acquired.
- (3) The practical experience of the alumni have been given a platform where they would help students to learn from their experiences thereby directing them towards future.
- (4) Directly or indirectly the alumni association is a channel for ex-students to be in touch with the college & revive their college days.
- (5) The alumni association is a source of learning, teaching, and experiencing facts & prospects about pharmacy as a career.

Future Plan

- (1) **Alumni Interaction:** - An alumni meet will be organized twice a year to set a platform for the alumni to guide the students & direct them by sharing their experiences.
- (2) **On line Alumni Bulletin:** - A bulletin to view & update the alumni activities would be published every 6 months.
- (3) **An Alumni database:** - All alumni will share a common link comprising of database & information regarding students passing out every year.
- (4) **Career Counseling Cell:** - A group of counselors including alumni would be formed to guide students as per their fields of work i.e. industrial, research, academics etc.

FIRST STEP TOWARDS A NEW BEGINNING- FIRST ALUMNI MEETING

The first interaction of the alumni with the college students and members was arranged on the 25th of February 2012 at 1:00 pm where the alumni were heartedly welcomed by the principal and the entire college. The main motto was to direct, guide and make the students aware about Pharmacy as a career ahead.

It was the alumni who enlightened students about the pros and cons of selecting areas for jobs ahead. They encouraged students to go for higher studies. They also promised to help students by employing them if they came across any vacancies. The entire session was very healthy and communicative which we are sure will lead towards the making of an organized and well developed group. We are very glad to have them amongst us to help mould the future of our students.

FIRST ALUMNI MEETING

CONTINUING PHARMA EDUCATION

A snapshot of Pharmaceutical Industry

The global Pharmaceutical industry is under serious pressure from a large number of innovator molecules facing patent expiration, a thin pipeline of new drugs, regulatory challenges and pricing pressures. This has led to a directional shift towards the emerging markets of Asia, Australia, Africa and Latin America, which are growing three times faster than the current growth rates experienced in the industry's leading markets of North America, Japan and Europe.

According to IMS Health, the emerging markets of Asia/Africa/Australia grew at a rate of 15.9% in 2009, as compared to much slower growth rates in North America (5.5%), Japan (7.6%) and Europe (4.8%). Emerging markets will be the next major growth drivers for the global Pharmaceutical industry, with more than 40% of incremental growth of the industry coming from emerging economies in the next decade.

The Indian pharmaceutical market including export were valued at Rs 1 trillion (US\$ 20.33 billion) in 2011. The domestic pharmaceutical retail reached a new milestone by recording overall sales of Rs 60,000 crore (US\$ 12.20 billion) for the year 2011 with a growth rate of 15% and is expected to touch US\$ 74 billion sales (CAGR:20%) by 2020.

Some important reasons behind this expected growth rate is that India's pharmaceutical industry has a favorable macro environment to grow in such as:

- The Indian economy has rebounded from the global economic downturn, with real gross domestic product (GDP) growth reaching 9.66% in 2010.
- The Indian middle class is also expanding rapidly, with affordability of medicines increasing, and an increased percentage of disposable income being spent on healthcare.
- The government has made public healthcare one of its top priorities by launching policies and programmes that are aimed at making healthcare more affordable and accessible, especially in rural markets.

The Indian pharmaceuticals market is witnessing dynamic changing trends

such as large acquisitions by multinational companies in India, increasing investment by domestic and international players in India, deeper penetration into the rural markets, growth and availability of healthcare and incentives for setting up special economic zones (SEZ's). These trends combined with increased purchasing power and access to good quality medical care will continue to propel the domestic pharmaceutical industry to new heights.

Indian Pharmaceutical companies are already major outsourcing partners of global Pharma companies. Research & Development in India is getting more innovative. Domestic companies have strengthened their position in the world for supplying solutions across the pharmaceutical value chain. They are likely to become a competitor of global Pharma in the areas of manufacturing and R&D, and a potential partner in others.

❖ APPROVALS FROM AICTE/PCI/CPCSEA/ISO

College is approved by Pharmacy council of India till 2013- 2014.

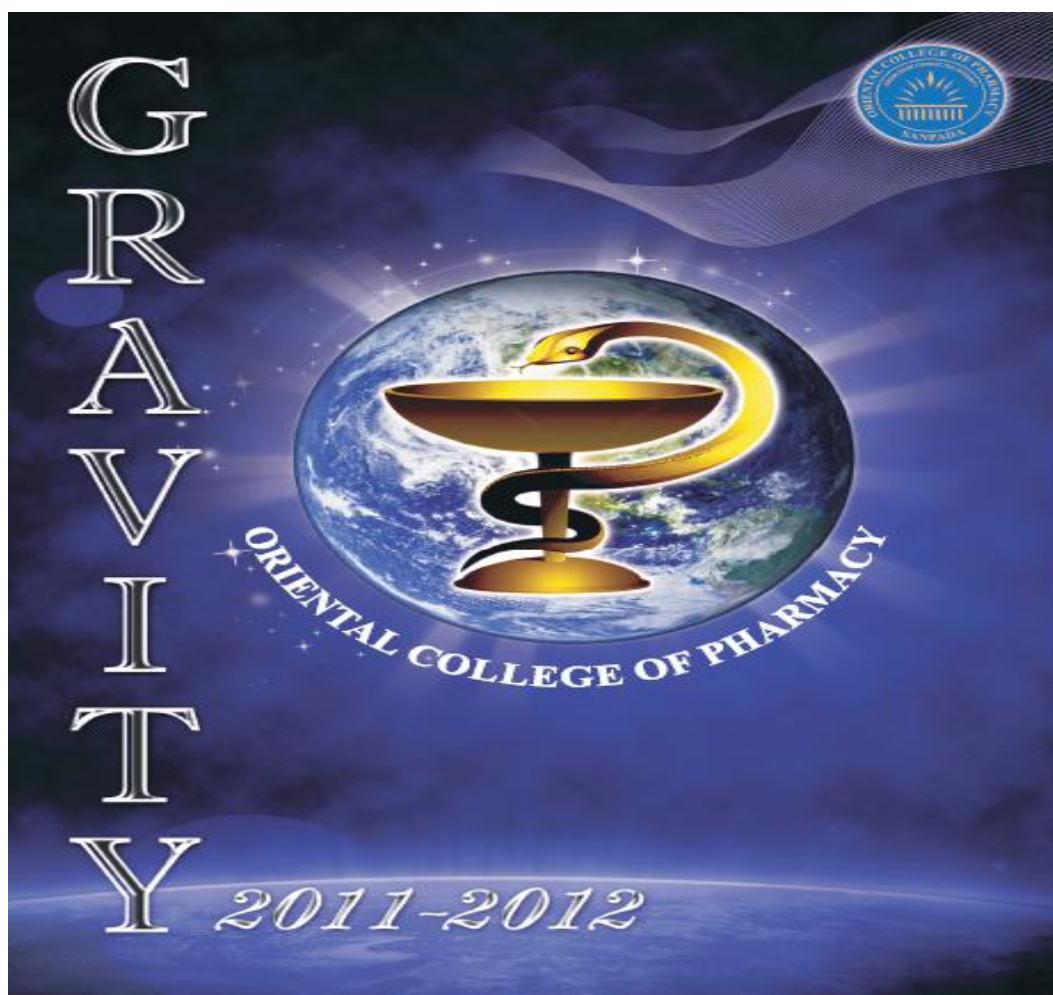

College has got Approval for M.Pharm (Pharmaceutics, 18 seats) and also got Approval for M.Pharm (Pharmacognosy, 18 seats)

Animal House has been approved by CPCSEA in the year 2011-2012

College is also ISO 9001-2008 certified.

❖ **SEMINAR AND SYMPOSIUM** A one day seminar was organized on “Emerging Strategies in Controlled Drug Delivery Systems”
