OCP_GPAT TEST 1 :Human Anatomy and Physiology

* Indicates required question

1. Your Full Name *

2. 1. How many bones does an adult human skeleton have? 4 points

Mark only one oval.

- a) 206
- b) 209
- c) 207
- d) 205

3. 2. Name the four classes of bones? 4 points

Mark only one oval.

- a) Long, short, regular, irregular
- b) Big, small, flat, bulged
- c) Long, Short, Flat, and Irregular
- d) Big, small, regular, irregular

4. 3. Which of the following connective tissue envelopes the bone? 4 points

Mark only one oval.

- a) Periosteum
- b) Pericardium
- c) Myocardium
- d) Marrow

5. 4. Which of the following are two types of bone marrow? 4 points

Mark only one oval.

- a) Red marrow and yellow marrow
- b) Red marrow and white marrow
- c) Yellow marrow and white marrow
- d) White marrow and blue marrow

6. 5. Choose the correct vertebral formula of vertebral column of human being. 4 points

Mark only one oval.

- a) C7 Th13 L4 S5 Co4
- b) C7 Th12 L5 S5 Co4
- c) C7 Th13 L5 S5 Co4
- d) C7 Th12 L5 S5 Co4

7. 6.Which of the following is a breast bone? 4 points

Mark only one oval.

- a) Scapula
- b) Ribs
- c) Sternum
- d) Clavicle

8. 7.Name of the tongue bone is _____ 4 points

Mark only one oval.

- a) Frontal bone
- b) Zygomatic bone
- c) Hyoid bone
- d) Mandible

9. 8.The synovial joint are also known as _____ 4 points

Mark only one oval.

- a) Megablast
- b) Periosteum
- c) Diarthrosis
- d) Arthrois

10. 9.Which cartilage is present at the joints of long bones? 4 points

Mark only one oval.

- a) Calcified
- b) Elastic
- c) Hyaline
- d) Fibrous

11. 10.The joints can be classified into _____ main types. 4 points

Mark only one oval.

- a) 2
- b) 3
- c) 4
- d) 5

12. 11. Which artery is the main source of blood for the arm? 4 points

Mark only one oval.

- a) Ulnar artery
- b) Radial artery
- c) Brachial artery
- d) Profunda branchii

13. 12. From where does the aorta originate? 4 points

Mark only one oval.

- a) Right ventricle
- b) Left auricle
- c) Right auricle
- d) Left ventricle

14. 13.The aorta distributes _____ type blood. 4 points

Mark only one oval.

- a) Oxygenated blood
- b) Deoxygenated blood
- c) Mixed blood
- d) Cannot be determined

15. 14. Name the valve which is associated with aorta? 4 points

Mark only one oval.

- a) Mitral valve
- b) Aortic valve
- c) Tricuspid valve
- d) Pulmonic valve

Dear Sir/Mam

Thank you for a discussion with you on the Afternoon

12th Jan 22 .

As discussed, GTT Foundation has been mandated by a leading organization under their CSR program to conduct life skills programs to students who would be shortly embarking on their careers.

We are pleased to offer this program to the students of your institute. The program comprises the initial training on life skills for 2-3 days following which students would be also offered mentoring support once a quarter for a year. This program would be at zero cost to the students or the institute. Upon completion of initial training students would be issued a certificate.

Should there be interest to be part of the program, kindly let us know, we would be glad to share further details of the program.

For details about GTT Foundation please visit https://www.gttfoundation.org/

We look forward to hearing from you....

Thanks & Regards
Ayyaj Shaikh | GTT Foundation | center coordinater| Mob :- +919309566757

Our Training Module:-

The training program will cover the key life-skills required for a successful career. Key topics will include:-

Barclays LifeSkills Training Programme		
Day-1st Personality Development	**Day-2nd Life + Domain Skills**	**Day-3rd Mock Interview**
1- Swot Analysis	1- Critical Thinking	1- Email Etiquette
2- Goal Setting	2- Problem Solving	2- Apply Online
3- Effective Communication	3- Decision Making	3- Grooming Etiquette
4- Time Management	4- Customer Service	4- Group Discussion
5- Self Motivation	5- Work Ethics	5- Interview Skills
6- Leadership	6- Resume Writing	6- Mock Interview

(Please Note: the modules can be changed according to the preference of the institute)

Duration of Support:-

The support envisaged is over a one year period with the initial training for 2-3 days followed by monthly mentoring sessions to facilitate career progression.

Provisions from GTT:-

Initial training for 3 days

- Trainer to deliver the program
- Mentoring support for the beneficiaries
- Participation certificates to be issued upon completion of training program

  - Provisions from partnering institution: Identifying student groups to be trained.
  - Providing with classroom or online access to train the students.
  - Providing the details of students placed in the required formats.

Dear Ma'am or Sir,

As we discussed, As per the following points we are collecting the formal information of the students during the training program.

1) Training Photos
2) Students Name
3) Mobile number
4) Aadhar card Number
5) Enrollment Form
6) Pre-Test & Post Test
7) Offer letter/ Declaration from the students when they joined the job.

Note :- After the completion of the training program one soft copy of the data will be submitted to college.

Please inform the training dates & time from your side ASAP, so we will plan accordingly.

Thanks & Regards
Ayyaj Shaikh

WORKSHOP REPORT

Topic: Life Skills and Employability Program

The Placement Cell of Oriental College of Pharmacy had conducted "Barclays 3 day Life Skills and Employability Program" in collaboration with GTT foundation for Final Year B. Pharm students from 31st January to 2nd February, 2023 in the seminar hall.

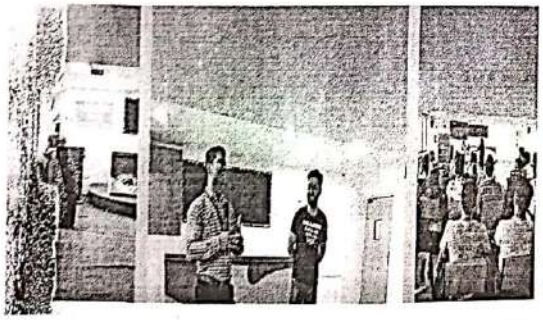

On the first day, students learned about interview etiquettes. Fun activities were performed by forming teams for the better comprehension of the significance of interaction and healthy communication amongst team members.

On the second day, students learned about the various key elements necessary to be considered when drafting a résumé. Copious points were discussed with respect to 'Do's and Don'ts' of Resume Writing. In the later session, students explored the execution of teamwork through two enjoyable and insightful activities. These activities helped the students understand how each team member's performance contributes to a successful result.

On day three, optimum ways of responding to challenging interview questions were discussed. A brief round of mock interviews and a practice public speaking exercise was conducted. Students participated in enjoyable activities to better understand how teamwork functions during the second half of the lesson. Students were also enlightened about how the first impression always matters during an interview and how they must present themselves. Few knacks and lessons to tackle tricky questions during an interview were shared with the aid of activities followed by group discussion and active interaction. The lesson learned from this exercise was that in order to achieve the desired outcome, each team member had to uphold their duties and responsibilities.

A valedictory event was held at the end of the day, Principal Madam, Dr. Mrs. Sudha Rathod, and Dr. Vandana Jain, the coordinator of the Placement Cell, delivered inspirational speeches which further waived off the fear of appearing for interview from the minds of the students. A vote of thanks from the organizing staff brought the program to a close followed by a group picture.

BACKGROUND

- A Post Graduate in Statistics from Mumbai University.
- Over 21 years of post qualification experience in Biostats and Programming area in Pharma industry.
- Working in Biostatistics and programming team at IQVIA as a Director Stats and Programming for last 3 years
- Worked in Biostatistics and programming team at Tata Consultancy Services for last 11 years.
- Overall 5 years of experience as a Statistical Programmer in Novartis Pharma.
- Around 2 years of experience as a Biostatistician in Bristol-Myers and Sqibb Pharma.
- Provided inputs to business proposals in Biostatistics and programming area and represented B&P team in different bid defense meetings.
- Certified trainer for conducting client specific trainings.
- Trainer for CDISC standards.
- Mentored Mumbai University students in 2013-14 on SAS and Stats paper as a part of TCS Training program.
- Remote Mentoring to Sikkim Manipal University students on Survival Analysis paper.
- Involved in recruitment, training, mentoring of University fresher.
- Completed Six sigma Green Belt Certification.
- Can ensure high quality of deliverables by identifying focus areas and responding proactively to the dynamic business environment.
- Strong leadership qualities with ability to motivate team to achieve targets with focus on quality.
- A member of Board of Studies for Statistics department of Ramnarayan Ruia College, Mumbai
- A member of Board of Studies for the course Post Graduate Diploma in Statistical Software, Mumbai University

EXPERIENCE

IQVIA (July19 – till date)

➢ **Director Statistics programming**

Overall account management, Customer management.

Tata Consultancy Services (Jan14 – July 19)

➢ **Subject Matter Expert and Solution Specialist**

Role and Responsibilities

Dr. (Mrs.) Sudha Rathod

- Ensured the adherence to industry standards and regulatory requirements, including but not exclusive to good clinical practices (GCP) and ICH guideline on statistical principles for clinical trials.
- Coordinated and supervised any statistics or programming activities that are assigned.
- Validated and reviewed the Statistical outputs, also develop statistical programs if required.

Novartis Pharma (NICCI) (July 2001- Jan 2006)

- **Statistical Programmer**

Role and Responsibilities

Phase 1 Oncology:

- Developed programs for creating datasets and TLFs on Solid Tumor studies using RECIST guidelines.
- Provided inputs to Tables/Figures/Listing layouts and specifications.
- Developed macros to create and validate Oncology endpoints data.

Phase 2-3 Clinical trials:

- Developed SAS programs/macros for creation and validation of analysis datasets and TLFs.
- Performed Quality checks to ensure the quality of programmers delivered from TCS.
- Tracked and followed up on all issues raised by Jr. Programmers.
- Produced sets, programs and content documentation to meet the demands of regulatory SAS components that will contribute to an electronic submission, including data authorities.
- Provided help in Study Audits.
- Customized the reporting standards for the study within set rules.
- Provided Inputs in Annotation of CRF's, Edit checks, data delivery specifications (Interact with data management team).
- Developed Reports of Exploratory or Post-Hoc Analysis.

Mentoring:

- Reviewed reports generated by Jr. Programmers and resolved all possible queries before sending to customer for confirmation.
- Coaching and mentoring to Jr. Programmers to develop required competencies.

Other Activities

- Working as Member of Board of Studies of Ramnarayan Ruia College. Active Participation in Syllabus Setting for Statistics graduate students.
- Trained Mumbai University students of Post Graduate Diploma in Applied statistics on Application of Statistics using SAS.
- Presented on "Pooling Strategies for CIDSC data" in ISCR conference in 2017

SEMINAR REPORT.

Topic: SAS & related Job Opportunities in the Pharma Industry.

The Placement Cell of Oriental College of Pharmacy, Sanpada, Navi Mumbai had organized a seminar on, 'SAS and related Job Opportunities in Pharma industry' on 14th January, 2023 from 2.00 P.M. to 4.00 P.M. The session was held for the Final Year B. Pharm students, First and Second YearM. Pharm students in the seminar hall. Mrs. Anagha Bhatkande was invited as the guest speaker for the day.

The concomitant Technical team of The Placement Cell came up with an official flyer and invite on 12th January, 2023. Students had avidly partaken in the seminar.

Student Members of the Placement Cell, Ms. Isha Sharma and Mr. Shivam Gupta were anchors for the session. At 2.00 PM sharp, the seminar commenced as the hosts welcomed everyone. The hosts greeted the proficient speaker Mrs. Anagha Bhatkande ma'am, Director of Statistical Programming at IQVIA, Mumbai. Further extending welcome to Honorable Principal - Dr. Mrs. Sudha Rathod ma'am, Placement Cell In charge - Dr. Mrs. Vandana Jain ma'am, Event coordinator - Dr. Mrs. Manasi Gholkar ma'am, Faculty Members and the assemblage. The hosts gave a brief introduction of the speaker - Mrs. Anagha Bhatkande.

Mrs. Anagha Bhatkande ma'am began her oration by introducing SAS, its overview for better understanding of the seminars' objective, its certification process, and the job opportunities. She then discussed its use in clinical trials. She swiftly touched upon the several stages of clinical trials and the data flow during clinical trials after that. She continued by discussing integration, c disc standards, primary and secondary data sources, and the acquisition of demographic data. She then provided examples using some SAS graphs. She continued by describing how SAS can be used to handle and store enormous amounts of data while gathering patient history.

She further elaborated on tools of the software used for data transformation, analysis, and transfer. She then spoke in detail on the advantages, applications, and limitations of SAS. She then discussed how people are switching to R because it provides results similar to those of SAS but doesn't require a license. She then described each component as she gave us a presentation of how SAS appears. She continued by outlining the two key steps: 1. Data step & 2. PROC step. She also gave an overview of the many SAS certifications available online and the hiring criteria that vary as per company. She enlisted several jobs in the Pharma Industry and how SAS evolves over a period of time. With an engaging Q&A session with the attendees, she concluded her presentation.

Dr. Mrs. Vandana Jain ma'am presented the guest a Certificate of Appreciation as a token of

SEMINAR REPORT

Topic - Enhance Your Career and Employability quotient

The Placement Cell of Oriental College of Pharmacy, Navi Mumbai had organized a seminar on, 'Enhance your Career and Employability quotient' in collaboration with ICFAI BUSSINESS SCHOOL (IBS) on 30th August, 2022 from 1.00 P.M to 2.00 P.M. The session was held for Final Year B. Pharm students in Final Year classroom (403) and Dr. Arijit Bhattacharya was invited as the guest speaker for the session.

The creative team of the Entrepreneurship Cell came up with official flyer and invite on 29th August, 2022. Students from Final Year B. Pharm had actively participated in the seminar.

At 1.00 pm sharp, Ms. Tejashri Gunjal, Student Member of The Placement Cell and the host for the session welcomed Principal - Dr. Mrs. Sudha Rathod ma'am, Placement Cell Incharge - Dr. Mrs. Vandana Jain ma'am, speaker for the session - Dr. Mr. Arijit Bhattacharya sir, faculty members - Bharati Gawade ma'am & Vijay Ikale sir & target audience - final year students.

The session commenced by providing a brief introduction about Dr. Arijit Bhattacharya sir by the host. The host mentioned that Dr. Arijit Bhattacharya sir is an industry adept & PhD in management by training. It was also communicated that the speaker - sir is an avid researcher, presenter of numerous research papers and case studies in management conferences. This was entailed by handing over the center-stage to the speaker, respected - Dr. Arijit Bhattacharya sir.

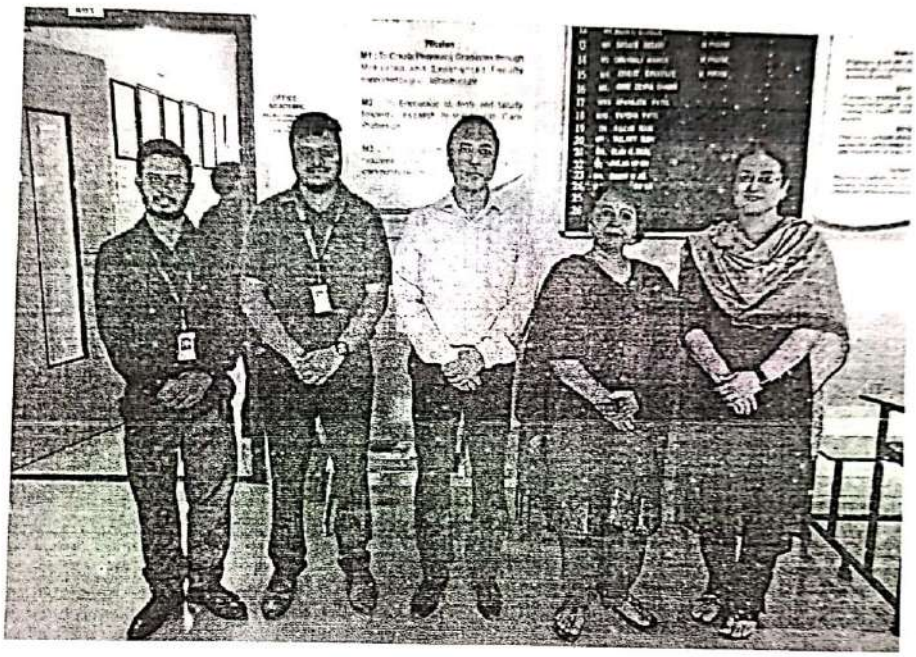

He took off his exclusive lecture by asking the students about their future plans after completing the four-year degree course of B. Pharmacy. Some students shared their future plans, but were skeptical about achieving them. To clear their doubts, sir asked them to enlist qualities and characteristics that they think are highly significant in making a successful careér in their future endeavours. In an instant many attendees spoke about different qualities and charactertics. Students were happy to see almost all the qualities they mentioned where included in the PowerPoint slides presented by sir. To make the topic even more clear to the young skeptical minds, sir, made students think of 'all the qualities they have' versus 'all the qualities they need / require to inculcate'. This compare & contrast methodology created self awareness among students & motivated them to imbibe all the lacking qualities which are necessary for the job they wish to seek. In the PowerPoint presentation slides, further were displayed examples of common people who made it to the top inspite of all the hardships they faced, be it financial or physical. Illustrations of dignified leaders, CEOs, actors were shown & students were made to think like them & absorb required qualities from them.
"The overall session was fruitful & interactive through out & worth our time" added a final year student. The session proceeded towards close, as sir welcomed questions from

students. He answered all the queries relating to questions asked in interviews, how an interviewer evaluates the interviewee, how to communicate effectively & confidently,... Our Placement cell incharge - Dr. Mrs. Vandana Jain ma'am felicitated the speaker from IBS ICFAI business school, Dr. Arijit Bhattacharya sir with a sapling as a token of thanks. The session was formally concluded with a vote of thanks speech presented by Ms. Tejsashri Gunjal. Greetings were exchanged & a wonderful impact was engraved in minds of all the attendees.

To: Vandana Jain <vandana.jain@ocp.edu.in>

Barclays "Life Skill" Program in collaboration with Rubicon

Respected Vandana Ma'am,

Greetings from Rubicon...!

It is my pleasure to introduce **Rubicon: Rubicon** was incepted with a dream of a world where every youth has the power to transform lives for themselves and others around them. We strongly believe that every youth has the potential to make a difference in their personal lives as well as the community around them. We build competencies which would help youth seek careers and prosper in their careers of choice. We bring excitement into learning by developing and harnessing, their curiosity and intrinsic motivation for learning.

Barclays "Life Skill' Program in collaboration with Rubicon as an implantation partner and **Rubicon Foundation** as an NGO partner aims at improving the employability skills of the youth. Under this program, students will be trained by **Corporate Trainers** to enhance their life skills which would help them significantly to increase their chances of succeeding in a job interview. This program is being launched with a limited no of colleges in India.

Dr. (Mrs.) Sudha Rathod
Principal
Oriental College of Pharmacy
Plot No. 3, 4 & 5, Sector-2,
Sanpada, Navi Mumbai.

ORIENTAL COLLEGE OF PHARMACY SANPADA NAVI MUMBAI 400 705

We are looking forward to partner with your institute and plan to run the below initiatives:

1. **24-Hrs. classroom capsule training program based on Interview Skills, Soft Skills & Personality Development (Details mentioned below & training outline document attached).**

- Topic which will be covered during the training program is attached in the mail with the name "Training Outline".

Signature Not Verified

Signed By:SUDHA SURESH RATHOD
Signed By:CN=SUDHA SURESH RATHOD, SERIALNUMBER=ea2a4c

- College can have multiple batches for training at the same time on the same dates
- Rubicon will provide corporate trainers as per the number of batches.
- We are aiming to train final and pre-final year students only under **"Life Skill Training Program"**.

2. **Industry visit of students at Barclays Office in Delhi & Noida which is applicable to the colleges of Delhi NCR only. (Details is attached in the attachment).**

- Students will interact with Barclays Managerial position employees, get their queries answered on career options, career growth and latest trend in the industry.
- It will be a two-hour session from 2 pm to 4 pm.
- We required 15 confirmed students per batch to visit.
- We are aiming to train final & pre-final year students only under **"Life Skill Training Program"**.

3. **Virtual Session with Barclays which is applicable to the colleges outside Delhi NCR.**

- Virtual Session is exposure and interactive session between the students and Barclays Managers.
- During the session, students get the chance to interact with the manager of Barclays who carries rich experience in the industry.
- **Virtual Interactive Session cover the below topics:**
  - Organizational Structure.
  - Public Speaking.
  - Presentation Skills.
  - E-mail Etiquette.
  - Grooming.
  - Group Discussion.
  - Personal Interview.
  - Assessment will be conducted on Group Discussion and Personal Interview.
- We are aiming to train final & Pre-final year students only under **"Life Skill"** Training Program.

4. Placement Assistance in MNCs PAN India locations.
5. Post Placement Mentoring and Career Counseling for one year.

Look forward to working with your esteemed institution.

Thanks & Regards,

Team Life Skill , Pune

Letter of Gratitude

Dear Sir,

We, at Oriental College of Pharmacy, would like to express gratitude for conducting the 4-day **Life Skills Workshop** for our final year B.Pharm. students from **12th July to 15th July 2022.**

We appreciate your willingness to give your time and expertise to groom the personality of our students. This has immensely benefited the students in improving their soft skills which would play a pivotal role in their professional development.

We look forward to be associated with you in the future as well.

Thank you.

Best Regards.

Report on Life Skills Training Program

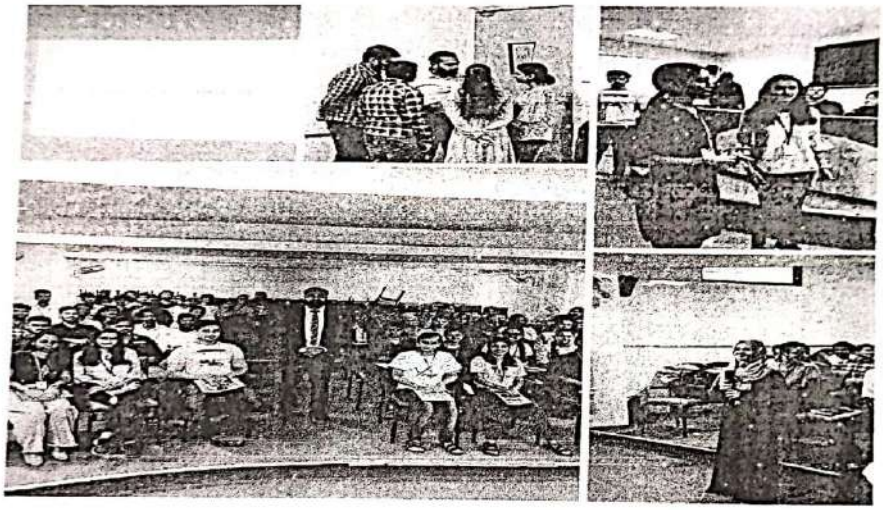

12th -15th July 2022

The Placement Cell of Oriental College of Pharmacy organized 4-days workshop for Final Year B. Pharm students on **'Personality Development/Employability Skills development program' from 12th-15th July 2022** from 9.30 am-4.30 pm. The training program was based on Barclays 'Life Skill' program in collaboration with Rubicon.

Glimpses of Day 1

At 9.30 am sharp, Dr. Vandana Jain, Placement Cell In-charge of OCP and the host for the workshop welcomed the speaker Mr. Atul Shinde and all the attendees. Dr. Vandana Jain introduced the speaker to the attendees. This was entailed by handing over the center-stage to the speaker Mr. Atul Shinde.

Mr. Atul Shinde shared that Life Skills are essential for a blissful life. He shared the various dimensions of Life Skills, including Communication Skills, Presentation Skills, Organizational structure, etc. He urged the youth to Learn to Appreciate and Make it a Habit. He also interacted with the students in the session about various dimensions of Life Skills. He also explained about email writing skills and grooming etiquette.

Glimpses of Day 2

Self-realization is must in today's scenario. A person has to be aware of his/her strengths and weakness. On day 2, Mr. Atul Shinde explained the importance of self-realization. He asked each student about his/her strengths and how to improve them. The students performed various activities which helped them to know their strengths and areas of improvement. He also dealt with Stage fear. Mr. Atul Shinde organized various activities for the students to overcome the stage fear which really helped them a lot. He also discussed about Resume writing and various aspects of resume format.

Glimpses of Day 3

Communication and Confidence play an important role in shaping an individual's life, personal as well as professional. On day 3, Group discussion activity was carried out. The speaker divided the students into groups and gave them a topic. Each student shared their views and opinions on the given subject. This helped the students to communicate and to put their views confidently. The speaker also explained about the Goal setting techniques and Time management.

Glimpses of Day 4

Day 4 was focussed on Interview Skills. The speaker conducted a mock interview for the students to give them first- hand experience of actual interview process. After the interview session, Mr. Atul Shinde explained about do's and don'ts of the interview. He covered the important questions generally asked in a Job interview, challenging or tough questions and ways to handle them. Further, he highlighted common errors people make during interviews. At the end of the workshop a valedictory function was held where Dr. Sudha Rathod, Principal of Oriental College of Pharmacy delivered an inspiring speech for the students. She further

felicitated the speaker for the 4 days workshop, Mr. Atul Shinde. The speaker also shared his views and feedback of the workshop.

Dr. Vandana Jain, the Placement Cell In-charge, concluded the workshop by delivering the vote of thanks and acknowledging all the attendees and the guest speaker to have graced the event. The workshop overall was a great success. The students were highly optimistic at the end of the session and were delighted with this remarkable experience.

WEBINAR REPORT- GOVERNMENT JOB OPPORTUNITIES AFTER B.PHARM

The Career Guidance and Entrepreneurship cell of Oriental College of Pharmacy, Navi Mumbai has organized webinar on, "Government Job Opportunities after Pharm" on Zoom Cloud Live on 29th January, 2022 from 2.00 P.M to 3.30 P.M. The session was held for the pharmacy graduates and Dr. Anand Shedge was invited as the guest speaker for the day.

The creative team of the Entrepreneurship cell came up with official flyer and invite on January 27, which were circulated throughout the colleges of University of Mumbai and to other college across the country. More than 240 participants various pharmacy colleges had actively participated in the webinar.

The session started with the welcome of all the delegates by Principal and Convernor, Dr. Sudha Rathod and Dr. Vandana Jain, (Coordinator, Career guidance and Entrepreneurship cell). Principal Dr. Sudha Rathod Madam also acknowledged the good work done by the placement team and Career guidance team members of OCP . The hosts of the event, introduced the expert speaker Dr. Anand Shedge, Head of MET Institute (Mumbai), Vice president of IPA-MSB-SF and mentor of IPA-MSB-SF, and put light on his work experience. This was entailed by handing over the center-stage to the speaker Dr. Anand Shedge.

He took off his exclusive lecture by briefing about government job opportunities after B. Pharm. He provided information about various pharmacy courses. He gave a glance about the hard skills and Soft skills that one should acquire in today's workforce. He explained the attendees about job opportunities in pharmacy, viz. Quality assurance, Community pharmacy, Hospital and Clinical pharmacy, R&D, Sales and Marketing, Quality control and many more. He also briefed about the Government opportunities for a pharmacist such as Government analyst, Forensic scientists, Drug Inspector- Govt. of India and State level, Pharmacist in Army, Navy, Air force and Govt. hospitals, CSIR, Food and Drug administration, etc .

He further talked about recruitment of Pharmacist at Bhabha Atomic Research Centre, Tata Memorial hospital, Centre railway, NPM Pune recruitment, KDMC Recruitment, CGHS Mumbai Recruitment, etc. He also highlighted the top Government Education Institutes. Along with that he also briefed the competitive exams viz. UPSC and MPSC and explained about the qualities that one should acquire to attempt these competitive exams as well as its preparation. He also explained about various job opportunities available in Maharashtra State Provision Commission.

He ended his lecture with the question and answer session with the attendees.

WEBINAR REPORT-"JOB OPPORTUNITES AFTER B.PHARM

A webinar on "Job opportunities after B.Pharm", was organized by career Guidance and Entrepreneurship Cell, Oriental college of pharmacy, on Saturday, 22nd January 2022.

Principal Dr. (Mrs) Sudha Rathod and co-ordinator Dr. Vandana Jain initiated the session with welcome of the speaker for the session Mr.Vaibhav Jogi, Deputy Manager at International Business at Hetero Drugs. Accompanying with him was Mr. Ameesh Shukla, OCP A, currently working as Senior Executive at International Business at Macleods Pharmaceuticals, also enlightened today's webinar.

Mr.Vaibhav Jogi, addressed about the Role and Responsibilities in different segments of pharmacy like clinical pharmacy, hospital pharmacy, pharmacy regulator etc.

He also briefed about other career options after B pharm like Drug inspector, pharmacist, pharmaceutical marketing, health inspector, Medical underwriting, wholesalers, pathological lab scientist, R&D Executive and more more. Mr. Vaibhav has well elaborated on marketing sector, its scope, its requirement and skill required for MR.

Session was very informative and Mr. Vaibhav Jogi encouraged students by informative quotes as well. The session was indeed an enlightening one for all the students.

WEBINAR REPORT- "GUIDENCE FOR ENTREPRENEURSHIP"

A webinar on "Guidance for Entrepreneurship", was organized by Career Guidance and Entrepreneurship Cell of Oriental College of Pharmacy, on Tuesday, 2nd November 2021 from 10-12 noon.

The resource person for the session was Mr.Girish kumar Trivedi. Mr. Girish Kumar Trivedi is an alumni of Oriental college of pharmacy and has done MBA from Chetana's Institute of Management & Research and was a marketing executive at Biocon Ltd-API in 2012 till 2014. In 2014 he has joined his family business of retail medical chain and opened multiple medical stores in the name of Ranjan medical Stores and is a Founder & Managing Director at Ranjan Healthcare (braceon) which was inaugurated in 2018. The purpose of webinar was to help to students aquire the skill, knowledge to make their career decision .

Principal Dr. (Mrs) Sudha Rathod and co-ordinator Dr. Vandana Jain initiated the session with welcome note to the speaker and audience. The session was very informative and motivational for students. Mr.Girish kumar Trivedi guided how to become Entrepreneur from Wantrepreneur. he told about his journey and the steps for entrepreneurship including Freelancing ,start-up , scale up ,and finally an Entrepreneur. He also discussed about how to start-up - freelancing , office setup , priority management , types of firm , market segment , focused pilot market , market research v/s institution , product development and about how to scale-up – new market , technology for speed and scale.

The session was indeed as an enlightening event for all the students. Mr.Girish kumar Trivedi has also encouraged the students by great informative probe .
Later, student's queries were been solved by the Mr Girish kumar Trivedi. The session ended by giving vote of thanks by student member of Placement cell and Co- ordinator Dr. Vandana Jain for a motivational direction for the future aspirants.

WEBINAR REPORT - "Career Guidance -Higher studies options after B.Pharm"

The webinar on "Career Guidance -Higher studies options after B.Pharm", was organized by Career Guidance and Entrepreneurship Cell, Oriental College of Pharmacy, on 9th October 2021.

Principal Dr. (Mrs) Sudha Rathod initiated the session with welcome note to the panellist. Panellists were OCP Alumni perusing / pursued higher studies from renowned institutes. (NIPER, ICT, NMIMS).

The session was indeed an eye-opener and motivational session for all the students present. Mr. Kaushik Kuche (M.S.Pharmaceutics, NIPER, Ahmedabad and currently pursuing Ph. D. Pharmaceutics NIPER, Mohali), Mr.Aditya Singh (M.S. (Pharm.) Pharmacology & Toxicology NIPER, Hyderabad and currently pursuing Ph.D. NIPER, Ahmedabad) . Mr. Abhinav Gupta (MBA in Pharmaceutical Management, NMIMS, MUMBAI) and Mr. Burhanuddin Kaglawala (MBA in Pharmaceutical Management, NIPER, Mohali) were invited to address the student. The purpose of the webinar was to offer concise and insightful information on courses that students can consider and to help them acquire the knowledge. information, skills and narrow them down to make career decision.

Mr. Kaushik Kuche addressed that there are myriads of opportunities after B.Pharm . One can opt for job or pursue higher studies in M.S/M.Pharm, MBA or PG Diploma. He also conveyed the history of NIPER up to its today's growth with its importance.

The next panellist, Mr. Aditya Singh shared his views on entrance exams such as GPAT/GATE, NIPER, JEE and how do they differ from each other. Also added note on score system for such examinations and strategies to keep in mind while appearing for the examination. According to him overseas educational options are also good option for research and career.

Mr. Burhanuddin Kagalwala and Mr. Abhinav Gupta provided detail explanation about structure of MBA Pharm which consists of accounts & finance, economics and many other major subjects. The guidance about its subjects, entrance examinations, required ranks as well as the job opportunities after MBA in Pharma and Non-Pharma sector was elaborated by them.

Dr. Mahendra K. Prajapati Sir, (Assistant Professor, Oriental College of Pharmacy) has also added note for post-graduation course option in ICT. And also explained about admission process, examinations, cut off marks.

Later, student's queries were been solved by the panellist. The session ended up with a motivational note by giving directions to the future aspirants.

WEBINAR REPORT – "APPLICATION OF SAS IN LIFE SCIENCE AND HEALTH CARE INDUSTRY"

The webinar on "Application of SAS in life science and health care industry" was organized by Placement Cell, Oriental College of Pharmacy, on 30th October 2021.

Mr. Madhav Desiraju and Mrs. Archana Sampat, From SAS India, were invited as speaker for guiding the students.

Mr. Suraj Gupta, Associate Placement Co-ordinator, initiated the session with welcome note to the speaker Mr. Madhav Desiraju with the introduction of SAS.

The agenda of this webinar was all about **SAS and its application in Life sciences & health care** (About clinical Trials, role of SAS in clinical trials), **How Technology is changing and enabling the same** (SAS for life sciences analytics Clinical SAS process workflow) and **SAS Academy for clinical Programming** (contents, features, credentials). The session was indeed as an enlightening for all the students.

Mr. Madhav Desiraju, addressed about Clinical Trial in a Nutshell and also discussed its phases of clinical trial. He explained the sources of data and role of SAS in pharma life cycle. Also overviewed the importance of SAS in health care industry. The advantages, uses of SAS were explained. He also explained in detailed about various stages of SAS work flow that are import data, transfer data to analyse structure, creation of table & clinical report, export data & further submission to FDA. He conveyed the Role of SAS in digital life like FACEBOOK, E-MAIL, LINKEDIN, TWITTER etc. Also discussed the benefits of SAS Digital Badges that are LEARN SAS and CERTIFIED SAS and also provided summary of Modules included in SAS training.

Later, various doubts of student's were been solved by the Mr. Madhav Desiraju and Mrs.Archana Sampat. The session ended by vote of thanks from Placement Coordinator Dr. Vandana Jain.

PlatPharm

Nurturing Aspirations

With

ORIENTAL COLLEGE OF PHARMACY

Sanpada, Navi Mumbai

Pharmaceuticals as well as its allied industries offer a wide range of career opportunities to pharmacists. With the steady growth in the industry over the past few years and with more advanced and specialized new age therapies being discovered, we have witnessed some newer avenues opening up for the pharma professionals. The last decade has seen pharmacy graduates explore many unconventional disciplines of this industry and have thus created a niche for themselves in their career path.

Are you interested in knowing more about these career opportunities and more importantly if a career role is suited for your aptitude & personality?

About the Seminar

PlatPharm, a "first-of-its-kind" forum for pharmaceutical sciences students in India, will be addressing the students of our institute on the 'Refine Your Professional Goals – A Scientific Approach' as well as the newer opportunities in the Industry. Along with it, students will also be explained on how to craft a role-befitting resume and interviewing techniques. This session will enlighten you on how you can plan your higher education, immediate career path and chart your career journey with confidence.

Speakers: **Geetha Sriniwasan & Lakshmi Ananthanarayanan**

Setting Your Professional Goals: A Scientific Approach
12th April 2022

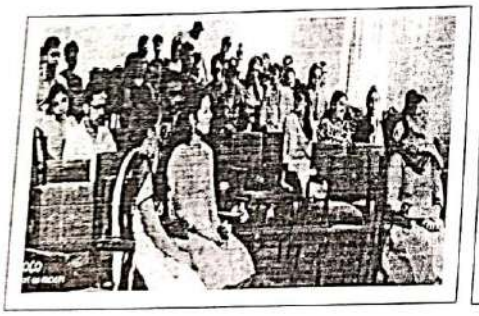

Career guidance and Entrepreneurship cell of Oriental College of Pharmacy, Sanpada in association with Plat Pharm Organization has organized a seminar on the topic "**Setting your professional goals: A scientific approach**" on 12th April 2022, Tuesday for Final year B Pharm and M Pharm students.

PlatPharm is a first-of-its-kind forum specially designed for the Pharmacy students to connect with experienced professionals from the industry and the academia. It is founded and guided by pharma professionals who have been in the thick of the Indian pharmaceutical industry for 3 to 5 decades. Being pharmacy professionals themselves, they understand the practical needs of the industry and aim to nurture the talent of the students through PlatPharm.

The speakers for the seminar were Ms.Geetha Sriniwasan, Founder- PlatPharm and Ms.Lakshmi Ananthanarayanan, Co-Founder –PlatPharm. Ms. Geeta is a brand management and strategy formulation expert who works as an advisor on marketing strategies to Indian as well as international healthcare companies. Ms. Lakshmi is also an experienced Market Research Professional who is working as an independent Market Research consultant.

Ms. Geeta began the seminar by interacting with the students on their career choices. She enquired about the number of students opting for higher studies, seeking job opportunities and students still in dilemma about their career paths. She familiarized the audience with the current job scenario and market statistics. Ms. Lakshmi acquainted the students with the services and opportunities that PlatPharm offers. The seminar was concluded with question & answer session and a vote of thanks.

Minutes of meeting

Title of Meeting	GPAT Classes meeting
Date of meeting	07/10/2020, Wednesday
Meeting Venue	Principal's cabin at 3.00 PM – 4.00 PM
Meeting conducted by	Dr. Sudha Rathod (Principal)
Attendees	1. Mrs. Pushpalata Chougule 2. Dr. Mahendra Prajapati 3. Mrs. Dhanashree Sanap

Minutes of meeting

Following points were addressed by Principal Madam in the meeting:

1. GPAT Classes to be conducted for Final year B. Pharm Students, so that they should get scholarship for pursuing masters.
2. Classes to be taken online by respective faculty
3. Conducting GPAT classes is good for NIRF ranking
4. Classes to be taken from mid-October, November, December 2020 and January 2021
5. Final year class in charge will talk with Final year B. Pharm Students and will submit two report details as follows:
   i. Timetable details of those faculty who have completed their portion in Final year and availability of time slots for conducting GPAT classes
   ii. Report of number of students willingly to appear for GPAT exams (details of students with their e-mail ids)
6. Timetable for GPAT classes will be prepared by Mrs. Dhanashree Sanap & Dr. Mahendra Prajapati, after communicating with respective faculties.
7. GPAT topics for lectures to be selected and weightage for the topic should be checked
8. Record of classes conducted and attendance record will be maintained.

Opportunistic Entrpreneurship - Interactive Session

Oriental College of Pharmacy, Sanpada, Navi Mumbai

An interactive online session titled "Opportunistic Entrepreneurship" was organized by the Career Guidance and Entrepreneurship Cell for the students of T.Y B. Pharm, Final Year B. Pharm and M. Pharm students on 13th February 2021. Mr. KrantiSagar More, Entrepreneur & Secretary E-cell ICT, Mumbai, was guest speaker for the Session.

The session began at 3:00 pm IST. The host of the session Mr. Suraj Gupta, Asst. Professor, OCP, introduced Dr. Sudha Rathod madam, Principal, OCP, which was followed by an introduction of the guest speaker by principal madam. The speaker then started with his presentation that briefly spoke about Entrepreneurship, how to identify and seize an opportunity, difference between successful startups and failed startups and how to make profits by identifying the market needs and solving a problem. The speaker also discussed his own startup experiences and how he made huge profits with his formulations during the COVID-19 lockdown period. Dr. Vandana Patravale ma'am from ICT also attended the session. The speaker also focused and emphasized on importance of planning in a startup and why an alternative Plan B is important.

The session was followed by a Q&A discussion wherein the students asked their queries to the speaker. The session was concluded with a Vote of thanks by the host.

tisagar Shivaram More,is currently pursuing PhD (Tech) in Pharmaceutics from Institute of mical Technology (ICT), Matunga , Mumbai. He was Entrepreneur - Cell (E-CELL) secretary in . He has successfully completed Two year full time residential M.Pharm (Pharmaceutics) from bhgad College of Pharmacy , University of Pune and B. Pharm from SND College of Pharmacy, ashik. He has Completed his LLB degree from North Maharashtra University, Jalgaon. He has reviously worked as an Officer in Nutraceutical R &D with Reelabs (former Fem Care Pharma) at Nashik .His areas of research includes –

1)Nutraceutical Vitamin D3 formulations,

2)Product Development,

3)Technology Transfer, etc.

He has one international book chapter published in Taylor & Francis, USA. During the Covid-19 pandemic Mr Krantisagar came up with a 48 hrs start-up plan .And get turn over up to 85 Lacs in 2-3 onth time period. He developed Hand sanitizer, Hand Wash, Surface disinfectant, Sanitization ervices, Foam Disinfectant, etc. Due to all his efforts and dedication, this startup could scale great neights and a turnover upto 85 lakhs in 2-3 months period was achieved ,which was just exceptionally great. Apart from Mr Krantisagar More is also currently working in the field of agriculture for developing Multilayered farming wherein vegetables and fruit crops grown employing organic and sustainable methods in the multilayer farms are rich in vitamins, minerals, proteins and carbohydrates and this will help smallholder farmers grow various seasonal vegetables and horticultural crops throughout the year while ensuring food and nutritional security for the household. The export of tomatoes in Dubai, Middle East, Bangladesh & Afganistan is also being regulated under his supervision. His unit has harvested an average of 3000 kg tomatos per day which was need of the hour. From this initiative many vulnerable families are provided with an additional income from the sale of surplus produce .By doing this activity he could also identify the problem in veterinary field and documented a project to Jammu Kashmir government for making of Novel & Cost effective cattle feed. From this initiative many vulnerable families are provided with an additional income from the sale of surplus produce He has established a new start up company in J& K region which is an another commendable achievement of Mr Krantisagar More.

REPORT ON THE SESSION ON "CV WRITING" ORGANIZED BY PLACEMENT CELL

An online session on CV writing seminar was organized by Oriental College of Pharmacy virtually through Google meet for final year B. Pharm and second year M. Pharm students on 18th Feb 2021. The session on CV writing was conducted in order to help the final year students of B.Pharmacy / M.Pharmacy in preparing an effective CV as they would be exposing themselves in the real world soon and so as to have enough knowledge on proper writing and presenting their skills and achievements.

The guest speaker for the seminar was Dr. Sonal Sharma. The session started with the introduction of the guest speaker by the host for the event Mr. Akash Tiwari and Ms. Avantika Dubey. Dr. Sonal has shared her knowledge, tips and tricks on writing an amazing CV .She also mentioned all the essentials for writing the CV and emphasized saying the CV should be made appropriately and has to be errorless as the CV is going to be the first impression of the person. She then started with the basics by discussing the difference between the resume and the CV. She then spoke about the format in which the CV is to be prepared. And the Do's and Don't in the CV writing. At the end of her session she solved all the doubts asked by the students and tried to solve them in every possible way she could.

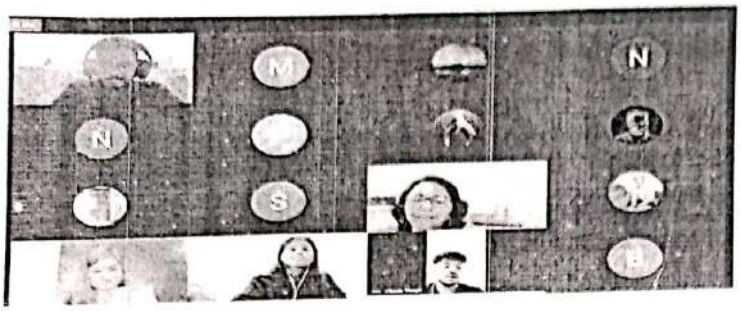

The session then ended by thanking the speaker for her precious time and guidance. The whole event ended successfully and was found to be very beneficial for final year students as reflected from the feedback responses received.

NOTICE

Saturday, August 10, 2019

All Faculty members and Students of B.Pharmacy Final Year are hereby informed that classes for "**GPAT-2019-20**" will be held on **Saturday** only, @ 2.30 p.m. as per the following schedule written herewith in the table.

S.N.	Date	Teacher's Name	Topic
01	24th August 19	Mr.S.K.Kar	Prescription, Plant Location, Displacement Value, Extraction and Galenical Products
02	31st August 19	Dr.Sudha Rathod	Viscosity and Rheology
03	21st September 19	Dr.Pradnya Shanbaghv	Mixing, Packaging of Pharm. Products
04	28th September 19	Dr.Ganesh Dev	Dehumidification and Humidity Control, Refrigeration and Air Conditioning
05	28th September 19	Mr. Asish Dev	Thermodynamics and Photochemistry Heat transfer, Filteration & Centrifugation, Chemical Kinetics, Quantum Mechanics
06	5th October 19	Dhanashri Mundhe	Thermochemical equations,
06	12th October 19	Dr. Mufassir Momin	As per her choice
07	19th October 19	Ms.Drakshan Shaikh	Conductometry, Coulometry, Polarography, Amperometry
08	26th October 19	Mrs.Arti Balakrishnan	Chromatography and Spectroscopy
09	9th November 19	Dr.Vanita Kanase	Metabolic cycles
10	23rd November 19	Mr.Imtiyaz Ansari .	Fundamentals of General Pharmacology, Chemotherapy of Malignancy and immunosuppressive agent with anticancer. Neoplastic diseases
11	7th December 19	Dr. P. Chaughule	Respiratory diseases, Endocrine disorders, Joint and Connective tissue disorder
12	14th December 19	Dr.Nutan Rao	Pathophysiology of Common Diseases Importance of fundamentals of Organ Chemistry, Elimination Reactions, Neighbouring Group Effect, Medicin Chemistry Basic Principle
13	21st December 19	Mr.Ameya Deshpande	Steriochemistry, E.N. Aromatic Addi and Substitution, Acid Base, Redox, Precipitation, Complexometric Titration Gravimetric and Miscellaneous Analysis
14	28th December 19	Mr.Amjad Ali	Stereoselective and Stereospecific Reactions: Structure, Nomenclature, Preparation and Reactions of numerous classes of compounds
15	4th January 2020	Dr. Mohib Khan	Introduction to Primary and Secondary Metabolite
16	11th January 2020	Dr.Vandana Jain	Histology of Plant Tissues

16/20

ORIENTAL COLLEGE OF PHARMACY, SANPADA, NAVI MUMBAI

PRE-GPAT EXAM-2019

Subject : Pharamaceutics Date:07/10/2019

(Note : Answer all question. Each questions caries 01 mark. No negative marking.)

Q1. Crystalline and amorphous drugs exhibit higher ..... and ..... respectively.

a) Solubility and stability b) Stability and solubility 1M

c) bioavailability and stability d) none of the above

Q2. The ability of a compound to crystallise as more than one crystalline species with different internal lattices is called as

1M a) Polymorphism b) Effervescence

c) Deliquescent d) sublimation

Q3. Which of the statements is incorrect?

a) Polymorphs exhibit different solubilities b) Polymorphs exhibit different mol. wt 1M

c) Polymorphs exhibit different stability d) Polymorphs exhibit different m.p.

Q4. The instrument employed to determine moisture levels in samples is

a) SEM b) Karl-Fischer apparatus 1M

c) DTA d) DSC

Q5. Surface morphology is observed by

a) SEM b) Karl-Fischer apparatus 1M

c) DTA d) DSC

Q6. XRD studies help in study of

a) surface morphology b) solubility 1M

c) moisture content d) crystalline forms

Q7. Angle of repose value helps in estimation of

a) flow property b) solubility 1M

c) melting point d) drug excipient compatibility

Q8. Hausner's ratio value of >1.5 indicates

a) poor flow b) good flow X

c) no flow d) all of the above

Q9. Carr's index value of 5-15 indicates

a) excellent flow b) good flow X

c) poor flow d) fair flow

Q10. Prevention of oxidation is achieved by replacing the air in an ampoule with which inert gas?

a) Nitrogen b) Hydrogen 1M

c) Carbon mono oxide d) Sulphur

Q11. As per ICH guidelines the accelerated storage conditions for drugs and dosage forms are

a) 40 ± 2°C & 70 ± 5% RH
b) 40 ± 2°C & 75 ± 5% RH
c) 45 ± 2°C & 75 ± 5% RH
d) 35 ± 2°C & 65 ± 5% RH

Q12. As per ICH guidelines the long-term storage conditions for drugs and dosage forms are

a) 25 ± 2°C & 60 ± 5% RH
b) 25 ± 2°C & 65 ± 5% RH
c) 30 ± 2°C & 60 ± 5% RH
d) 35 ± 2°C & 65 ± 5% RH

Q13. Freeze-Thaw method for evaluation of stress testing is conducted for

a) Tablets
b) Capsules
c) Suspensions
d) Aerosols

Q14. Shelf life formula is

a) $t_{90} = 0.105/K$
b) $t_{90} = 0.905/K$
c) $t_{90} = 0.105*K$
d) $t_{90} = K/0.105$

Q15. Partition co-efficient generally measures

a) Drug's lipophilicity
b) Ability of drug to cross cell membrane
c) Both
d) None

Q16. Which of the following compound possess high aqueous solubility?

a) Hydrates
b) Anhydrates
c) Both
d) None

Q17. Which of the following techniques are used to prepare amorphous forms??

a) Rapid precipitation
b) Lyophilization
c) Rapid cooloinh
d) All of above

Q18. Dissolution of a drug particle is described by

a) Noyes-Whitney equation
b) Stock's equation
b) Handerson-Hasselbalch eqn
d) None of above

Q19. Which of the following substances having poor water solubility?

a) Weak electrolytes
b) non polar molecules
c) both
d) None of above

Q20. Which of the following co – solvents are used to increase the solubility of a drug?

a) Sorbitol
b) Glycerine
c) Ethanol
d) All of above

Q11. As per ICH guidelines the accelerated storage conditions for drugs and dosage forms are

a) [illegible]
b) 40 ± 2ºC & 75 ± 5% RH
c) 45 ± 2ºC & 75 ± 5% RH
d) 35 ± 2ºC & 65 ± 5% RH

Q12. As per ICH guidelines the long-term storage conditions for drugs and dosage forms are

a) 25 ± 2ºC & 60 ± 5% RH
b) 25 ± 2ºC & 65 ± 5% RH
c) 30 ± 2ºC & 60 ± 5% RH
d) 35 ± 2ºC & 65 ± 5% RH

Q13. Freeze-Thaw method for evaluation of stress testing is conducted for

a) Tablets
b) Capsules
c) Suspensions
d) Aerosols

Q14. Shelf life formula is

a) $t_{90} = 0.105/K$
b) $t_{90} = 0.905/K$
c) $t_{90} = 0.105*K$
d) $t_{90} = K/0.105$

Q15. Partition co-efficient generally measures

a) Drug's lipophilicity
b) Ability of drug to cross cell membrane
c) Both
d) None

Q16. Which of the following compound possess high aqueous solubility?

a) Hydrates
b) Anhydrates
c) Both
d) None

Q17. Which of the following techniques are used to prepare amorphous forms??

a) Rapid precipitation
b) Lyophilization
c) Rapid cooloinh
d) All of above

Q18. Dissolution of a drug particle is described by

a) Noyes-Whitney equation
b) Stock's equation
b) Handerson-Hasselbalch eqn
d) None of above

Q19. Which of the following substances having poor water solubility?

a) Weak electrolytes
b) non polar molecules
c) both
d) None of above

Q20. Which of the following co – solvents are used to increase the solubility of a drug?

a) Sorbitol
b) Glycerine
d) Ethanol
d) All of above

ORIENTAL COLLEGE OF PHARMACY

PRE-GPAT EXAM-2019

Subject : Pharamaceutics

Date:07/10/2019

(Note : Answer all question. Each questions caries 01 mark. No negative marking.)

Q1. Crystalline and amorphous drugs exhibit higher ---------- and ---------- respectively.

a) Solubility and stability

b) Stability and solubility

c) bioavailability and stability

d) none of the above

Q2. The ability of a compound to crystallise as more than one crystalline species with different internal lattices is called as

a) Polymorphism

b) Effervescence

c) Deliquescent

d) sublimation

Q3. Which of the statements is incorrect?

a) Polymorphs exhibit different solubilities'

b) Polymorphs exhibit different mol. wt

c) Polymorphs exhibit different stability

d) Polymorphs exhibit different m.p.

Q4. The instrument employed to determine moisture levels in samples is

a) SEM

b) Karl-Fischer apparatus

c) DTA

d) DSC

Q5. Surface morphology is observed by

a) SEM

b) Karl-Fischer apparatus

c) DTA

d) DSC

Q6. XRD studies help in study of

a) surface morphology

b) solubility

c) moisture content

d) crystalline forms

Q7. Angle of repose value helps in estimation of

a) flow property

b) solubility

c) melting point

d) drug excipient compatibility

Q8. Hausner's ratio value of >1.5 indicates

a) poor flow

b) good flow

c) no flow

d) all of the above

Q9. Carr's index value of 5-15 indicates

a) excellent flow

b) good flow

c) poor flow

d) fair flow

Q10. Prevention of oxidation is achieved by replacing the air in an ampoule with which inert gas?

a) Nitrogen

b) Hydrogen

c) Carbon mono oxide

d) Sulphur

Submission" Report for G-PAT Class/AY 2019-20/Dr. Mohib Khan/Sub-Pharmacognosy

Reference: Notice dated 10th August 20219

Dear Mam,

Please find the details of G-PAT Class/AY 2019-20/by the undersigned for the subject of Pharmacognosy,

Topic	Introduction to Primary and Secondary Metabolites
Class taken	4th January 2020
Duration of class	2.00 pm to 3.00 pm
Students attended	35

This is for your kind information.

Thanking you,

Yours truly

~~Saturday, August 10, 2019~~

NOTICE

All Faculty members and Students of B.Pharmacy Final Year are hereby informed that classes for "GPAT-2019-20" will be held on **Saturday** only, @ 2.30 p.m. as per the following schedule written herewith in the table.

S.N.	Date	Teacher's Name	Topic
01	**24th August 19**	Mr.S.K.Kar	Prescription, Plant Location, Displacement Value, Extraction and Galenical Products
02	**31st August 19**	Dr.Sudha Rathod	Viscosity and Rheology
03	**21st September 19**	Dr.Pradnya Shanbagh	Mixing, Packaging of Pharm. Products
04	**28th September 19**	Dr.Ganesh Dev	Dehumidification and Humidity Control, Refrigeration and Air Conditioning Thermodynamics and Photochemistry
05	**28th September 19**	Mr. Asish Dev	Heat transfer, Filteration & Centrifugation, Chemical Kinetics, Quantum Mechanics Thermochemical equations,
06	**5th October 19**	Dhanashri Mundhe	As per her choice
06	**12th October 19**	Dr. Mufassir Momin	Conductometry, Coulometry, Polarography, Amperometry
07	**19th October 19**	Ms.Drakshan Shaikh	Chromatography and Spectroscopy
08	**26th October 19**	Mrs.Arti Balakrishnan	Metabolic cycles
09	**9th November 19**	Dr.Vanita Kanase	Fundamentals of General Pharmacology, Chemotherapy of Malignancy and immunosuppressive agent with anticancer, Neoplastic diseases
10	**23rd November 19**	Mr.Imtiyaz Ansari	Respiratory diseases, Endocrine disorders, Joint and Connective tissue disorder
11	**7th December 19**	Dr. P. Chaughule	Pathophysiology of Common Diseases
12	**14th December 19**	Dr.Nutan Rao	Importance of fundamentals of Organic Chemistry, Elimination Reactions, Neighbouring Group Effect, Medicinal Chemistry Basic Principle
13	**21st December 19**	Mr.Ameya Deshpande	Steriochemistry, E.N. Aromatic Addition and Substitution, Acid Base, Redox, Precipitation, Complexometric Titration, Gravimetric and Miscellaneous Analysis
14	**28th December 19**	Mr.Amjad Ali	Sterioselective and Steriospecific Reactions: Structure, Nomenclature, Preparation and Reactions of numerous classes of compounds
15	**4th January 2020**	Dr. Mohib Khan	Introduction to Primary and Secondary Metabolite
16	**11th January 2020**	Dr.Vandana Jain	Histology of Plant Tissues

Notice

All Faculty members and Students of B.Pharmacy Final Year and M.Pharmacy Final Year are hereby informed that **examination against classes for "GPAT-2019-20" will be held on Monday only, @ 3.30 p.m. as per the following schedule written herewith in the table.**

S.N.	Date of Exam	Teacher's Name	Invigilator	Examiner
01	19th August,19	Dr.Sudha Rathod	Chandra Riya Satish	Deshmukh Priyanka Jitendra
02	26th August 19	Mr.S.K.Kar	Devere Dhanashree Subhash'	Fernando Crispin Amirtha
03	2nd September 19	Dr.Pradnya Shanbagh	Gawade Tejal Sanjay	Gole Akshay Sunil
04	9th September 19	Dr.Ganesh Dev	Kadam Shraddha Santosh	Khade Chetan subhash
05	16h September 19	Mr. Asish Dev	Lande Supriya Rajendra	Padge Hrutuja Deepak
06	23rd September 19	Dr. Mufassir Momin	Patil Prerana Ganesh	Rane Drushti Pradeep
07	30th September 19	Ms.Drakshan Shaikh	Shaikh Saima Riyaz	Tikam Mayur Kishor
08	14th October 19	Mrs.Arti Balakrishnan	Jaiswar Uttara Dinanath	Khan Abdul Sattar Qayyum
09	21st October 19	Dr.Vanita Kanase	Khan Fauziya Maqbool	Paskanti Yashashwini Devidas
10	4th November 19	Mr.Imtiyaz Ansari	Patil Rashmi Manoj	Prabhu Kimaya Prashant
11	11th November 19	Dr. Pushpalata Chaughule	Sonone Revati Kalyanand	Tandel Leena Ganesh
12*	25th November 19	Dr.Nutan Rao	Upadhye Krittika Rajendra	Bamne Falak Latif
13	9th December 19	Mr.Ameya Deshpande	Gupta Priya Ashok Kumar	Kadam Shalaka Shashikant
14	16th December 19	Mr.Amjad Ali	Kapadia Salman Salim	Khan Shaheen Shameem
15	24th December 19	Dr. Mohib Khan	Shettigar Shruti Ramesh	Singh Chandrashekhar
16	30th December 19	Dr.Vandana Jain	Yadav Vishwavibhushitam	Yadav Vishwavibhushitam

Note

Faculties should keep the Question papers ready, containing min.50 & max. 100 question.

The paper should be ready one day in advance.

Faculty member should handover the Question paper to Invigilator.

Invigilator, in turn, should handover the Question paper to Examiner.

After paper evaluation, kindly submit the papers to GPAT Co-ordinator.

Friday, August 30, 2019

To,

The President,

Oriental College of Pharmacy,

Navi Mumbai

Subject: GPAT Classes and Exam Schedule / Information-Regarding

Dear Sir,

With all due respect, I, the undersigned, would like to inform you that GPAT Classes for B. Pharmacy Final Year are started from 17th August 2019. The classes will be conducted up to 28th December 2019. There will be total 16 classes. Each class will be followed by the exam.

In the month of January 2020, an online will be taken by AICTE, New Delhi and the students who qualify the exam will be entitled for scholarship for Rs.14, 000 per month at their post graduation level.

The details of the class and exam schedule are attached herewith.

This is for your kind information.

Thanking you

Yours truly,

Dr. Mohib Khan,

Vice Principal

PRE-GPAT EXAM - 2019-20
Subject: Pharmaceutics (S.K.Kar)
Note: Answer all questions. Each Question carries 01 mark. No negative marking

Name: JIWARJ DEEPIKA K. Class: Final Year B Pharm, 2019-20 Roll No.: 62

46+1=47/50

1. Of the following oral liquid formulations which would be considered as an Oropharyngeal formulation?
a) Syrup
b) Elixir
c) Mouthwash
d) Linctus

2. Which of the following formulations would not be applicable to ocular administration?
a) Solution
b) Liniment
c) Suspension
d) Ointment

3. A tablet to treat a headache must first be dissolved in water before swallowing. Which one of the following best describes this type of tablet?
a) Modified release
b) Oral disintegrating
c) Effervescent
d) Buccal

4. Capsules normally fall into two main categories. Which are they?
a) Hard gelatin capsules and soft gelatin capsules
b) Hard gelatin capsules and layered capsule
c) Soft gelatin capsules and compressed capsules
d) Compressed and layered capsules

5. Intravenous, intramuscular and subcutaneous are all examples of which routes of administration?
a) Pulmonary administration
b) Parenteral administration
c) Otic administration
d) Ocular administration

6. Where is the site of administration for a dosage form that uses transdermal delivery?
a) The eyes
b) The lungs
c) Under the tongue
d) The skin

7. Which of the following dosage forms delivers the API to the GI tract?
a) Rectal suppositories
b) Nasal sprays
c) Vaginal pessaries
d) Eye drops

8. Name two different types of inhaler?
a) MDI & API
b) IV & SC
c) DPI & MDI
d) GIT & ATP

9. Nasal administration is commonly used for the relief of?
a) Headache
b) Cough
c) Sore throat
d) Congestion

10. Ocular administration involves the treatment of which are?
a) The skin
b) The eyes
c) The lungs
d) The ear

11) Rotosort is a machine used to sort out:
a) Coated capsules
b) Filled capsules
c) Sealed ampoules
d) Sealed containers

12) Green bones are used for the preparation of a gelatin of the type:
a) A
b) B
c) C
d) A&B

13) In capsules, ROTOFIL is used for filling:
a) Powders
b) Pellets
c) Liquids
d) Corrosive liquids

14) Gelatin and glycerin are used for the preparation of lamellae in a specified ratio. Identify the correct ratio
a) 1:1
b) 5:1
c) 9:1
d) 10:1

15) The size 000 capsules can fill the volume of
a) 1.36ml
b) 0.13ml
c) 0.96ml
d) 0.25ml

16) Capsules shell are made with
a) Starch
b) Pectin
c) Gelatin
d) Shellac

17) Vegetable capsules shell are prepared of:
a) Gelatin
b) Chitosan
c) HPMC
d) None of the above

18) Gelatin is
a) Fat
b) Protein
c) Carbohydrate
d) None of the above

19) Smallest capsule size is represented by number
a) 0
b) 3
c) 1
d) 5

20) The following steps involved in hard gelatin capsule shell production
a) Dipping
b) Spinning
c) Trimming
d) All of the above

21) The shells of soft gelatin capsules may be made elastic or plastic – like the addition of:
a) Sorbitol
b) Povidone
c) Polyethylene glycol
d) Hydroxypropyl methylcellulose

22) High bloom strength gelatin is used in manufacture of
a) Soft gelatin capsules
b) Hard gelatin capsules
c) a & b
d) None of the above

23 Example of Aerosol is:
a) Smoke
b) Solid form
c) Liquid form
d) Emulsion

24. Containers used for aerosol should withstand pressure of
a) 130 -150 psig at 150 °F
b) 140 -180 psig at 130 °F
c) 120 -170 psig at 110 °F
d) 190-200 psig at 210 °F

25. Anthropogenic aerosols are those that are
a) Caused by humans
b) Come from the oceans
c) Come from dry land
d) Caused by natural source

26. Which of the following, found in our atmosphere, is an example of a SECONDARY atmospheric aerosols?
a) Sulphuric acid
b) Dust
c) Smoke
d) Soot

27. Under the ideal gas laws, which of the following is NOT a correct assumption?
a) Molecules occupy a negligible volume
b) Gas volume is insensitive to changes in pressure
c) No energy is lost when molecules collide
d) Forces between molecules are insignificant

28. Which of the following is NOT true of Raoult's law
a) Raoult's law applies to miscible solvents in a closed system
b) The toluene-benzene mixtures obey Raoult's law
c) A pharmaceutical application of Raoult's law is the formulation of pressurised metered dose inhaler
d) The behaviour predicted by Raoult's law is independent of inter-molecular forces

Signature Not Verified

Signed By:SUDHA SURESH RATHOD
Signed By:CN=SUDHA SURESH RATHOD, SERIALNUMBER=ea2a4c

29. Gases do NOT have a role in which of the following pharmaceutical operations
a) Surface area measurement
b) Lyophilisation
c) Distillation
d) Melting

30. For an aerosol inhaled to the lungs, which of the following is NOT true?
a) Airflow becomes faster and more turbulent the more deeply it penetrates the lungs
b) Particles of 5 µm and above impact in the proximal airways
c) Sedimentation is the major mechanism of deposition for particles between 0.5-3 µm
d) Breath-holding will enhance deposition of sub-micron particles by diffusion

31. For pressurised Metered Dose Inhalers (pMDI) which of the following is NOT true?
a) pMDI emit aerosols at high velocity
b) pMDI use liquefied gases as propellants
c) pMDI may be formulated as solutions or suspensions
d) pMDI cannot be used with spacers

32. Which of the following is NOT true of jet nebulisers?
a) Jet nebulisers produce mists
b) Jet nebulisers use high velocity gas flows to generate the Venturi effect to draw solution into the airflow
c) Jet nebulisers induce an decrease in the temperature of the nebuliser solution during operation
d) Jet nebulisers use ultrasonic forces to produce the aerosol

33. Which of the following polymer is widely used in film coating of tablets?
a) Acacia
b) Syrup
c) HPMC
d) PVA

34. Lamination is:
a) Separation of a tablet into two or more distinct layers.
b) Partial and complete separation of the top and bottom crowns of a tablet from the main body of the tablet.
c) Process of sub-coating of tablets
d) None of the above

35. Poorly manufactured tablets may have small pinholes on the surface. This phenomenon is known as
a) Leaching
b) Picking
c) Mottling
d) Chipping

36. Dissolution test apparatus no. 1 as per IP is
a) addle
b) Basket
c) Rotating basket
d) Rotating cylinder

37. Which filler can NOT be used for the preparation of tablets for amine containing basic drugs to avoid discoloration of the tablets?
a) Dicalcium phosphate
b) Microcrystalline cellulose
c) Starch
d) Lactose

38. If the Carr's index of a powder is 10% then the type of powder flow is
a) Poor
b) Excellent
c) Very poor
d) Good

39. In Friability test tablets fall from ___ height.
a) 6 cm
b) 6 inch
c) 9 cm
d) 9 mm

40. ___ is used for guiding movement of the punches in rotary tablet compression machine
a) Die table
b) Strain gauge
c) Cam track
d) Hopper

41. The rate of drug bioavailability is most rapid when the drug is formulated as a
a) Hard gelatin capsule
b) Compressed tablet
c) Solution
d) Suspension

42. Tablet thickness varies with changes in
a) Die fills
b) Temperature
c) Compression force
d) a & c

43. GLP stands for?
a) Good Manufacturing Practices
b) Good Clinical Practices
c) Good Laboratory Practices
d) All the above

44. cGMP prohibits false therapeutic claims
a) True
b) False
c) Not Sure
d) May be

45. Training is not a GMP requirement
a) True
b) False
c) Maybe
d) Not Sure

46. Protect materials and product from contamination and restricted access are the GMP requirement answer choices
a) True
b) False
c) Maybe
d) Not sure

47. Which of the following statements are correct?
a) Processes should be Validated, Robust, Produce uniform product, Protect product from contamination, Controlled, Cleanable and kept clean
b) There should be procedures for all pieces of equipment that explain how to disassemble, how to clean, how to reassemble, how to operate, and where necessary, how to trouble shoot
c) Quality needs to be designed into the product from the very beginning of its lifecycle
d) All the above

48. 5P's covers People, Premises, Product, Processes and Procedures
a) True
b) False
c) Maybe
d) Not sure

49. Contamination may be caused by
a) poor hygiene practices
b) inadequate cleaning
c) residual cleaning agents
d) All of the above

50. Manufacture of sterile medicines does not require strict controls on Line clearance and Line opening
a) True
b) False
c) Maybe
d) Not Sure

   c) Suspension
   d) Ointment

3. A tablet to treat a headache must first be dissolved in water before swallowing. Which one of the following best describes this type of tablet?
   a) Modified release
   b) Oral disintegrating
   c) Effervescent
   d) Buccal

4. Capsules normally fall into two main categories. Which are they?
   a) Hard gelatin capsules and soft gelatin capsules
   b) Hard gelatin capsules and layered capsule
   c) Soft gelatin capsules and compressed capsules
   d) Compressed and layered capsules

5. Intravenous, intramuscular and subcutaneous are all examples of which routes of administration?
   a) Pulmonary administration
   b) Parenteral administration
   c) Otic administration
   d) Ocular administration

6. Where is the site of administration for a dosage form that uses transdermal delivery?
   a) The eyes
   b) The lungs
   c) Under the tongue
   d) The skin

7. Which of the following dosage forms delivers the API to the GI tract?
   a) Rectal suppositories
   b) Nasal sprays
   c) Vaginal pessaries
   d) Eye drops

8. Name two different types of inhaler?
   a) MDI & API
   b) IV & SC
   c) DPI & MDI
   d) GIT & ATP

9. Nasal administration is commonly used for the relief of?
   a) Headache
   b) Cough
   c) Sore throat
   d) Congestion

10. Ocular administration involves the treatment of which are?
    a) The skin
    b) The eyes
    c) The lungs
    d) The ear

11) Rotosort is a machine used to sort out:
    a) Coated capsules
    b) Filled capsules
    c) Sealed ampoules
    d) Sealed containers

12) Green bones are used for the preparation of a gelatin of the type:
    a) A
    b) B
    c) C
    d) A&B

13) In capsules, ROTOFIL is used for filling:
    a) Powders
    b) Pellets
    c) Liquids
    d) Corrosive liquids

14) Gelatin and glycerin are used for the preparation of lamellae in a specified ratio. Identify the correct ratio
a) 1:1
b) 5:1
c) 9:1
d) 10:1

15) The size 000 capsules can fill the volume of
a) 1.36ml
b) 0.13ml
c) 0.96ml
d) 0.25ml

16) Capsules shell are made with
a) Starch
b) Pectin
c) Gelatin
d) Shellac

17) Vegetable capsules shell are prepared of:
a) Gelatin
b) Chitosan
c) HPMC
d) None of the above

18) Gelatin is
a) Fat
b) Protein
c) Carbohydrate
d) None of the above

19) Smallest capsule size is represented by number
a) 0
b) 3
c) 1
d) 5

20) The following steps involved in hard gelatin capsule shell production
a) Dipping
b) Spinning
c) Trimming
d) All of the above

21) The shells of soft gelatin capsules may be made elastic or plastic – like the addition of:
a) Sorbitol
b) Povidone
c) Polyethylene glycol
d) Hydroxypropyl methylcellulose

22) High bloom strength gelatin is used in manufacture of
a) Soft gelatin capsules
b) Hard gelatin capsules
c) a & b
d) None of the above

23 Example of Aerosol is:
a) Smoke
b) Solid form
c) Liquid form
d) Emulsion

24. Containers used for aerosol should withstand pressure of
a) 130 -150 psig at 150 °F
b) 140 -180 psig at 130 °F
c) 120 -170 psig at 110 °F
d) 190-200 psig at 210 °F

25. Anthropogenic aerosols are those that are
a) Caused by humans
b) Come from the oceans
c) Come from dry land
d) Caused by natural source

26. Which of the following, found in our atmosphere, is an example of a SECONDARY atmospheric aerosols?
a) Sulphuric acid
b) Dust
c) Smoke
d) Soot

27. Under the ideal gas laws, which of the following is NOT a correct assumption?
a) Molecules occupy a negligible volume
b) Gas volume is insensitive to changes in pressure
c) No energy is lost when molecules collide
d) Forces between molecules are insignificant

28. Which of the following is NOT true of Raoult's law
a) Raoult's law applies to miscible solvents in a closed system
b) The toluene-benzene mixtures obey Raoult's law
c) A pharmaceutical application of Raoult's law is the formulation of pressurised metered dose inhaler
d) The behaviour predicted by Raoult's law is independent of inter-molecular forces

29. Gases do NOT have a role in which of the following pharmaceutical operations
a) Surface area measurement
b) Lyophilisation
c) Distillation
d) Melting

30. For an aerosol inhaled to the lungs, which of the following is NOT true?
a) Airflow becomes faster and more turbulent the more deeply it penetrates the lungs
b) Particles of 5 µm and above impact in the proximal airways
c) Sedimentation is the major mechanism of deposition for particles between 0.5-3 µm
d) Breath-holding will enhance deposition of sub-micron particles by diffusion

31. For pressurised Metered Dose Inhalers (pMDI) which of the following is NOT true?
a) pMDI emit aerosois at high velocity
b) pMDI use liquefied gases as propellants
c) pMDI may be formulated as solutions or suspensions
d) pMDI cannot be used with spacers

32. Which of the following is NOT true of jet nebulisers?
a) Jet nebulisers produce mists
b) Jet nebulisers use high velocity gas flows to generate the Venturi effect to draw solution into the airflow
c) Jet nebulisers induce an decrease in the temperature of the nebuliser solution during operation
d) Jet nebulisers use ultrasonic forces to produce the aerosol

33. Which of the following polymer is widely used in film coating of tablets?
a) Acacia
b) Syrup
c) HPMC
d) PVA

34. Lamination is:
a) Separation of a tablet into two or more distinct layers.
b) Partial and complete separation of the top and bottom crowns of a tablet from the main body of the tablet.
c) Process of sub-coating of tablets
d) None of the above

35. Poorly manufactured tablets may have small pinholes on the surface. This phenomenon is known as
a) Leaching
b) Picking
c) Mottling
d) Chipping

36. Dissolution test apparatus no. 1 as per IP is
a) Paddle
b) Basket
c) Rotating basket
d) Rotating cylinder

37. Which filler can NOT be used for the preparation of tablets for amine containing basic drugs to avoid discoloration of the tablets?
a) Dicalcium phosphate
b) Microcrystalline cellulose
c) Starch
d) Lactose

38. If the Carr's index of a powder is 10% then the type of powder flow is
a) Poor
b) Excellent
c) Very poor
d) Good

39. In Friability test tablets fall from ___ height.
a) 6 cm
b) 6 inch
c) 9 cm
d) 9 mm

40. ____ is used for guiding movement of the punches in rotary tablet compression machine
a) Die table
b) Strain gauge
c) Cam track
d) Hopper

41. The rate of drug bioavailability is most rapid when the drug is formulated as a
a) Hard gelatin capsule
b) Compressed tablet
c) Solution
d) Suspension

42. Tablet thickness varies with changes in_____
a) Die fills
b) Temperature
c) Compression force
d) a & c

43. GLP stands for?
a) Good Manufacturing Practices
b) Good Clinical Practices
c) Good Laboratory Practices
d) All the above

44. cGMP prohibits false therapeutic claims
a) True
b) False
c) Not Sure
d) May be

45. Training is not a GMP requirement
a) True
b) False
c) Maybe
d) Not Sure

46. Protect materials and product from contamination and restricted access are the GMP requirement answer choices
a) True
b) False
c) Maybe
d) Not sure

47. Which of the following statements are correct?
a) Processes should be Validated, Robust, Produce uniform product, Protect product from contamination, Controlled, Cleanable and kept clean
b) There should be procedures for all pieces of equipment that explain how to disassemble, how to clean, how to reassemble, how to operate, and where necessary, how to trouble shoot
c) Quality needs to be designed into the product from the very beginning of its lifecycle
d) All the above

48. 5P's covers People, Premises, Product, Processes and Procedures
a) True
b) False
c) Maybe
d) Not sure

49. Contamination may be caused by
a) poor hygiene practices
b) inadequate cleaning
c) residual cleaning agents
d) All of the above

50. Manufacture of sterile medicines does not require strict controls on Line clearance and Line opening
a) True
b) False
c) Maybe
d) Not Sure

Oriental College of Pharmacy, Sanpada, Navi-Mumbai
PRE-GPAT EXAM - 2019-20
Subject: Pharmaceutics (S.K.Kar)
Note: Answer all questions. Each Question carries 01 mark. No negative marking

Name: Zubiya Shah ..... Class: Final Year B Pharm, 2019-20 Roll No.: 54

1. Of the following oral liquid formulations which would be considered as an Oropharyngeal formulation?
   a) Syrup
   b) Elixir
   c) Mouthwash
   d) Linctus

2. Which of the following formulations would not be applicable to ocular administration?
   a) Solution
   b) Liniment
   c) Suspension
   d) Ointment

3. A tablet to treat a headache must first be dissolved in water before swallowing. Which one of the following best describes this type of tablet?
   a) Modified release
   b) Oral disintegrating
   c) Effervescent
   d) Buccal

4. Capsules normally fall into two main categories. Which are they?
   a) Hard gelatin capsules and soft gelatin capsules
   b) Hard gelatin capsules and layered capsule
   c) Soft gelatin capsules and c mpressed capsules
   d) Compressed and layered capsules

5. Intravenous, intramuscular and subcutaneous are all examples of which routes of administration?
   a) Pulmonary administration
   b) Parenteral administration
   c) Otic administration
   d) Ocular administration

6. Where is the site of administration for a dosage form that uses transdermal delivery?
   a) The eyes
   b) The lungs
   c) Under the tongue
   d) The skin

7. Which of the following dosage forms delivers the API to the GI tract?
   a) Rectal suppositories
   b) Nasal sprays
   c) Vaginal pessaries
   d) Eye drops

8. Name two different types of inhaler?
   a) MDI & API
   b) IV & SC
   c) DPI & MDI
   d) GIT & ATP

9. Nasal administration is commonly used for the relief of?
   a) Headache
   b) Cough
   c) Sore throat
   d) Congestion

10. Ocular administration involves the treatment of which are?
    a) The skin
    b) The eyes
    c) The lungs
    d) The ear

11) Rotosort is a machine used to sort out:
    a) Coated capsules
    b) Filled capsules
    c) Sealed ampoules
    d) Sealed containers

12) Green bones are used for the preparation of a gelatin of the type:
    a) A
    b) B
    c) C
    d) A&B

13) In capsules, ROTOFIL is used for filling:
    a) Powders
    b) Pellets
    c) Liquids
    d) Corrosive liquids

Oriental College of Pharmacy, Sanpada, Navi-Mumbai
PRE-GPAT EXAM - 2019-20
Subject: Pharmaceutics (S.K.Kar)

Note: Answer all questions. Each Question carries 01 mark. No negative marking

Name: Manasi Uday Umaji Class: Final Year B Pharm, 2019-20 Roll No.: 63

1. Of the following oral liquid formulations which would be considered as an Oropharyngeal formulation?
   a) Syrup
   b) Elixir
   c) Mouthwash
   d) Linctus

2. Which of the following formulations would not be applicable to ocular administration?
   a) Solution
   b) Liniment
   c) Suspension
   d) Ointment

3. A tablet to treat a headache must first be dissolved in water before swallowing. Which one of the following best describes this type of tablet?
   a) Modified release
   b) Oral disintegrating
   c) Effervescent
   d) Buccal

4. Capsules normally fall into two main categories. Which are they?
   a) Hard gelatin capsules and soft gelatin capsules
   b) Hard gelatin capsules and layered capsule
   c) Soft gelatin capsules and compressed capsules
   d) Compressed and layered capsules

5. Intravenous, intramuscular and subcutaneous are all examples of which routes of administration?
   a) Pulmonary administration
   b) Parenteral administration
   c) Otic administration
   d) Ocular administration

6. Where is the site of administration for a dosage form that uses transdermal delivery?
   a) The eyes
   b) The lungs
   c) Under the tongue
   d) The skin

7. Which of the following dosage forms delivers the API to the GI tract?
   a) Rectal suppositories
   b) Nasal sprays
   c) Vaginal pessaries
   d) Eye drops

8. Name two different types of inhaler?
   a) MDI & API
   b) IV & SC
   c) DPI & MDI
   d) GIT & ATP

9. Nasal administration is commonly used for the relief of?
   a) Headache
   b) Cough
   c) Sore throat
   d) Congestion

10. Ocular administration involves the treatment of which are?
    a) The skin
    b) The eyes
    c) The lungs
    d) The ear

11) Rotosort is a machine used to sort out:
    a) Coated capsules
    b) Filled capsules
    c) Sealed ampoules
    d) Sealed containers

12) Green bones are used for the preparation of a gelatin of the type:
    a) A
    b) B
    c) C
    d) A&B

13) In capsules, ROTOFIL is used for filling:
    a) Powders
    b) Pellets
    c) Liquids
    d) Corrosive liquids

c) Distillation
(d) Melting

30. For an aerosol inhaled to the lungs, which of the following is NOT true?
(a) Airflow becomes faster and more turbulent the more deeply it penetrates the lungs
b) Particles of 5 µm and above impact in the proximal airways
c) Sedimentation is the major mechanism of deposition for particles between 0.5-3 µm
d) Breath-holding will enhance deposition of sub-micron particles by diffusion

31. For pressurised Metered Dose Inhalers (pMDI) which of the following is NOT true?
a) pMDI emit aerosols at high velocity
b) pMDI use liquefied gases as propellants
c) pMDI may be formulated as solutions or suspensions
(d) pMDI cannot be used with spacers

32. Which of the following is NOT true of jet nebulisers?
a) Jet nebulisers produce mists
b) Jet nebulisers use high velocity gas flows to generate the Venturi effect to draw solution into the airflow
c) Jet nebulisers induce an decrease in the temperature of the nebuliser solution during operation
(d) Jet nebulisers use ultrasonic forces to produce the aerosol

33. Which of the following polymer is widely used in film coating of tablets?
a) Acacia
b) Syrup
(c) HPMC
d) PVA

34. Lamination is:
(a) Separation of a tablet into two or more distinct layers.
b) Partial and complete separation of the top and bottom crowns of a tablet from the main body of the tablet.
c) Process of sub-coating of tablets
d) None of the above

35. Poorly manufactured tablets may have small pinholes on the surface. This phenomenon is known as
a) Leaching
(b) Picking
c) Mottling
d) chipping

36. Dissolution test apparatus no. 1 as per IP is
(a) Paddle
b) Basket
c) Rotating basket
d) Rotating cylinder

37. Which filler can NOT be used for the preparation of tablets for amine containing basic drugs to avoid discoloration of the tablets?
a) Dicalcium phosphate
b) Microcrystalline cellulose
c) Starch
(d) Lactose

38. If the Carr's index of a powder is 10% then the type of powder flow is
a) Poor
(b) Excellent
c) Very poor
d) Good

39. In Friability test tablets fall from ___ height.
a) 6 cm
(b) 6 inch
c) 9 cm
d) 9 mm

40. ___ is used for guiding movement of the punches in rotary tablet compression machine
a) Die table
b) Strain gauge
(c) Cam track
d) Hopper

41. The rate of drug bioavailability is most rapid when the drug is formulated as a
a) Hard gelatin capsule
b) Compressed tablet
(c) Solution
d) Suspension

ORIENTAL COLLEGE OF PHARMACY SANPADA NAVI MUMBAI 400 705

42. Tablet thickness varies with changes in _____
a) Die fills
b) Temperature
c) Compression force
d) a & c

43. GLP stands for?
a) Good Manufacturing Practices
b) Good Clinical Practices
c) Good Laboratory Practices
d) All the above

44. cGMP prohibits false therapeutic claims
a) True
b) False
c) Not Sure
d) May be

45. Training is not a GMP requirement
a) True
b) False
c) Maybe
d) Not Sure

45. Protect materials and product from contamination and restricted access are the GMP requirement answer choices
a) True
b) False
c) Maybe
d) Not sure

47. Which of the following statements are correct?
a) Processes should be Validated, Robust, Produce uniform product, Protect product from contamination, Controlled, Cleanable and kept clean
b) There should be procedures for all pieces of equipment that explain how to disassemble, how to clean, how to reassemble, how to operate, and where necessary, how to trouble shoot
c) Quality needs to be designed into the product from the very beginning of its lifecycle
d) All the above

48. 5P's covers People, Premises, Product, Processes and Procedures
a) True
b) False
c) Maybe
d) Not sure

49. Contamination may be caused by
a) poor hygienic practices
b) inadequate cleaning
c) residual cleaning agents
d) All of the above

50. Manufacture of sterile medicines does not require strict controls on Line clearance and Line opening
a) True
b) False
c) Maybe
d) Not Sure

PRE-GPAT EXAM - 2019-20

Subject: Pharmaceutics (S.K.Kar)

Note: Answer all questions. Each Question carries 01 mark. No negative marking

Name: Sanket Rai Class: Final Year B Pharm, 2019-20 Roll No.: 48

1. Of the following oral liquid formulations which would be considered as an Oropharyngeal formulation?
   a) Syrup
   b) Elixir
   c) Mouthwash
   d) Linctus

2. Which of the following formulations would not be applicable to ocular administration?
   a) Solution
   b) Liniment
   c) Suspension
   d) Ointment

3. A tablet to treat a headache must first be dissolved in water before swallowing. Which one of the following best describes this type of tablet?
   a) Modified release
   b) Oral disintegrating
   c) Effervescent
   d) Buccal

4. Capsules normally fall into two main categories. Which are they?
   a) Hard gelatin capsules and soft gelatin capsules
   b) Hard gelatin capsules and layered capsule
   c) Soft gelatin capsules and compressed capsules
   d) Compressed and layered capsules

5. Intravenous, intramuscular and subcutaneous are all examples of which routes of administration?
   a) Pulmonary administration
   b) Parenteral administration
   c) Otic administration
   d) Ocular administration

6. Where is the site of administration for a dosage form that uses transdermal delivery?
   a) The eyes
   b) The lungs
   c) Under the tongue
   d) The skin

7. Which of the following dosage forms delivers the API to the GI tract?
   a) Rectal suppositories
   b) Nasal sprays
   c) Vaginal pessaries
   d) Eye drops

8. Name two different types of Inhaler?
   a) MDI & API
   b) IV & SC
   c) DPI & MDI
   d) GIT & ATP

9. Nasal administration is commonly used for the relief of?
   a) Headache
   b) Cough
   c) Sore throat
   d) Congestion

10. Ocular administration involves the treatment of which are?
    a) The skin
    b) The eyes
    c) The lungs
    d) The ear

11) Rotosort is a marhine used to sort out:
    a) Coated capsules
    b) Filled capsules
    c) Sealed ampoules
    d) Sealed containers

12) Green bones are used for the preparation of a gelatin of the type:
    a) A
    b) B
    c) C
    d) A&B

13) In capsules, ROTOFIL is used for filling:
    a) Powders
    b) Pellets
    c) Liquids
    d) Corrosive liquids

14) Gelatin and glycerin are used for the preparation of lamellae in a specified ratio. Identify the correct ratio
a) 1:1
b) 5:1
c) 9:1
d) 10:1

15) The size 000 capsules can fill the volume of
a) 1.36ml
b) 0.13ml
c) 0.96ml
d) 0.25ml

16) Capsules shell are made with
a) Starch
b) Pectin
c) Gelatin
d) Shellac

17) Vegetable capsules shell are prepared of:
a) Gelatin
b) Chitosan
c) HPMC
d) None of the above

18) Gelatin is
a) Fat
b) Protein
c) Carbohydrate
d) None of the above

19) Smallest capsule size is represented by number
a) 0
b) 3
c) 1
d) 5

20) The following steps involved in hard gelatin capsule shell production
a) Dipping
b) Spinning
c) Trimming
d) All of the above

21) The shells of soft gelatin capsules may be made elastic or plastic – like the addition of:
a) Sorbitol
b) Povidone
c) Polyethylene glycol
d) Hydroxypropyl methylcellulose

22) High bloom strength gelatin is used in manufacture of
a) Soft gelatin capsules
b) Hard gelatin capsules
c) a & b
d) None of the above

23 Example of Aerosol is:
a) Smoke
b) Solid form
c) Liquid form
d) Emulsion

24. Containers used for aerosol should withstand pressure of
a) 130 -150 psig at 150 ^{0}F
b) 140 -180 psig at 130 ^{0}F
c) 120 -170 psig at 110 ^{0}F
d) 190-200 psig at 210 ^{0}F

25. Anthropogenic aerosols are those that are
a) Caused by humans
b) Come from the oceans
c) Come from dry land
d) Caused by natural source

26. Which of the following, found in our atmosphere, is an example of a SECONDARY atmospheric aerosols?
a) Sulphuric acid
b) Dust
c) Smoke
d) Soot

27. Under the ideal gas laws, which of the following is NOT a correct assumption?
a) Molecules occupy a negligible volume
b) Gas volume is insensitive to changes in pressure
c) No energy is lost when molecules collide
d) Forces between molecules are insignificant

28. Which of the following is NOT true of Raoult's law
a) Raoult's law applies to miscible solvents in a closed system
b) The toluene-benzene mixtures obey Raoult's law
c) A pharmaceutical application of Raoult's law is the formulation of pressurised metered dose inhaler
d) The behaviour predicted by Raoult's law is independent of inter-molecular forces

Signature Not Verified

29. Gases do NOT have a role in which of the following pharmaceutical operations
a) Surface area measurement
b) Lyophilisation
c) Distillation
(d) Melting

30. For an aerosol inhaled to the lungs, which of the following is NOT true?
a) Airflow becomes faster and more turbulent the more deeply it penetrates the lungs
(b) Particles of 5 μm and above impact in the proximal airways
c) Sedimentation is the major mechanism of deposition for particles between 0.5-3 μm
d) Breath-holding will enhance deposition of sub-micron particles by diffusion

31. For pressurised Metered Dose Inhalers (pMDI) which of the following is NOT true?
(a) pMDI emit aerosols at high velocity
b) pMDI use liquefied gases as propellants
c) pMDI may be formulated as solutions or suspensions
d) pMDI cannot be used with spacers

32. Which of the following is NOT true of jet nebulisers?
a) Jet nebulisers produce mists
b) Jet nebulisers use high velocity gas flows to generate the Venturi effect to draw solution into the airflow
c) Jet nebulisers induce an decrease in the temperature of the nebuliser solution during operation
(d) Jet nebulisers use ultrasonic forces to produce the aerosol

33. Which of the following polymer is widely used in film coating of tablets?
a) Acacia
b) Syrup
(c) HPMC
d) PVA

34. Lamination is:
(a) Separation of a tablet into two or more distinct layers.
b) Partial and complete separation of the top and bottom crowns of a tablet from the main body of the tablet.
c) Process of sub-coating of tablets

14) Gelatin and glycerin are used for the preparation of lamellae , a specified ratio. Identify the correct ratio
a) 1:1
b) 5:1
● 9:1
d) 10:1

15) The size 000 capsules can fill the volume of
● 1.36ml
b) 0.13ml
c) 0.96ml
d) 0.25ml

16) Capsules shell are made with
a) Starch
b) Pectin
● Gelatin
d) Shellac

17) Vegetable capsules shell are prepared of:
a) Gelatin
b) Chitosan
● HPMC
d) None of the above

18) Gelatin is
a) Fat
● Protein
c) Carbohydrate
d) None of the above

19) Smallest capsule size is represented by number
a) 0
b) 3
c) 1
● 5

20) The following steps involved in hard gelatin capsule shell production
a) Dipping
b) Spinning
c) Trimming
● All of the above

21) The shells of soft gelatin capsules may be made elastic or plastic – like the addition of.
a) Sorbitol
b) Povidone
● Polyethylene glycol
d) Hydroxypropyl methylcellulose

22) High bloom strength gelatin is used in manufacture of
a) Soft gelatin capsules
b) Hard gelatin capsules
● a & b
d) None of the above

23 Example of Aerosol is:
● Smoke
b) Solid form
c) Liquid form
d) Emulsion

24. Containers used for aerosol should withstand pressure of
a) 130 -150 psig at 150 °F
b) 140 -180 psig at 130 °F
c) 120 -170 psig at 110 °F
d) 190-200 psig at 210 °F

25. Anthropogenic aerosols are those that are
● Caused by humans
b) Come from the oceans
c) Come from dry land
d) Caused by natural source

26. Which of the following, found in our atmosphere, is an example of a SECONDARY atmospheric aerosols?
● Sulphuric acid
b) Dust

31. For pressurised Metered Dose Inhalers (pMDI) which of the following is NOT true?
a) pMDI emit aerosols at high velocity
b) pMDI use liquefied gases as propellants
c) pMDI may be formulated as solutions or suspensions
d) pMDI cannot be used with spacers

32. Which of the following is NOT true of jet nebulisers?
a) Jet nebulisers produce mists
b) Jet nebulisers use high velocity gas flows to generate the Venturi effect to draw solution into the airflow
c) Jet nebulisers induce an decrease in the temperature of the nebuliser solution during operation
d) Jet nebulisers use ultrasonic forces to produce the aerosol

33. Which of the following polymer is widely used in film coating of tablets?
a) Acacia
b) Syrup
c) HPMC
d) PVA

34. Lamination is:
a) Separation of a tablet into two or more distinct layers.
b) Partial and complete separation of the top and bottom crowns of a tablet from the main body of the tablet.
c) Process of sub-coating of tablets
d) None of the above

35. Poorly manufactured tablets may have small pinholes on the surface. This phenomenon is known as
a) Leaching
b) Picking
c) Mottling
d) Chipping

36. Dissolution test apparatus no. 1 as per IP is
a) Paddle
b) Basket
c) Rotating basket
d) Rotating cylinder

37. Which filler can NOT be used for the preparation of tablets for amine containing basic drugs to avoid discoloration of the tablets?
a) Dicalcium phosphate
b) Microcrystalline cellulose
c) Starch
d) Lactose

38. If the Carr's index of a powder is 10% then the type of powder flow is
a) Poor
b) Excellent
c) Very poor
d) Good

39. In Friability test tablets fall from ___ height.
a) 6 cm
b) 6 inch
c) 9 cm
d) 9 mm

40. ____ is used for guiding movement of the punches in rotary tablet compression machine
a) Die table
b) Strain gauge
c) Cam track
d) Hopper

41. The rate of drug bioavailability is most rapid when the drug is formulated as a
a) Hard gelatin capsule
b) Compressed tablet
c) Solution
d) Suspension

42. Tablet thickness varies with changes in
a) Die fills
b) Temperature
c) Compression force
d) a & c

43. GLP stands for?
a) Good Manufacturing Practices
b) Good Clinical Practices
c) Good Laboratory Practices
d) All the above

44. cGMP prohibits false therapeutic claims
a) True
b) False
c) Not Sure
d) May be

45. Training is not a GMP requirement
a) True
b) False
c) Maybe
d) Not Sure

46. Protect materials and product from contamination and restricted access are the GMP requirement answer choices
a) True
b) False
c) Maybe
d) Not sure

47. Which of the following statements are correct?
a) Processes should be Validated, Robust, Produce uniform product, Protect product from contamination, Controlled, Cleanable and kept clean
b) There should be procedures for all pieces of equipment that explain how to disassemble, how to clean, how to reassemble, how to operate, and where necessary, how to trouble shoot
c) Quality needs to be designed into the product from the very beginning of its lifecycle
d) All the above

48. SP's covers People, Premises, Product, Processes and Procedures
a) True
b) False
c) Maybe
d) Not sure

49. Contamination may be caused by
a) poor hygiene practices
b) inadequate cleaning
c) residual cleaning agents
d) All of the above

50. Manufacture of sterile medicines does not require strict controls on Line clearance and Line opening
a) True
b) False
c) Maybe
d) Not Sure

Oriental College of Pharmacy, Sanpada, Navi-Mumbai
PRE-GPAT EXAM - 2019-20
Subject: Pharmaceutics (S.K.Kar)
Note: Answer all questions. Each Question carries 01 mark. No negative marking

Name: Sandhya yadav Class: Final Year B Pharm, 2019-20 Roll No.: 65

1. Of the following oral liquid formulations which would be considered as an Oropharyngeal formulation?
a) Syrup
b) Elixir
c) Mouthwash
d) Linctus

2. Which of the following formulations would not be applicable to ocular administration?
a) Solution
b) Liniment
c) Suspension
d) Ointment

3. A tablet to treat a headache must first be dissolved in water before swallowing. Which one of the following best describes this type of tablet?
a) Modified release
b) Oral disintegrating
c) Effervescent
d) Buccal

4. Capsules normaily fall into two main categories. Which are they?
a) Hard gelatin capsules and soft gelatin capsules
b) Hard gelatin capsules and layered capsule
c) Soft gelatin capsules and compressed capsules
d) Compressed and layered capsules

5. Intravenous, intramuscular and subcutaneous are all examples of which routes of administration?
a) Pulmonary administration
b) Parenteral administration
c) Otic administration
d) Ocular administration

6. Where is the site of administration for a dosage form that uses transdermal delivery?
a) The eyes
b) The lungs
c) Under the tongue
d) The skin

7. Which of the following dosage forms delivers the API to the GI tract?
a) Rectal suppositories
b) Nasal sprays
c) Vaginal pessaries
d) Eye drops

8. Name two different types of inhaler?
a) MDI & API
b) IV & SC
c) DPI & MDI
d) GIT & ATP

9. Nasal administration is commonly used for the relief of?
a) Headache
b) Cough
c) Scre throat
d) Congestion

10. Ocular administration involves the treatment of which are?
a) The skin
b) The eyes
c) The lungs
d) The ear

11) Rotosort is a machine used to sort out:
a) Coated capsules
b) Filled capsules
c) Sealed ampoules
d) Sealed containers

12) Green bones are used for the preparation of a gelatin of the type:
a) A
b) B
c) C
d) A&B

13) In capsules, ROTOFIL is used for filling:
a) Powders
b) Pellets
c) Liquids
d) Corrosive liquids

14) Gelatin and glycerin are used for the preparation of lamellae in a specified ratio. Identify the correct ratio
a) 1:1
b) 5:1
c) 9:1
d) 10:1

15) The size 000 capsules can fill the volume of
a) 1.36ml
b) 0.13ml
c) 0.96ml
d) 0.25ml

16) Capsules shell are made with
a) Starch
b) Pectin
c) Gelatin
d) Shellac

17) Vegetable capsules shell are prepared of:
a) Gelatin
b) Chitosan
c) HPMC
d) None of the above

18) Gelatin is
a) Fat
b) Protein
c) Carbohydrate
d) None of the above

19) Smallest capsule size is represented by number
a) 0
b) 3
c) 1
d) 5

20) The following steps involved in hard gelatin capsule shell production
a) Dipping
b) Spinning
c) Trimming
d) All of the above

21) The shells of soft gelatin capsules may be made elastic or plastic – like the addition of:
a) Sorbitol
b) Povidone
c) Polyethylene glycol
d) Hydroxypropyl methylcellulose

22) High bloom strength gelatin is used in manufacture of
a) Soft gelatin capsules
b) Hard gelatin capsules
c) a & b
d) None of the above

23 Example of Aerosol is:
a) Smoke
b) Solid form
c) Liquid form
d) Emulsion

24. Containers used for aerosol should withstand pressure of
a) 130 -150 psig at 150 °F
b) 140 -180 psig at 130 °F
c) 120 -170 psig at 110 °F
d) 190-200 psig at 210 °F

25. Anthropogenic aerosols are those that are
a) Caused by humans
b) Come from the oceans
c) Come from dry land
d) Caused by natural source

26. Which of the following, found in our atmosphere, is an example of a SECONDARY atmospheric aerosols?
a) Sulphuric acid
b) Dust
c) Smoke
d) Soot

27. Under the ideal gas laws, which of the following is NOT a correct assumption?
a) Molecules occupy a negligible volume
b) Gas volume is insensitive to changes in pressure
c) No energy is lost when molecules collide
d) Forces between molecules are insignificant

28. Which of the following is NOT true of Raoult's law
a) Raoult's law applies to miscible solvents in a closed system
b) The toluene-henzene mixtures obey Raoult's law
c) A pharmaceutical application of Raoult's law is the formulation of pressurised metered dose inhaler
d) The behaviour predicted by Raoult's law is independent of inter-molecular forces

2 of 4

Signature Not Verified

Signed By:SUDHA SURESH RATHOD
Signed By:CN=SUDHA SURESH RATHOD, SERIALNUMBER=ea2a4c

29. Gases do NOT have a role in which of the following pharmaceutical operations
a) Surface area measurement
b) Lyophilisation
c) Distillation
d) Melting

30. For an aerosol inhaled to the lungs, which of the following is NOT true?
a) Airflow becomes faster and more turbulent the more deeply it penetrates the lungs
b) Particles of 5 µm and above impact in the proximal airways
c) Sedimentation is the major mechanism of deposition for particles between 0.5-3 µm
d) Breath-holding will enhance deposition of sub-micron particles by diffusion

31. For pressurised Metered Dose Inhalers (pMDI) which of the following is NOT true?
a) pMDI emit aerosols at high velocity
b) pMDI use liquefied gases as propellants
c) pMDI may be formulated as solutions or suspensions
d) pMDI cannot be used with spacers

32. Which of the following is NOT true of jet nebulisers?
a) Jet nebulisers produce mists
b) Jet nebulisers use high velocity gas flows to generate the Venturi effect to draw solution into the airflow
c) Jet nebulisers induce an decrease in the temperature of the nebuliser solution during operation
d) Jet nebulisers use ultrasonic forces to produce the aerosol

33. Which of the following polymer is widely used in film coating of tablets?
a) Acacia
b) Syrup
c) HPMC
d) PVA

34. Lamination is:
a) Separation of a tablet into two or more distinct layers.
b) Partial and complete separation of the top and bottom crowns of a tablet from the main body of the tablet.
c) Process of sub-coating of tablets
d) None of the above

35. Poorly manufactured tablets may have small pinholes on the surface. This phenomenon is known as
a) Leaching
b) Picking
c) Mottling
d) Chipping

36. Dissolution test apparatus no. 1 as per IP is
a) Paddle
b) Basket
c) Rotating basket
d) Rotating cylinder

37. Which filler can NOT be used for the preparation of tablets for amine containing basic drugs to avoid discoloration of the tablets?
a) Dicalcium phosphate
b) Microcrystalline cellulose
c) Starch
d) Lactose

38. If the Carr's index of a powder is 10% then the type of powder flow is
a) Poor
b) Excellent
c) Very poor
d) Good

39. In Friability test tablets fall from ___ height.
a) 6 cm
b) 6 inch
c) 9 cm
d) 9 mm

40. ____ is used for guiding movement of the punches in rotary tablet compression machine
a) Die table
b) Strain gauge
c) Cam track
d) Hopper

41. The rate of drug bioavailability is most rapid when the drug is formulated as a
a) Hard gelatin capsule
b) Compressed tablet
c) Solution
d) Suspension

Sub :- G-PAT Lectures

Respected Sir,

We the students of final year B Pharm are writing this ~~lecture~~ letter informing you that we are ready to ~~conduct~~ attend the G-PAT Lectures arranged by our esteemed college on the scheduled date.

Sir, We are ready to ~~attain~~ attend all the lectures and study hand for G-PAT exam.

Thanking you.

Yours Faithfully,
final year B. Pharm

Below is the list of students willing to attend G-PAT lectures.

Roll no	Name of Student	Sign

NOTICE

All Faculty members and Students of B.Pharmacy Final Year are hereby informed that classes for "GPAT-2019-20" will be held on **Saturday** only, @ 2.30 p.m. as per the following schedule written herewith in the table.

S.N.	Date	Teacher's Name	Topic
01	17th August,19	Dr.Sudha Rathod	Viscosity and Rheology
02	24th August 19	Mr.S.K.Kar	Prescription, Plant Location, Displacement Value, Extraction and Galenical Products
03	31st August 19	Dr.Pradnya Shanbagh	Mixing, Packaging of Pharm. Products
04	7th September 19	Dr.Ganesh Deshmukh	Dehumidification and Humidity Control, Refrigeration and Air Conditioning Thermodynamics and Photochemistry
05	14th September 19	Mr. Asish Dev	Heat transfer, Filteration & Centrifugation, Chemical Kinetics, Quantum Mechanics Thermochemical equations,
06	21st September 19	Dr. Mufassir Momin	Conductometry, Coulometry, Polarography, Amperometry
07	28th September 19	Ms.Drakshan Shaikh	Chromatography and Spectroscopy
08	12th October 19	Mrs.Arti Balakrishnan	Metabolic cycles
09	19th October 19	Dr.Vanita Kanase	Fundamentals of General Pharmacology, Chemotherapy of Malignancy and immunosuppressive agent with anticancer, Neoplastic diseases
10	2nd November 19	Mr.Imtiyaz Ansari	Respiratory diseases, Endocrine disorders, Joint and Connective tissue disorder
11	9th November 19	Dr. Pushpalata Chaughule	Pathophysiology of Common Diseases
12	23rd November 19	Dr.Nutan Rao	Importance of fundamentals of Organic Chemistry, Elimination Reactions, Neighbouring Group Effect, Medicinal Chemistry Basic Principle
13	7th December 19	Mr.Ameya Deshpande	Steriochemistry, E.N. Aromatic Addition and Substitution, Acid Base, Redox, Precipitation, Complexometric Titration, Gravimetric and Miscellaneous Analysis
14	14th December 19	Mr.Amjad Ali	Sterioselective and Steriospecific Reactions: Structure, Nomenclature, Preparation and Reactions of numerous classes of compounds
15	21st December 19	Dr. Mohib Khan	Introduction to Primary and Secondary Metabolite
16	28th December 19	Dr.Vandana Jain	Histology of Plant Tissues

Dr. (Mrs.) Sudha Rathod

प्रती,

प्रचार्य

विषय: उद्योजकता विकास कार्यक्रम अपल्या महाविद्यालयातील विद्यार्था करता घेण्या बाबत

महोदय,

उपरोक्त विषयानुसार युवा उद्योजक विकास संस्था संचलीत राष्ट्रीय युवा उद्योजक विकास केंद्र, पुणे ही महाराष्ट्रातील एकमेव संस्था आहे जिचा मुख्य उद्देश शाळा महाविद्यालयातील तरुणांना उद्योजकतेचे प्रशिक्षण देने, त्यांना उद्योजक बनण्याकरता लागणारी सर्व मदत पुरवणे .

आजकाल आपण जर पाहिल तर महाराष्ट्रराज्य हे देशातील इतर राज्यान पेक्षा व्यवसाय व तांत्रिक शिक्षण देण्यामध्ये सर्वात पुढे आहे, आपल्या राज्या मध्ये अनेक तरून व्यवसाय व तांत्रिक शिक्षण घेत आहेत. हे सर्व तरून शिक्षण पुर्न झाल्या नंतर नोकरीकडे जास्तीत जास्त वळतात. एका सर्वे नुसार देशामध्ये जवळ जवळ 90 ते 95 टक्के विद्यार्थी हे शिक्षण पुर्न झाल्या नंतर नोकरी शोधतात यामुळे आजकाल नोकरीची अपुर्तता सर्वत्र भासु लागलेली आहे .

नेशनल एम्प्लॉयबिलिटी रिपोर्ट नुसार सध्या फक्त ३० टक्के तरूणांनाच नोकरीच्या संधी देशामध्ये उपलब्ध आहेत त्यातलेही जे लोक Employable आहेत तेच ह्या संधी प्राप्त करु शकतील , मग ७० टक्के तरुणांच काय होणार?. हि परीस्थिती जर आशीच राहिली तर यापुढे राज्यामध्ये सुशिक्षित बेरोजगार तरुणांची फोजच फोज तयार होईल

आशी परीस्थिती उदभवन्या मागे मुख्य कारण म्हणजे व्यवसाय व तांत्रिक शिक्षण घेतल्या नंतर प्रत्येक तरुन हा फक्त नोकरी शोधण्याचा मार्ग निवडतो पण कोणीही नवीन नोकऱ्या निर्माण करण्यासाठी प्रयत्न करत नाही . कोणतीही परीस्थिती डिमांड अंड सप्लाय वर अवलंबून असते डिमांड कमी झाला आणि सप्लाय वाढला कि मंदी हि येतेच . हि परीस्थिती जर अशीच राहिली तर भविष्यामध्ये सुशिक्षित बेरोजगारांची मोठी समस्या निर्मान होणार आहे .

आमच्या एका सर्वे नुसार तरुणांचा कल हा नोकरी पेक्षा उद्योजकते कडे का कमी आहे याचे मुख्य कारण म्हणजे त्यांना या बदल असलेला मार्गदर्शनाचा अभाव, अपुरे ज्ञान, मनामधली भीती , अजोबजोची नोकरीस प्राधान्य देणारी

संस्कृती हि आहेत. या मुळे शासनाने तरुणांना जास्ती जास्त उद्योजकते कडे वळवण्य करता वेगवेगळ्या मार्गाने प्रयत्न चालू केले आहे .

आपल्या देशाचे पंतप्रधान श्री. नरेंद्र मोदी यांनी देशाच्या प्रगती करण्याकर्ता तीन सूत्री कार्यक्रम म्हणजे Making India , Digital India, & Entrepreneurs skill development, हा राबवण्याचे ठरवले आहे. यामध्ये First generation young Entrepreneurs development (युवा उद्योजक विकास) वर विशेष भर देण्यात येणार आहे. याद्वारे युवा उद्योजकांना अनेक उद्योकाच्या संधी व उद्योक उभारण्याकरता अनेक प्रकारच्या योजना उपलब्ध करून दिल्या जाणार आहे .

जास्ती जास्त तरुणांना उद्योजकते मध्ये करियर करण्या करता आम्ही हा **उद्योजक विकास कार्यक्रम** अनेक महाविद्यालया मध्ये राबवण्याचे ठरवले आहे . आमची सर्व महाविद्यालयातील प्राचार्यांना विनंती आहे आपण जर अपल्या विद्यार्थ्यांना उद्योजकतेचे सर्व ज्ञान ,मार्गदर्शन उपलब्ध करून दिले तर ते देखील या मध्ये करियर करण्या करता आवड निर्माण करतील. कुठल्याही राज्याची, देशाची प्रगती हि तेथील young Entrepreneurs प्रगती वरती अवलंबून असते ह्याचे उदाहरण म्हणजे जपान, जर्मनी, चीन, कोरिया ह्या सर्व देशाची प्रगती येवढ्य वेगाने होण्या मागे young Entrepreneurs जवळ जवळ ३० ते ४० टक्के वाटा आहे . आपल्या देशा मध्ये ह्याचे प्रमान फक्त ३ टक्के एकून लोकसंखेच्या आहे.

हि सर्व परीस्थिती जर आपल्याला बदल्याची असेल तर सर्व महाविद्यालयातील प्राचार्यांनी आपल्या विद्यार्थ्यांचे वेळोवेळी याचे प्रबोधन करणे हि काळाची गरज आहे . म्हणुच आम्ही हा **युवा उद्योजक विकास कार्यक्रम** तरुणांना उद्योजकते बदल सर्व माहिती देण्या करता आपल्या महाविद्यलायामध्ये शेवटच्या वर्षात शिकत असलेल्या विद्यार्थांन करता घेण्यास इच्छुक अहोत. कार्यक्रमाचे सर्व Details ह्या पत्रा बरोबर जोडलेले आहेत .

अपना सर्वाना आमची विनंती आहे आपण जर हा कार्यक्रम आपल्य महाविद्यालयातील विद्यार्थांन करता घेण्यास इच्छुक असाल तर सोबत दिलेल्या Email ID किंवा Phone वर कळवावे .

Q16 The excise –officer of bonded laboratory may permit to take a sample from each batch to finished preparation free of duty up to a maximum amount of

(A)250 ml (B) 150 ml (C) 100 ml (D) 50 ml

Q17 Every year the register of state pharmacy council is required to print the registers

(A)1st January (B) 1st may (C) 1st april (D) 1st march

Q18. Volatile oil can be distinguished from fixed oil as they give

(A)give spot test negative (B) give foam test positive (C) they can easily freezed (D)all

Q19. Yellow colour of gentian lutea rhizome is due to

(A)gentisin (B) amarogentin (C) gentiopicrin (D)amarogentin

Q20.Histamine H1 receptor blockers are useful in the treatment of aliment of the following EXCEPT:

(A) urticaria. (B) seasonal rhinitis. (C) drug reactions. (D) bronchial asthma.

Q.21 one of the following drug is used as prophylactic treatment for migraine

(A) sumatriptan (B) alnitidan (C) propranolol (D) ergotamine

Signature Not Verified
Signed By:SUDHA SURESH RATHOD
Signed By:CN=SUDHA SURESH RATHOD, SERIALNUMBER=ea2a4c

Q.22 which of the following statement is not true

(A) Flunarizine is calcium channel blocker which is use as a prophylaxis treatment of migraine (B) PGI2 having platelet aggregatory property

(C) Azapirones are partial agonist of 5HT1A receptor

(D) PG's promote mucus & HCO-3 secretion in GIT

Q23 Which of the following is not correct:

(A)pH = pKa + log [HA]/ [A-] (B) pH = pKa - log [A-]/ [HA] (C) Both A & B (D) None

Q.24 vitamin- D function by which receptor

(A)GPCR (B) enzyme linked (C) intrinsic ion channel (D) nuclear receptor

Q .25 ACE inhibitor produce which type of teratogenic reaction

(A)foetal goiter (B) spina bifida (C) virilization (D)hypoplasia of organ

Q26. A drug that decreases the formation of uric acid is

(A)miglitol (B) allopurinol (C) probenecid (D) propylthiouracil

Q27 . Drugs employed in reducing elevated serum cholesterol include(s)

I. gemfibrozil

II. cerivastatin

III. pioglitazone

(A)I only (B) III only (C) I and II only (D) I, II, and III

Q28 . Which of the following beta-adrenergic blocking agents also exhibit alpha1-adrenergic blocking action?

I. timolol II. sotalol III. labetalol

(A) I only (B) III only (C) I and II only (D) II and III only

Q29. Didanosine can best be described as (an):

(A) antiprotozoal (B) reverse transcriptase inhibitor (C) protease inhibitor (D) beta-lactamase inhibitor

Q30 The "first-dose" effect is characterized by marked hypotension and syncope on taking the first few doses of medication. This effect is seen with the use of

1. doxazosin II. enalapril III. Sotalol

(A) I only (B) III only (C) I and II only (D) I, II, and III only

Q31 Dalteparin sodium acts in the body to

(A)regulate menstrual activity (B) prevent blood clot formation (C) inhibit thyroid function (D) inhibit viral replication

Q32. Cromolyn sodium is a drug that is

(A)effective in acute asthmatic attacks

(B) a synthetic corticosteroid

(C) a histamine antagonist

(D) a mast cell stabilizer

Q33. Which of the following calcium channel blockers may be employed parenterally in the treatment of cardiac arrhythmias?

I. verapamil II. isradipine III. amlodipine

(A) I only (B) III only (C) I and II only (D) II and III only

Q34. Which one of the following is NOT a progestin?

(A)norethynodrel (B) norethindrone (C) mestranol (D) levonorgestrel

Q35. Potassium depletion is LEAST likely to occur in a patient using

(A) ethacrynic acid (B) triamterene (C) torsemide (D) acetazolamide

Q36. Which one of the following barbiturates is likely to be the shortest acting?

(A)amobarbital sodium (B) methohexital sodium (C) pentobarbital sodium (D) mephobarbital

Q37. The primary function of simethicone in antacid products is to act as (an):

(A)suspending agent (B) adsorbent (C) buffer (D) antiflatulent

Q38. The antiparkinson effect of levodopa may be inhibited by

(A) niacinamide (B) d-alpha tocopherol (C) pyridoxine HCl (D) dihydrotachysterol

Q39. The child's dose of a drug is reported as 1.2 mg/kg body weight. What is the appropriate dose for a child weighing 60 lb?

(A)6 mg (B) 9 mg (C) 32 mg (D) 72 mg.

Q40. Calcium chloride ($CaCl_2 \cdot 2H_20$) has a formula weight of 147. What weight of the chemical is needed to obtain 40 mEq of calcium? (Ca =40.1; Cl =35.5; H20 =18)

(A)0.80 g (B) 2.22 g (C) 1.47 g (D) 2.94 g

Q41. The concentration of mercury in a water sample is reported as 5 ppm. Express this concentration as a percentage.

(A) 0.00005% (B) 0.0005% (C) 0.005% (D) 0.05%

Q42 Stereochemistry of penicillins is

(A)2S, 5R, 6R (B) 2R, 5S, 6R (C) 2R, 5S, 6S (D)2S, 5S, 6R

Q43 - Which one of the following chemicals is NOT suitable as a drug excipient?

(A)methyl paraben (B) starch (C) glycerin (D) benzocaine

Q44. A patient with sever viral hepatitis, will have increased plasma level of which of the following:

(A) Ck2 (B) LDH1 (C) hexokinase (D) alanine transaminase

Q45 Relation between δ value (1H NMR) for Axial (A) and Equatorial (E) Hydrogen of Rigid Six membered ring cyclohexane will be.

(A)$\delta A = \delta E$ (B) $\delta A < \delta E$ (C) $\delta A > \delta E$ (D) None of these.

Q46 In gas chromatography which detector is most sensitive to halogenated compounds like pesticides

(A)TCD (B) FID (C) ECD (D) FP

Q47 In oxidation- reduction titrations one mole of potassium dichromate is equivalent to Fe of

(A) 2 moles (B) 4 moles (C) 6 moles (D) 1 mole

Q48 The source of light in I.P. spectroscopy

(A)Hydrogen lamp (B) deuterium lamp (C) silicon carbide rod (D) both A & B

Q49 The value of stretching frequency of a bond can be calculated by

(A)Hooke's law (B) stroke's low (C) lambert beer's law (D) none

Q50 A compound is gives red colour in solution from. Its λmax is in the region of

(A)400-450mμ (B) 620-760mμ (C) 520-570mμ (D) 570-590mμ

Q51 The stationary phase silica gel G is having the composition of ..... for preparing the TLC

(A)silica gel + calcium sulphate (B) silica gel + binder + fluorescent indicator (C) silica gel + aluminum hydroxide (D) cellulose with binder.

Q52 which of the following statement is not correct regarding alkaloids

(A)they are generally basic in nature (B) Always have nitrogen in hetrocyclic ring (C) distributed mostly in higher plants (D)none.

Q53 Phytolacca Americana a substituent for belladonna is identified by

(A)preseance of idioblasts (B) anisocytic stomata (C) microshenoidal calcium oxalate crystals (D)cluster crystals

Q54 Bixin is synthesized from

(A)geraniol (B) geranyl pyrophosphate (C) geranyl geraniol (D)farnesol

Q55 Which of the following is preferred method for estimation of sesquiterpinoidal compounds

(A)HPLC (B) HPTLC (C) TLC (D) GC-MS

Q. 56 which one of the following is hydrophobic amino acids

(A) Valine (B) leucine (C) Isoleucine. (D) none

Q57 What is the correct region behind sickle cell anemia defect in HbS?

(A) Normally the 6th amino acid in the beta chain is glutamic acid, this is replaced by valine in the HbS molecule.

(B) Normally the 9th amino acid in the beta chain is glutamic acid, this is replaced by valine in the HbS molecule.

(C) Normally the 6th amino acid in the beta chain is glutamic acid, this is replaced by leucine in the HbS molecule.

(D) Normally the 6th amino acid in the beta chain is glutamic acid, this is replaced by isoleucine in the HbS molecule.

Q 58 (-) Hyoscyamine is

(A) 15-20 times more active as a mydriatic than (+) Hyoscyamine

(B) inactive as a mydriatic

Q64. Microscopic characters of anticancer rhizome or roots of Podophyllum peltatum, Family Berberidaceae are

(A)In the rhizome eccentric pith is situated towards the upper surface & the vascular bundles are curved. The root exhibit a thick cork and central wood.

(B) Exhibit a varying number of concentric rings of fibrous vascular strands in which the phloem is towards the outer side and xylem is on the inner side.

(C) Cylindrical or sub cylindrical, flattened dorsiventrally. Shows a broken circle of vascular tissue with a distinct phloem.

(D)An erect, short, conical rhizome which may be longitudinally sliced, Shows a wellmarked, dark cambium line.

1 **Quinoline alkaloids are biosynthesized via which one of the following pathways?**

(A) Shikimic acid - tyrosine B) Shikimic acid - tryptophan

(C) Shikimic acid - cathinone D) Shikimic acid - phenylalanine

2 A powdered drug has the following microscopic characters:

Anther cells, arenchyma, pollen grains, phloem fibers, volatile oil cells and stone cells. The powder is obtained from which of the followings?

(A) Clove bud powder (B) Clove bud powder with stalk

(C) Mother Clove (D) None of the above

3. Which of the following ergot alkaloids is water soluble and shows blue fluorescence?

(A) Ergosine (B) Ergotamine (C) Ergocristine (D) Ergometrine

4. Goldbeater's skin test is used to detect the presence of which one of the following classes of compounds?

(A) Tannins (B) Steroids (C) Glycerides (D) Resins

5. Phenylethylisoquinoline is the precursor of which of the following alkaloids?

(A) Colchicine (B) Papaverine (C) Emetine (D) Cephaline

6. Arrange the following fatty acids in decreasing order of their unsaturation (highest to lowest):

[P] Stearic [Q] Oleic acid [R] Linolenic acid [S] Linoleic acid

(A) P>Q>R>S (B) S>R>P>Q (C) R>S>Q>P (D) Q>P>R>S

7. Each of the following options lists a pnytoconstituent, its phytochemical grouping, pharmacological activity and corresponding semisynthetic analogue. Find a MISMATCHING option.

(A) Podophyllotoxin, lignan, anticancer, etoposide

(B) Sennoside, anthraquinone, laxative, sinigrin

(C) Atropine, alkaloid, anticholinergic, homatropine

(D) THC. terpenophenolic, psychoactive, nabilone

8. Inhibition/induction of which of the following Cytochrome P450 enzyme system is most likely to be involved in important drug-drug interactions?

(A) CYP3A4 (B) CYP2D6 (C) CYP2C9 (D) CYP1A2

9. Which of the following statements is FALSE for artemisinin?

(A) It is a sesquiterpene lactone endoperoxide

(B) It is a drug of choice in prophylaxis of malaria

SRathod

Signed By:CN=SUDHA SURESH RATHOD, SERIALNUMBER=ea2a4c

(C) It does not cure relapsing malaria
(D) It is useful in treatment of cerebral falciparum malaria

10. Which of the following statements are true for ginseng root?
[P] It is among the most traded plant material of Brazil. [Q] It is obtained from Panax ginseng and Panax quinquefolium. [R] It is obtained from young plants of six months to one year age. [S] It contains derivatives of protopanaxadiol.
(A) P&Q (B) R&S (C) Q&R (D) Q & S

11. Which of the following alkaloids is derived from tyrosine?
(A) Quinine (B) Morphine (C) Atropine (D) Ephedrine

12. Anomocytic stomata, trichomes with collapsed cell and absence of calcium oxalate crystals are some of the microscopic features of which plant?
(A) Digitalis (B) Hyoscyamus (C) Mentha (D) Senna

13. A glycoalkaloid,
[P] contains sulphur in addition to nitrogen in its molecule.
[Q] is glycosidic in nature.
[R] can be hydrolysed to an alkaloid.
[S] always contains endocyclic nitrogen in its molecule.
Choose the correct option.
(A) P&R (B) Q&S (C) Q&R (D) P&Q

14. Which of the following drugs is a triterpenoid containing root?
(A) Valerian (B) Brahmi (C) Satavari (D) Adusa

15. The following options carry the name of the plant, part used and its family. Find a WRONG combination.
(A) Aegle marmelos, fruit & Rutaceae
(B) Conium maculatum, fruit & Umbelliferae
(C) Glycyrrhiza glabra, root and stolon & Leguminosae
(D) Strophanthus gratus, seed & Scrophulariaceae

16. Each of the following options lists the name of the drug, its class, pharmacological action and plant source. Choose an option showing a WRONG combination.
(A) Asafoetida, oleo-gum-resin, anti-flatulence, Ferula foetida
(B) Benzoin, balsam, antiseptic, Styrax benzoin
(C) Myrrh, gum-resin, antiseptic, Commiphora wightii
(D) Papaine, enzyme, proteolytic, Carica papaya

17. Determine the correctness or otherwise mt the following Assertion [a] and the Reason [r]:

Assertion (a) : Tannins are polyphenohc substances occurring in plant cell sap. Hydrolysable and condensed tannins are differentiated by match stick test.

Reason (r) : The condensed tannin- are resistant to acid hydrolysis, therefore stain the lignin present in match stick.

(A) Both (a) and (r) are true, and r . - reason for (a)

(B) Both (a) and (r) are true, but (r is NOT :he correct reason ;or (a)

(C) (a) is true but (r) is NOT the correct reason for (a)

(D) Both (a) and (r) are false

18. In acetate mevalonate pathway geranyl pyrophosphate leads to formation of monoterpenes, the major constituents of volatile oils.

[P] Geranyl pyrophosphate contains two isoprene units

[Q] Monoterpenes have 15 carbon atoms

[R] The two isoprene units condense in head to tail fashion to give monoterpenes

[S] Isoprene unit has molecular formula of C5 H8.

Which one of the given statements is correct?

(A) P is true, Q is false, R is true, S is false

(B) P is false, Q is true, R is true, S is false

(C) P is true, Q is true, R is false, S is true

(D) P is true, Q is false, R is true, S is true

19. The alkaloid found in calabar bean

A. physostigmine

B. Cocaine

C. colchicines

D. emetine

20. Devil's dung used as a carminative, and anti-spasmodic.

A. jalap

B. gamboges

C. asafetida

D. witch hazel

21. The following is/are the properties of nonhydrozable tannins except:

A. They give a bluish to black color with ferric chloride..

B. They usually contain phloroglucinol nucleus in part.

C.They are usually precipitated by bromine water TS.

D. They yield catechol when heated.

22. This does not possess narcotic properties and is therefore sometimes called anarcotine.

A. noscapine

A. THC
B. ETO
C. EDTA
D. LSD

24. The undissolved portion of the drug that remains after extraction:

A. solutE
B. marc
C. solvent
D.active drug

25. Plant sources of purine bases alkaloids:

A. kola
B. tea
C. cacao
D. all of these

26. Milky white viscid secretion from the salivary glands of the worker hive bee, Apis mellifera, and is udes as A general tonic, toward the effects of old age:

A. lac
B. royal jelly
C. ginseng
D. propolis

27. Class of natural products with potent and diverse biological activities involved in platelet aggregation, pain and inflammation.

A. enzyme
B. hormones
C. porstaglandis
D. tubocurarine

28. Attacks protopectin yielding soluble pectin:

A. protopectase
B. pectose
C. pectinase
D. pectase

29.The new name of the family Palmae:

A. poaceae
B. asteraceae
C. caesalpinaceae
D. arecaceae

30 A local source of cyanogenic glycosides is:

- A. Cyanogenum Esculenta
- B. Manihot esculentum
- C. Manihot cympogon

D. Manihot esculenta

31. The principal cinchona alkaloid employed therapeutically as anti-protozoal drug

- A. quinine
- B. chloroquine
- C. C. quinacrine
- D. D. quinidine

32. The pathologic product of sperm whale is:

- A. copaiba
- B.ambergris
- C. bayberry
- D. Carnauba
- E. Teaberry

32. These are major carotenoids in plants, except:

- A. b-carotene
- B. lycopene
- C. a-carotene
- D. Gossypol

33.Alkaloids as salts may be liberated from plant components using:

- A. acidulated water
- B. sodium carbonate
- C. methanol
- D. ether

34. This is the parent nucleus of the chlorophylls:

- A. . bilan
- B. porphine
- C. tetraporphinpyrrole
- D. magnesium

35. The solid resin from turpentine:

- A. benzoin
- B. styrax
- C. tolu
- D. rosin

36 Bioflavanoids are also known as

A. Vitamin K
B. Vitamin P
C. Vitamin M
D. Vitamin C

37. Opium does NOT contain the following EXCEPT -

Meconic acid
Starch
Calcium Oxalate
Tannins

38. Saponnins are characterized by

1 Quinoline alkaloids are biosynthesized via which one of the following pathways?
(A) Shikimic acid - tyrosine (B) Shikimic acid - tryptophan
(C) Shikimic acid - cathinone D) Shikimic acid - phenylalanine

2 A powdered drug has the following microscopic characters:
Anther cells, arenchyma, pollen grains, phloem fibers, volatile oil cells and stone cells. The powder is obtained from which of the followings?
(A) Clove bud powder (B) Clove bud powder with stalk
(C) Mother Clove (D) None of the above

3. Which of the following ergot alkaloids is water soluble and shows blue fluorescence?
(A) Ergosine (B) Ergotamine (C) Ergocristine (D) Ergometrine

4. Goldbeater's skin test is used to detect the presence of which one of the following classes of compounds?
(A) Tannins (B) Steroids (C) Glycerides (D) Resins

5. Phenylethylisoquinoline is the precursor of which of the following alkaloids?
(A) Colchicine (B) Papaverine (C) Emetine (D) Cephaline

6. Arrange the following fatty acids in decreasing order of their unsaturation (highest to lowest):
[P] Stearic [Q] Oleic acid [R] Linolenic acid [S] Linoleic acid
(A) P>Q>R>S (B) S>R>P>Q (C) R>S>Q>P (D) Q>P>R>S

7. Each of the following options lists a phytoconstituent, its phytochemical grouping, pharmacological activity and corresponding semisynthetic analogue. Find a MISMATCHING option.
(A) Podophyllotoxin, lignan, anticancer, etoposide
(B) Sennoside, anthraquinone, laxative, sinigrin
(C) Atropine, alkaloid, anticholinergic, homatropine
(D) THC, terpenophenolic, psychoactive, nabilone

8. Inhibition/induction of which of the following Cytochrome P450 enzyme system is most likely to be involved in important drug-drug interactions?
(A) CYP3A4 (B) CYP2D6 (C) CYP2C9 (D) CYP1A2

9. Which of the following statements is FALSE for artemisinin?
(A) It is a sesquiterpene lactone endoperoxide
(B) It is a drug of choice in prophylaxis of malaria

(C) It does not cure relapsing malaria
(D) It is useful in treatment of cerebral falciparum malaria

10. Which of the following statements are true for ginseng root?
[P] It is among the most traded plant material of Brazil. [Q] It is obtained from Panax ginseng and Panax quinquefolium. [R] It is obtained from young plants of six months to one year age. [S] It contains derivatives of protopanaxadiol.
(A) P&Q (B) R&S (C) Q&R (D) Q & S

11. Which of the following alkaloids is derived from tyrosine?
(A) Quinine (B) Morphine (C) Atropine (D) Ephedrine

12. Anomocytic stomata, trichomes with collapsed cell and absence of calcium oxalate crystals are some of the microscopic features of which plant?
(A) Digitalis (B) Hyoscyamus (C) Mentha (D) Senna

13. A glycoalkaloid,
[P] contains sulphur in addition to nitrogen in its molecule.
[Q] is glycosidic in nature.
[R] can be hydrolysed to an alkaloid.
[S] always contains endocyclic nitrogen in its molecule.
Choose the correct option.
(A) P&R (B) Q&S (C) Q&R (D) P&Q

14. Which of the following drugs is a triterpenoid containing root?
(A) Valerian (B) Brahmi (C) Satavari (D) Adusa

15. The following options carry the name of the plant, part used and its family. Find a WRONG combination.
(A) Aegle marmelos, fruit & Rutaceae
(B) Conium maculatum, fruit & Umbelliferae
(C) Glycyrrhiza glabra, root and stolon & Leguminosae
(D) Strophanthus gratus, seed & Scrophulariaceae

16. Each of the following options lists the name of the drug, its class, pharmacological action and plant source. Choose an option showing a WRONG combination.
(A) Asafoetida, oleo-gum-resin, anti-flatulence, Ferula foetida
(B) Benzoin, balsam, antiseptic, Styrax benzoin
(C) Myrrh, gum-resin, antiseptic, Commiphora wightii
(D) Papaine, enzyme, proteolytic, Carica papaya

17. Determine the correctness or otherwise mt the following Assertion [a] and the Reason [r]:

Assertion (a) : Tannins are polyphenohc substances occurring In plant cell sap. Hydrolysable and condensed tannins are differentiated by match stick test.

Reason (r) : The condensed tannin- are resistant to acid hydrolysis, therefore stain the lignin present in match stick.

(A) Both (a) and (r) are true, and r . - reason for (a)

(B) Both (a) and (r) are true, but (r is NOT :he correct reason for (a)

(C) (a) is true but (r) is NOT the correct reason for (a)

(D) Both (a) and (r) are false

18. In acetate mevalonate pathway geranyl pyrophosphate leads to formation of monoterpenes, the major constituents of volatile oils.

[P] Geranyl pyrophosphate contains two isoprene units

[Q] Monoterpenes have 15 carbon atoms

[R] The two isoprene units condense in head to tail fashion to give monoterpenes

[S] Isoprene unit has molecular formula of C5 H8.

Which one of the given statements is correct?

(A) P is true, Q is false, R is true, S is false

(B) P is false, Q is true, R is true, S is false

(C) P is true, Q is true, R is false, S is true

(D) P is true, Q is false, R is true, S is true

19. The alkaloid found in calabar bean

A. physostigmine

B. Cocaine

C. colchicines

D. emetine

20. Devil's dung used as a carminative, and anti-spasmodic.

A. jalap

B. gamboges

C. asafetida

D. witch hazel

21. The following is/are the properties of nonhydrozable tannins except:

A. They give a bluish to black color with ferric chloride..

B. They usually contain phloroglucinol nucleus in part.

C. They are usually precipitated by bromine water TS.

D. They yield catechol when heated.

22. This does not possess narcotic properties and is therefore sometimes called anarcotine.

A. noscapine

(C) It does not cure relapsing malaria
(D) It is useful in treatment of cerebral falciparum malaria

10. Which of the following statements are true for ginseng root?
[P] It is among the most traded plant material of Brazil. [Q] It is obtained from Panax ginseng and Panax quinquefolium. [R] It is obtained from young plants of six months to one year age.
[S] It contains derivatives of protopanaxadiol.
(A) P&Q (B) R&S (C) Q&R (D) Q & S

11. Which of the following alkaloids is derived from tyrosine?
(A) Quinine (B) Morphine (C) Atropine (D) Ephedrine

12. Anomocytic stomata, trichomes with collapsed cell and absence of calcium oxalate crystals are some of the microscopic features of which plant?
(A) Digitalis (B) Hyoscyamus (C) Mentha (D) Senna

13. A glycoalkaloid,
[P] contains sulphur in addition to nitrogen in its molecule.
[Q] is glycosidic in nature.
[R] can be hydrolysed to an alkaloid.
[S] always contains endocyclic nitrogen in its molecule.
Choose the correct option.
(A) P&R (B) Q&S (C) Q&R (D) P&Q

14. Which of the following drugs is a triterpenoid containing root?
(A) Valerian (B) Brahmi (C) Satavari (D) Adusa

15. The following options carry the name of the plant, part used and its family. Find a WRONG combination.
(A) Aegle marmelos, fruit & Rutaceae
(B) Conium maculatum, fruit & Umbelliferae
(C) Glycyrrhiza glabra, root and stolon & Leguminosae
(D) Strophanthus gratus, seed & Scrophulariaceae

16. Each of the following options lists the name of the drug, its class, pharmacological action and plant source. Choose an option showing a WRONG combination.
(A) Asafoetida, oleo-gum-resin, anti-flatulence, Ferula foetida
(B) Benzoin, balsam, antiseptic, Styrax benzoin
(C) Myrrh, gum-resin, antiseptic, Commiphora wightii
(D) Papaine, enzyme, proteolytic, Carica papaya

17. Determine the correctness or otherwise mt the following Assertion [a] and the Reason [r]:

Assertion (a) : Tannins are polyphenohc substances occurring In plant cell sap. Hydrolysable and condensed tannins are differentiated by match stick test.

Reason (r) : The condensed tannin- are resistant to acid hydrolysis, therefore stain the lignin present in match stick.

(A) Both (a) and (r) are true, and r . - reason for (a)

(B) Both (a) and (r) are true, but (r is NOT :he correct reason for (a)

(C) (a) is true but (r) is NOT the correct reason for (a)

(D) Both (a) and (r) are false

18. In acetate mevalonate pathway geranyl pyrophosphate leads to formation of monoterpenes, the major constituents of volatile oils.

[P] Geranyl pyrophosphate contains two isoprene units

[Q] Monoterpenes have 15 carbon atoms

[R] The two isoprene units condense in head to tail fashion to give monoterpenes

[S] Isoprene unit has molecular formula of C5 H8.

Which one of the given statements is correct?

(A) P is true, Q is false, R is true, S is false

(B) P is false, Q is true, R is true, S is false

(C) P is true, Q is true, R is false, S is true

(D) P is true, Q is false, R is true, S is true

19. The alkaloid found in calabar bean

A. physostigmine

B. Cocaine

C. colchicines

D. emetine

20. Devil's dung used as a carminative, and anti-spasmodic.

A. jalap

B. gamboges

C. asafetida

D. witch hazel

21. The following is/are the properties of nonhydrozable tannins except:

A. They give a bluish to black color with ferric chloride..

B. They usually contain phloroglucinol nucleus in part.

C.They are usually precipitated by bromine water TS.

D. They yield catechol when heated.

22. This does not possess narcotic properties and is therefore sometimes called anarcotine.

The principal cinchona alkaloid employed therapeutically as anti-protozoal drug

- A. quinine
- B. chloroquine
- C. C. quinacrine
- D. D. quinidine

32. The pathologic product of sperm whale is:

- A. copaiba
- B.ambergris
- C. bayberry
- D. Carnauba
- E. Teaberry

32. These are major carotenoids in plants, except:

- A. b-carotene
- B. lycopene
- C. a-carotene
- D. Gossypol

33.Alkaloids as salts may be liberated from plant components using:

- A. acidulated water
- B. sodium carbonate
- C. methanol
- D. ether

34. This is the parent nucleus of the chlorophylls:

- A. . bilan
- B. porphine
- C. tetraporphinpyrrole
- D. magnesium

35. The solid resin from turpentine:

- A. benzoin
- B. styrax
- C. tolu
- D. rosin

36 Bioflavanoids are also known as

A. Vitamin K
B. Vitamin P
C. Vitamin M
D. Vitamin C

37. Opium does NOT contain the following EXCEPT -

Meconic acid
Starch
Calcium Oxalate
Tannins

38. Saponnins are characterized by

Dr. (Mrs.) Sudha Rathod

1 Quinoline alkaloids are biosynthesized via which one of the following pathways?
(A) Shikimic acid - tyrosine (B) Shikimic acid - tryptophan
(C) Shikimic acid - cathinone D) Shikimic acid - phenylalanine

2 A powdered drug has the following microscopic characters:
Anther cells, arenchyma, pollen grains, phloem fibers, volatile oil cells and stone cells. The powder is obtained from which of the following?
(A) Clove bud powder (B) Clove bud powder with stalk
(C) Mother Clove (D) None of the above

3. Which of the following ergot alkaloids is water soluble and shows blue fluorescence?
(A) Ergosine (B) Ergotamine (C) Ergocristine (D) Ergometrine

4. Goldbeater's skin test is used to detect the presence of which one of the following classes of compounds?
(A) Tannins (B) Steroids (C) Glycerides (D) Resins

5. Phenylethylisoquinoline is the precursor of which of the following alkaloids?
(A) Colchicine (B) Papaverine (C) Emetine (D) Cephaline

6. Arrange the following fatty acids in decreasing order of their unsaturation (highest to lowest):
[P] Stearic [Q] Oleic acid [R] Linolenic acid [S] Linoleic acid
(A) P>Q>R>S (B) S>R>P>Q (C) R>S>Q>P (D) Q>P>R>S

7. Each of the following options lists a phytoconstituent, its phytochemical grouping, pharmacological activity and corresponding semisynthetic analogue. Find a MISMATCHING option.
(A) Podophyllotoxin, lignan, anticancer, etoposide
(B) Sennoside, anthraquinone, laxative, sinigrin
(C) Atropine, alkaloid, anticholinergic, homatropine
(D) THC. terpenophenolic, psychoactive, nabilone

8. Inhibition/induction of which of the following Cytochrome P450 enzyme system is most likely to be involved in important drug-drug interactions?
(A) CYP3A4 (B) CYP2D6 (C) CYP2C9 (D) CYP1A2

9. Which of the following statements is FALSE for artemisinin?
(A) It is a sesquiterpene lactone endoperoxide
(B) It is a drug of choice in prophylaxis of malaria

Dr. (Mrs.) Sudha Rathod

(C) It does not cure relapsing malaria
(D) It is useful in treatment of cerebral falciparum malaria

10. Which of the following statements are true for ginseng root?
[P] It is among the most traded plant material of Brazil. [Q] It is obtained from Panax ginseng and Panax quinquefolium. [R] It is obtained from young plants of six months to one year age.
[S] It contains derivatives of protopanaxadiol.
(A) P&Q (B) R&S (C) Q&R (D) Q & S

11. Which of the following alkaloids is derived from tyrosine?
(A) Quinine (B) Morphine (C) Atropine (D) Ephedrine

12. Anomocytic stomata, trichomes with collapsed cell and absence of calcium oxalate crystals are some of the microscopic features of which plant?
(A) Digitalis (B) Hyoscyamus (C) Mentha (D) Senna

13. A glycoalkaloid,
[P] contains sulphur in addition to nitrogen in its molecule.
[Q] is glycosidic in nature.
[R] can be hydrolysed to an alkaloid.
[S] always contains endocyclic nitrogen in its molecule.
Choose the correct option.
(A) P&R (B) Q&S (C) Q&R (D) P&Q

14. Which of the following drugs is a triterpenoid containing root?
(A) Valerian (B) Brahmi (C) Satavari (D) Adusa

15. The following options carry the name of the plant, part used and its family. Find a WRONG combination.
(A) Aegle marmelos, fruit & Rutaceae
(B) Conium maculatum, fruit & Umbelliferae
(C) Glycyrrhiza glabra, root and stolon & Leguminosae
(D) Strophanthus gratus, seed & Scrophulariaceae

16. Each of the following options lists the name of the drug, its class, pharmacological action and plant source. Choose an option showing a WRONG combination.
(A) Asafoetida, oleo-gum-resin, anti-flatulence, Ferula foetida
(B) Benzoin, balsam, antiseptic, Styrax benzoin
(C) Myrrh, gum-resin, antiseptic, Commiphora wightii
(D) Papaine, enzyme, proteolytic, Carica papaya

17. Determine the correctness or otherwise mt the following Assertion [a] and the Reason [r]:

Assertion (a) : Tannins are polyphenohc substances occurring in plant cell sap.

Hydrolysable and condensed tannins are differentiated by match stick test.

Reason (r) : The condensed tannin- are resistant to acid hydrolysis, therefore stain the lignin present in match stick.

(A) Both (a) and (r) are true, and r . - reason for (a)

(B) Both (a) and (r) are true, but (r is NOT :he correct reason for (a)

(C) (a) is true but (r) is NOT the correct reason for (a)

(D) Both (a) and (r) are false

18. In acetate mevalonate pathway geranyl pyrophosphate leads to formation of monoterpenes, the major constituents of volatile oils.

[P] Geranyl pyrophosphate contains two isoprene units

[Q] Monoterpenes have 15 carbon atoms

[R] The two isoprene units condense in head to tail fashion to give monoterpenes

[S] Isoprene unit has molecular formula of C5 H8.

Which one of the given statements is correct?

(A) P is true, Q is false, R is true, S is false

(B) P is false, Q is true, R is true, S is false

(C) P is true, Q is true, R is false, S is true

(D) P is true, Q is false, R is true, S is true

19. The alkaloid found in calabar bean

A. physostigmine

B. Cocaine

C. colchicines

D. emetine

20. Devil's dung used as a carminative, and anti-spasmodic.

A. jalap

B. gamboges

C. asafetida

D. witch hazel

21. The following is/are the properties of nonhydrozable tannins except:

A. They give a bluish to black color with ferric chloride..

B. They usually contain phloroglucinol nucleus in part.

C. They are usually precipitated by bromine water TS.

D. They yield catechol when heated.

22. This does not possess narcotic properties and is therefore sometimes called anarcotine.

A. noscapine

17. Determine the correctness or otherwise mt the following Assertion [a] and the Reason [r]:

Assertion (a) : Tannins are polyphenohc substances occurring in plant cell sap. Hydrolysable and condensed tannins are differentiated by match stick test.

Reason (r) : The condensed tannin- are resistant to acid hydrolysis, therefore stain the lignin present in match stick.

(A) Both (a) and (r) are true, and r . - reason for (a)

(B) Both (a) and (r) are true, but (r is NOT :he correct reason for (a)

(C) (a) is true but (r) is NOT the correct reason for (a)

(D) Both (a) and (r) are false

18. In acetate mevalonate pathway geranyl py.ophosphate leads to formation of monoterpenes, the major constituents of volatile oils.

[P] Geranyl pyrophosphate contains two isoprene units

[Q] Monoterpenes have 15 carbon atoms

[R] The two isoprene units condense in head to tail fashion to give monoterpenes

[S] Isoprene unit has molecular formula of C5 H8.

Which one of the given statements is correct?

(A) P is true, Q is false, R is true, S is false

(B) P is false, Q is true, R is true, S is false

(C) P is true, Q is true, R is false, S is true

(D) P is true, Q is false, R is true, S is true

19. The alkaloid found in calabar bean

A. physostigmine

B. Cocaine

C. colchicines

D. emetine

20. Devil's dung used as a carminative, and anti-spasmodic.

A. jalap

B. gamboges

C. asafetida

D. witch hazel

21. The following is/are the properties of nonhydrozable tannins except:

A. They give a bluish to black color with ferric chloride..

B. They usually contain phloroglucinol nucleus in part.

C. They are usually precipitated by bromine water TS.

D. They yield catechol when heated.

22. This does not possess narcotic properties and is therefore sometimes called anarcotine.

A. noscapine

Roll no: 10

1 Quinoline alkaloids are biosynthesized via which one of the following pathways?

(A) Shikimic acid - tyrosine (B) Shikimic acid - tryptophan

(C) Shikimic acid - cathinone D) Shikimic acid - phenylalanine

2 A powdered drug has the following microscopic characters:

Anther cells, arenchyma, pollen grains, phloem fibers, volatile oil cells and stone cells. The powder is obtained from which of the followings?

(A) Clove bud powder (B) Clove bud powder with stalk

(C) Mother Clove (D) None of the above

3. Which of the following ergot alkaloids is water soluble and shows blue fluorescence?

(A) Ergosine (B) Ergotamine (C) Ergocristine (D) Ergometrine

4. Goldbeater's skin test is used to detect the presence of which one of the following classes of compounds?

(A) Tannins (B) Steroids (C) Glycerides (D) Resins

5. Phenylethylisoquinoline is the precursor of which of the following alkaloids?

(A) Colchicine (B) Papaverine (C) Emetine (D) Cephaline

6. Arrange the following fatty acids in decreasing order of their unsaturation (highest to lowest):

[P] Stearic [Q] Oleic acid [R] Linolenic acid [S] Linoleic acid

(A) P>Q>R>S (B) S>R>P>Q (C) R>S>Q>P (D) Q>P>R>S

7. Each of the following options lists a phytoconstituent, its phytochemical grouping, pharmacological activity and corresponding semisynthetic analogue. Find a MISMATCHING option.

(A) Podophyllotoxin, lignan, anticancer, etoposide

(B) Sennoside, anthraquinone, laxative, sinigrin

(C) Atropine, alkaloid, anticholinergic, homatropine

(D) THC. terpenophenolic, psychoactive, nabilone

8. Inhibition/induction of which of the following Cytochrome P450 enzyme system is most likely to be involved in important drug-drug interactions?

(A) CYP3A4 (B) CYP2D6 (C) CYP2C9 (D) CYP1A2

9. Which of the following statements is FALSE for artemisinin?

(A) It is a sesquiterpene lactone endoperoxide

(B) It is a drug of choice in prophylaxis of malaria

Dr. (Mrs.) Sudha Rathod
Principal
Oriental College of Pharmacy

Signed By:CN=SUDHA SURESH RATHOD, SERIALNUMBER=ea2a4c

(C) It does not cure relapsing malaria
(D) It is useful in treatment of cerebral falciparum malaria

10. Which of the following statements are true for ginseng root?
[P] It is among the most traded plant material of Brazil. [Q] It is obtained from Panax ginseng and Panax quinquefolium. [R] It is obtained from young plants of six months to one year age.
[S] It contains derivatives of protopanaxadiol.
(A) P&Q (B) R&S (C) Q&R (D) Q & S

11. Which of the following alkaloids is derived from tyrosine?
(A) Quinine (B) Morphine (C) Atropine (D) Ephedrine

12. Anomocytic stomata, trichomes with collapsed cell and absence of calcium oxalate crystals are some of the microscopic features of which plant?
(A) Digitalis (B) Hyoscyamus (C) Mentha (D) Senna

13. A glycoalkaloid,
[P] contains sulphur in addition to nitrogen in its molecule.
[Q] is glycosidic in nature.
[R] can be hydrolysed to an alkaloid.
[S] always contains endocyclic nitrogen in its molecule.
Choose the correct option.
(A) P&R (B) Q&S (C) Q&R (D) P&Q

14. Which of the following drugs is a triterpenoid containing root?
(A) Valerian (B) Brahmi (C) Satavari (D) Adusa

15. The following options carry the name of the plant, part used and its family. Find a WRONG combination.
(A) Aegle marmelos, fruit & Rutaceae
(B) Conium maculatum, fruit & Umbelliferae
(C) Glycyrrhiza glabra, root and stolon & Leguminosae
(D) Strophanthus gratus, seed & Scrophulariaceae

16. Each of the following options lists the name of the drug, its class, pharmacological action and plant source. Choose an option showing a WRONG combination.
(A) Asafoetida, oleo-gum-resin, anti-flatulence, Ferula foetida
(B) Benzoin, balsam, antiseptic, Styrax benzoin
(C) Myrrh, gum-resin, antiseptic, Commiphora wightii
(D) Papaine, enzyme, proteolytic, Carica papaya

17. Determine the correctness or otherwise mt the following Assertion [a] and the Reason [r]:

Assertion (a) : Tannins are polyphenohc substances occurring in plant cell sap. Hydrolysable and condensed tannins are differentiated by match stick test.

Reason (r) : The condensed tannin- are resistant to acid hydrolysis, therefore stain the lignin present in match stick.

(A) Both (a) and (r) are true, and r . - reason for (a)

(B) Both (a) and (r) are true, but (r is NOT :he correct reason for (a)

(C) (a) is true but (r) is NOT the correct reason for (a)

(D) Both (a) and (r) are false

18. In acetate mevalonate pathway geranyl pyrophosphate leads to formation of monoterpenes, the major constituents of volatile oils.

[P] Geranyl pyrophosphate contains two isoprene units

[Q] Monoterpenes have 15 carbon atoms

[R] The two isoprene units condense in head to tail fashion to give monoterpenes

[S] Isoprene unit has molecular formula of C5 H8.

Which one of the given statements is correct?

(A) P is true, Q is false, R is true, S is false

(B) P is false, Q is true, R is true, S is false

(C) P is true, Q is true, R is false, S is true

(D) P is true, Q is false, R is true, S is true

19. The alkaloid found in calabar bean

A. physostigmine

B. Cocaine

C. colchicines

D. emetine

20. Devil's dung used as a carminative, and anti-spasmodic.

A. jalap

B. gamboges

C. asafetida

D. witch hazel

21. The following is/are the properties of nonhydrozable tannins except:

A. They give a bluish to black color with ferric chloride..

B. They usually contain phloroglucinol nucleus in part.

C. They are usually precipitated by bromine water TS.

D. They yield catechol when heated.

22. This does not possess narcotic properties and is therefore sometimes called anarcotine.

A. noscapine

B. hydrocodone
C. papaverine HCl
D. hydromorphone

23. The hallucinogen derived from egrot:
A. THC
B. ETO
C. EDTA
D. LSD

24. The undissolved portion of the drug that remains after extraction:
A. solutE
B. marc
C. solvent
D.active drug

25. Plant sources of purine bases alkaloids:
A. kola
B. tea
C. cacao
D. all of these

26. Milky white viscid secretion from the salivary glands of the worker hive bee, Apis mellifera, and is udes as A general tonic, toward the effects of old age:
A. lac
B. royal jelly
C. ginseng
D. propolis

27. Class of natural products with potent and diverse biological activities involved in platelet aggregation, pain and inflammation.
A. enzyme
B. hormones
C. porstaglandis
D. tubocurarine

28. Attacks protopectin yielding soluble pectin:
A. protopectase
B. pectose
C. pectinase
D. pectase

29.The new name of the family Palmae:
A. poaceae
B. asteraceae
C. caesalpinaceae
D. arecaceae

30 A local source of cyanogenic glycosides is:
- A. Cyanogenum Esculenta
- B. Manihot esculentum
- C. Manihot cympogon

31. The principal cinchona alkaloid employed therapeutically as anti-protozoal drug

- A. quinine
- B. chloroquine
- C. C. quinacrine
- D. D. quinidine

32. The pathologic product of sperm whale is:

- A. copaiba
- B. ambergris
- C. bayberry
- D. Carnauba
- E. Teaberry

32. These are major carotenoids in plants, except:

- A. b-carotene
- B. lycopene
- C. a-carotene
- D. Gossypol

33. Alkaloids as salts may be liberated from plant components using:

- A. acidulated water
- B. sodium carbonate
- C. methanol
- D. ether

34. This is the parent nucleus of the chlorophylls:

- A. bilan
- B. porphine
- C. tetraporphinpyrrole
- D. magnesium

35. The solid resin from turpentine:

- A. benzoin
- B. styrax
- C. tolu
- D. rosin

36 Bioflavanoids are also known as

A. Vitamin K
B. Vitamin P
C. Vitamin M
D. Vitamin C

37. Opium does NOT contain the following EXCEPT -

Meconic acid
Starch
Calcium Oxalate
Tannins

38. Saponnins are characterized by

Answer Key :-

GPAT TEST

PHARMACEUTICAL CHEMISTRY (DR. NUTAN RAO)

TOPIC: CLASSIFICATION AND SAR OF FEW CLASSES OF DRUGS

1) What sort of receptor is the nicotinic receptor?

- a) A G-protein coupled receptor
- b) A kinase linked receptor
- c) An intracellular receptor
- d) An ion channel

2) What sort of receptor is the muscarinic receptor?

- a) A G-protein coupled receptor
- b) A kinase linked receptor
- c) An intracellular receptor
- d) An ion channel

3) Which of the following is a natural chemical messenger for the adrenergic receptor?

- a) Acetylcholine
- b) Dopamine
- c) Serotonin
- d) Noradrenaline

4) What is the predominant adrenoceptor in heart muscle?

- a) α_1-adrenoceptor
- b) α_2-adrenoceptor
- c) β_1-adrenoceptor
- d) β_2-adrenoceptor

5) What is the predominant β-adrenoceptor in bronchial smooth muscle?

- a) β_1-adrenoceptor
- b) β_2-adrenoceptor
- c) β_3-adrenoceptor
- d) β_4-adrenoceptor

Signed By:CN=SUDHA SURESH RATHOD, SERIALNUMBER=ea2a4c

6) What is the main clinical use for agonists of the β_2-adrenoceptor?

- a) Treatment of angina
- b) Treatment of hypertension
- c) Treatment of asthma
- d) Treatment of pain

7) What is the main clinical use for antagonists of the β_1-adrenoceptor?

- a) Treatment of glaucoma
- b) Treatment of hypertension
- c) Treatment of asthma
- d) Treatment of pain

8) To which class of compounds do adrenaline, noradrenaline and dopamine belong?

- a) Phenethylamines
- b) Diphenolethylamines
- c) Catecholamines
- d) Adrenergics

9) Which of the following statements is untrue about G-proteins

- a) G-proteins consist of four protein subunits
- b) G-Proteins act as signal proteins
- c) G-Proteins interact with receptors
- d) G-Proteins bind GDP in the resting state

10) Which of the following is true when a G-protein interacts with a receptor?

- a) The G-protein is split into a γ-subunit and an α,β-dimer
- b) The G-protein is split into a β-subunit and an α,γ-dimer
- c) The G-protein is split into an α-subunit and a β,γ-dimer
- d) The G-protein is split into its component protein subunits

11) Which of the following subunits activates adenylate cyclase?

- a) The α_i-subunit
- b) The α_s-subunit

Signature Not Verified

Signed By:SUDHA SURESH RATHOD
Signed By:CN=SUDHA SURESH RATHOD, SERIALNUMBER=ea2a4c

c) The α_q-subunit

d) The α_o-subunit

12) Which of the following terms is used to describe a drug that has the same effect on a receptor as the endogenous chemical messenger?

a) agonist

b) antagonist

c) partial agonist

d) inverse agonist

13) Which of the following terms is used to describe a drug that binds to a receptor, and activates it, but to a lesser extent than the endogenous chemical messenger?

a) agonist

b) antagonist

c) partial agonist

d) inverse agonist

14) Which of the following terms is used to describe a drug that binds to a receptor, fails to activate it and prevents the endogenous chemical messenger from binding?

a) agonist

b) antagonist

c) partial agonist

d) inverse agonist

15) Which of the following terms is used to describe a drug that binds to a receptor, fails to activate it and leads to a drop in inherent biological activity?

a) agonist

b) antagonist

c) partial agonist

d) inverse agonist

16) Which of the following terms applies to the maximum biological effect resulting from a drug binding to its target?

a) affinity

b) efficacy

c) potency

d) stability

17) Which of the following terms is the measure of how strongly a drug binds to a receptor?

a) affinity

b) efficacy

c) potency

d) stability

18) Which of the following terms applies to the amount of drug required to produce a defined biological effect?

a) affinity

b) efficacy

c) potency

d) stability

19) Barbiturates work by increasing the activity of this neurotransmitter in the brain.

SSRI

MAOI

GABA

TYR

CCK

20) Barbiturates and benzodiazepines excite the activity of which neurotransmitter?

GABA

GHB

Serotonin

Endorphins

Dopamine

21) Opioids function by mimicking which type of brain chemical?

- GABA
- Monoamines
- Serotonin
- Endorphins
- Dopamine

22) Position 5 of Barbiturates should be

- Monosubstituted
- Disubstituted
- Unsubstituted
- None of the above

23) Ramelteon is a

- Melatonin receptor agonist
- Melatonin receptor antagonist
- Melanin Receptor agonist
- None of the above

24) Ultra short acting Barbiturate is

- Phenobarbital
- Butabarbital
- Amobarbital
- Thiopental

25) Benzodiazepine with hydroxyl group at 3-position of diazepine ring is

- Diazepam
- Oxazepam
- Temazepam
- Both b and c

PRE-GPAT EXAM - 2018-19

Subject: Pharmaceutics (S.K.Kar)

Note: Answer all questions. Each Question carries 01 mark. No negative marking

Name: Nihal R. Agarwal Class: Final Year B Pharm, 2018-19 Roll No.: 01

048/50

1. Of the following oral liquid formulations which would be considered as an Oropharyngeal formulation?
   a) Syrup
   b) Elixir
   c) Mouthwash
   d) Linctus

2. Which of the following formulations would not be applicable to ocular administration?
   a) Solution
   b) Liniment
   c) Suspension
   d) Ointment

3. A tablet to treat a headache must first be dissolved in water before swallowing. Which one of the following best describes this type of tablet?
   a) Modified release
   b) Oral disintegrating
   c) Effervescent
   d) Buccal

4. Capsules normally fall into two main categories. Which are they?
   a) Hard gelatin capsules and soft gelatin capsules
   b) Hard gelatin capsules and layered capsule
   c) Soft gelatin capsules and compressed capsules
   d) Compressed and layered capsules

5. Intravenous, intramuscular and subcutaneous are all examples of which routes of administration?
   a) Pulmonary administration
   b) Parenteral administration
   c) Otic administration
   d) Ocular administration

6. Where is the site of administration for a dosage form that uses transdermal delivery?
   a) The eyes
   b) The lungs
   c) Under the tongue
   d) The skin

7. Which of the following dosage forms delivers the API to the GI tract?
   a) Rectal suppositories
   b) Nasal sprays
   c) Vaginal pessaries
   d) Eye drops

8. Name two different types of inhaler?
   a) MDI & API
   b) IV & SC
   c) DPI & MDI
   d) GIT & ATP

9. Nasal administration is commonly used for the relief of?
   a) Headache
   b) Cough
   c) Sore throat
   d) Congestion

10. Ocular administration involves the treatment of which are?
    a) The skin
    b) The eyes
    c) The lungs
    d) The ear

11) Rotosort is a machine used to sort out:
    a) Coated capsules
    b) Filled capsules
    c) Sealed ampoules
    d) Sealed containers

12) Green bones are used for the preparation of a gelatin of the type:
    a) A
    b) B
    c) C
    d) A&B

13) In capsules, ROTOFIL is used for filling:
    a) Powders
    b) Pellets
    c) Liquids
    d) Corrosive liquids

(1 of 4)

14) Gelatin and glycerin are used for the preparation of lamellae in a specified ratio. Identify the correct ratio
a) 1:1
b) 5:1
c) 9:1
d) 10:1

15) The size 000 capsules can fill the volume of
a) 1.36ml
b) 0.13ml
c) 0.96ml
d) 0.25ml

16) Capsules shell are made with
a) Starch
b) Pectin
c) Gelatin
d) Shellac

17) Vegetable capsules shell are prepared of:
a) Gelatin
b) Chitosan
c) HPMC
d) None of the above

18) Gelatin is
a) Fat
b) Protein
c) Carbohydrate
d) None of the above

19) Smallest capsule size is represented by number
a) 0
b) 3
c) 1
d) 5

20) The following steps involved in hard gelatin capsule shell production
a) Dipping
b) Spinning
c) Trimming
d) All of the above

21) The shells of soft gelatin capsules may be made elastic or plastic – like the addition of:
a) Sorbitol
b) Povidone
c) Polyethylene glycol
d) Hydroxypropyl methylcellulose

22) High bloom strength gelatin is used in manufacture of
a) Soft gelatin capsules
b) Hard gelatin capsules
c) a & b
d) None of the above

23) Example of Aerosol is:
a) Smoke
b) Solid form
c) Liquid form
d) Emulsion

24. Coritainers used for aerosol should withstand pressure of
a) 130 -150 psig at 150 ^{0}F
b) 140 -180 psig at 130 ^{0}F
c) 120 -170 psig at 110 ^{0}F
d) 190-200 psig at 210 ^{0}F

25. Anthropogenic aerosols are those that are
a) Caused by humans
b) Come from the oceans
c) Come from dry land
d) Caused by natural source

26. Which of the following, found in our atmosphere, is an example of a SECONDARY atmospheric aerosols?
a) Sulphuric acid
b) Dust
c) Smoke
d) Soot

27. Under the ideal gas laws, which of the following is NOT a correct assumption?
a) Molecules occupy a negligible volume
b) Gas volume is insensitive to changes in pressure
c) No energy is lost when molecules collide
d) Forces between molecules are insignificant

28. Which of the following is NOT true of Raoult's law
a) Raoult's law applies to miscible solvents in a closed system
b) The toluene-benzene mixtures obey Raoult's law
c) A pharmaceutical application of Raoult's law is the formulation of pressurised metered dose inhaler
d) The behaviour predicted by Raoult's law is independent of inter-molecular forces

Signature Not Verified
Signed By:SUDHA SURESH RATHOD
Signed By:CN=SUDHA SURESH RATHOD, SERIALNUMBER=ea2a4c

29. Gases do NOT have a role in which of the following pharmaceutical operations
a) Surface area measurement
b) Lyophilisation
c) Distillation
d) Melting

30. For an aerosol inhaled to the lungs, which of the following is NOT true?
a) Airflow becomes faster and more turbulent the more deeply it penetrates the lungs
b) Particles of 5 µm and above impart in the proximal airways
c) Sedimentation is the major mechanism of deposition for particles between 0.5-3 µm
d) Breath-holding will enhance deposition of sub-micron particles by diffusion

31. For pressurised Metered Dose Inhalers (pMDI) which of the following is NOT true?
a) pMDI emit aerosols at high velocity
b) pMDI use liquefied gases as propellants
c) pMDI may be formulated as solutions or suspensions
d) pMDI cannot be used with spacers

32. Which of the following is NOT true of jet nebulisers?
a) Jet nebulisers produce mists
b) Jet nebulisers use high velocity gas flows to generate the Venturi effect to draw solution into the airflow
c) Jet nebulisers induce an decrease in the temperature of the nebuliser solution during operation
d) Jet nebulisers use ultrasonic forces to produce the aerosol

33. Which of the following polymer is widely used in film coating of tablets?
a) Acacia
b) Syrup
c) HPMC
d) PVA

34. Lamination is:
a) Separation of a tablet into two or more distinct layers.
b) Partial and complete separation of the top and bottom crowns of a tablet from the main body of the tablet.
c) Process of sub-coating of tablets
d) None of the above

35. Poorly manufactured tablets may have small pinholes on the surface. This phenomenon is known as
a) Leaching
b) Picking
c) Mottling
d) Chipping

36. Dissolution test apparatus no. 1 as per IP is
a) Paddle
b) Basket
c) Rotating basket
d) Rotating cylinder

37. Which filler can NOT be used for the preparation of tablets for amine containing basic drugs to avoid discoloration of the tablets?
a) Dicalcium phosphate
b) Microcrystalline cellulose
c) Starch
d) Lactose

38. If the Carr's index of a powder is 10% then the type of powder flow is
a) Poor
b) Excellent
c) Very poor
d) Good

39. In Friability test tablets fall from ___ height.
a) 6 cm
b) 6 inch
c) 9 cm
d) 9 mm

40. ___ is used for guiding movement of the punches in rotary tablet compression machine
a) Die table
b) Strain gauge
c) Cam track
d) Hopper

41. The rate of drug bioavailability is most rapid when the drug is formulated as a
a) Hard gelatin capsule
b) Compressed tablet
c) Solution
d) Suspension

42. Tablet thickness varies with changes in_____
a) Die fills
b) Temperature
c) Compression force
d) a & c

43. GLP stands for?
a) Good Manufacturing Practices
b) Good Clinical Practices
c) Good Laboratory Practices
d) All the above

44. cGMP prohibits false therapeutic claims
a) True
b) False
c) Not Sure
d) May be

45. Training is not a GMP requirement
a) True
b) False
c) Maybe
d) Not Sure

46. Protect materials and product from contamination and restricted access are the GMP requirement answer choices
a) True
b) False
c) Maybe
d) Not sure

47. Which of the following statements are correct?
a) Processes should be Validated, Robust, Produce uniform product, Protect product from contamination, Controlled, Cleanable and kept clean
b) There should be procedures for all pieces of equipment that explain how to disassemble, how to clean, how to reassemble, how to operate, and where necessary, how to trouble shoot
c) Quality needs to be designed into the product from the very beginning of its lifecycle
d) All the above

48. 5P's covers People, Premises, Product, Processes and Procedures
a) True
b) False
c) Maybe
d) Not sure

49. Contamination may be caused by
a) poor hygiene practices
b) inadequate cleaning
c) residual cleaning agents
d) All of the above

50. Manufacture of sterile medicines does not require strict controls on Line clearance and Line opening
a) True
b) False
c) Maybe
d) Not Sure

c) HPMC
d) None of the above

18) Gelatin is
a) Fat
b) Protein
c) Carbohydrate
d) None of the above

19) Smallest capsule size is represented by number
a) 0
b) 3
c) 1
d) 5

20) The following steps involved in hard gelatin capsule shell production
a) Dipping
b) Spinning
c) Trimming
d) All of the above

21) The shells of soft gelatin capsules may be made elastic or plastic – like the addition of:
a) Sorbitol
b) Povidone
c) Polyethylene glycol
d) Hydroxypropyl methylcellulose

22) High bloom strength gelatin is used in manufacture of
a) Soft gelatin capsules
b) Hard gelatin capsules
c) a & b
d) None of the above

23) Example of Aerosol is:
a) Smoke
b) Solid form
c) Liquid form
d) Emulsion

24. Containers used for aerosol should withstand pressure of
a) 130 -150 psig at 150 ^{0}F
b) 140 -180 psig at 130 ^{0}F
c) 120 -170 psig at 110 ^{0}F
d) 190-200 psig at 210 ^{0}F

25. Anthropogenic aerosols are those that are
a) Caused by humans
b) Come from the oceans
c) Come from dry land
d) Caused by natural source

26. Which of the following, found in our atmosphere, is an example of a SECONDARY atmospheric aerosols?
a) Sulphuric acid
b) Dust
c) Smoke
d) Soot

27. Under the ideal gas laws, which of the following is NOT a correct assumption?
a) Molecules occupy a negligible volume
b) Gas volume is insensitive to changes in pressure
c) No energy is lost when molecules collide
d) Forces between molecules are insignificant

28. Which of the following is NOT true of Raoult's law
a) Raoult's law applies to miscible solvents in a closed system
b) The toluene-benzene mixtures obey Raoult's law
c) A pharmaceutical application of Raoult's law is the formulation of pressurised metered dose inhaler
d) The behaviour predicted by Raoult's law is independent of inter-molecular forces

Signature Not Verified

Signed By:CN=SUDHA SURESH RATHOD, SERIALNUMBER=ea2a4c

Gases do NOT have a role in which of the following pharmaceutical operations

a) Surface area measurement
b) Lyophilisation
c) Distillation
d) Melting

30. For an aerosol inhaled to the lungs, which of the following is NOT true?

a) Airflow becomes faster and more turbulent the more deeply it penetrates the lungs
b) Particles of 5 µm and above impact in the proximal airways
c) Sedimentation is the major mechanism of deposition for particles between 0.5-3 µm
d) Breath-holding will enhance deposition of sub-micron particles by diffusion

31. For pressurised Metered Dose Inhalers (pMDI) which of the following is NOT true?

a) pMDI emit aerosols at high velocity
b) pMDI use liquefied gases as propellants
c) pMDI may be formulated as solutions or suspensions
d) pMDI cannot be used with spacers

32. Which of the following is NOT true of jet nebulisers?

a) Jet nebulisers produce mists
b) Jet nebulisers use high velocity gas flows to generate the Venturi effect to draw solution into the airflow
c) Jet nebulisers induce an decrease in the temperature of the nebuliser solution during operation
d) Jet nebulisers use ultrasonic forces to produce the aerosol

33. Which of the following polymer is widely used in film coating of tablets?

a) Acacia
b) Syrup
c) HPMC
d) PVA

34. Lamination is:

a) Separation of a tablet into two or more distinct layers.
b) Partial and complete separation of the top and bottom crowns of a tablet from the main body of the tablet.
c) Process of sub-coating of tablets
d) None of the above

35. Poorly manufactured tablets may have small pinholes on the surface. This phenomenon is known as:

a) Leaching
b) Picking
c) Mottling
d) Chipping

36. Dissolution test apparatus no. 1 as per IP is

a) Paddle
b) Basket
c) Rotating basket
d) Rotating cylinder

37. Which filler can NOT be used for the preparation of tablets for amine containing basic drugs to avoid discolr ration of the tablets?

a) Dicalcium phosphate
b) Microcrystalline cellulose
c) Starch
d) Lactose

38. If the Carr's index of a powder is 10% then the type of powder flow is

a) Poor
b) Excellent
c) Very poor
d) Good

39. In Friability test tablets fall from ___ height.

a) 6 cm
b) 6 inch
c) 9 cm
d) 9 mm

40. ____ is used for guiding movement of the punches in rotary tablet compression machine

a) Die table
b) Strain gauge
c) Cam track
d) Hooper

41. The rate of drug bioavailability is most rapid when the drug is formulated as a

a) Hard gelatin capsule
b) Compressed tablet
c) Solution
d) Suspension

42. Tablet thickness varies with changes in_____
a) Die fills
b) Temperature
c) Compression force
d) a & c

43. GLP stands for?
a) Good Manufacturing Practices
b) Good Clinical Practices
c) Good Laboratory Practices
d) All the above

44. cGMP prohibits false therapeutic claims
a) True
b) False
c) Not Sure
d) May be

45. Training is not a GMP requirement
a) True
b) False
c) Maybe
d) Not Sure

46. Protect materials and product from contamination and restricted access are the GMP requirement answer choices
a) True
b) False
c) Maybe
d) Not sure

47. Which of the following statements are correct?
a) Processes should be Validated, Robust, Produce uniform product, Protect product from contamination, Controlled, Cleanable and kept clean
b) There should be procedures for all pieces of equipment that explain how to disassemble, how to clean, how to reassemble, how to operate, and where necessary, how to trouble shoot
c) Quality needs to be designed into the product from the very beginning of its lifecycle
d) All the above

48. 5P's covers People, Premises, Product, Processes and Procedures
a) True
b) False
c) Maybe
d) Not sure

49. Contamination may be caused by
a) poor hygiene practices
b) inadequate cleaning
c) residual cleaning agents
d) All of the above

50. Manufacture of sterile medicines does not require strict controls on Line clearance and Line opening
a) True
b) False
c) Maybe
d) Not Sure

PRE-GPAT EXAM - 2018-19

Subject: Pharmaceutics (S.K.Kar)

49

Note: Answer all questions. Each Question carries 01 mark. No negative marking

Name: Nikita Talwar Class: Final Year B Pharm, 2018-19 Roll No.: 54

1. Of the following oral liquid formulations which would be considered as an Oropharyngeal formulation?
   a) Syrup
   b) Elixir
   c) Mouthwash
   d) Linctus

2. Which of the following formulations would not be applicable to ocular administration?
   a) Solution
   b) Liniment
   c) Suspension
   d) Ointment

3. A tablet to treat a headache must first be dissolved in water before swallowing. Which one of the following best describes this type of tablet?
   a) Modified release
   b) Oral disintegrating
   c) Effervescent
   d) Buccal

4. Capsules normally fall into two main categories. Which are they?
   a) Hard gelatin capsules and soft gelatin capsules
   b) Hard gelatin capsules and layered capsule
   c) Soft gelatin capsules and compressed capsules
   d) Compressed and layered capsules

5. Intravenous, intramuscular and subcutaneous are all examples of which routes of administration?
   a) Pulmonary administration
   b) Parenteral administration
   c) Otic administration
   d) Ocular administration

6. Where is the site of administration for a dosage form that uses transdermal delivery?
   a) The eyes
   b) The lungs
   c) Under the tongue
   d) The skin

7. Which of the following dosage forms delivers the API to the GI tract?
   a) Rectal suppositories
   b) Nasal sprays
   c) Vaginal pessaries
   d) Eye drops

8. Name two different types of inhaler?
   a) MDI & API
   b) IV & SC
   c) DPI & MDI
   d) GIT & ATP

9. Nasal administration is commonly used for the relief of?
   a) Headache
   b) Cough
   c) Sore throat
   d) Congestion

10. Ocular administration involves the treatment of which are?
    a) The skin
    b) The eyes
    c) The lungs
    d) The ear

11) Rotosort is a machine used to sort out:
    a) Coated capsules
    b) Filled capsules
    c) Sealed ampoules
    d) Sealed containers

12) Green bones are used for the preparation of a gelatin of the type:
    a) A
    b) B
    c) C
    d) A&B

13) In capsules, ROTOFIL is used for filling:
    a) Powders
    b) Pellets
    c) Liquids
    d) Corrosive liquids

14) Gelatin and glycerin are used for the preparation of lamellae in a specified ratio. Identify the correct ratio
a) 1:1
b) 5:1
c) 9:1
d) 10:1

15) The size 000 capsules can fill the volume of
a) 1.36ml
b) 0.13ml
c) 0.96ml
d) 0.25ml

16) Capsules shell are made with
a) Starch
b) Pectin
c) Gelatin
d) Shellac

17) Vegetable capsules shell are prepared of:
a) Gelatin
b) Chitosan
c) HPMC
d) None of the above

18) Gelatin is
a) Fat
b) Protein
c) Carbohydrate
d) None of the above

19) Smallest capsule size is represented by number
a) 0

c) Soft gelatin capsules and compressed capsules
d) Compressed and layered capsules

5. Intravenous, intramuscular and subcutaneous are all examples of which routes of administration?
a) Pulmonary administration
b) Parenteral administration
c) Otic administration
d) Ocular administration

6. Where is the site of administration for a dosage form that uses transdermal delivery?
a) The eyes
b) The lungs
c) Under the tongue
d) The skin

7. Which of the following dosage forms delivers the API to the GI tract?
a) Rectal suppositories
b) Nasal sprays
c) Vaginal pessaries
d) Eye drops

8. Name two different types of inhaler?
a) MDI & API
b) IV & SC
c) DPI & MDI
d) GIT & ATP

9. Nasal administration is commonly used for the relief of?
a) Headache
b) Cough
c) Sore throat
d) Congestion

10. Ocular administration involves the treatment of which are?
a) The skin
b) The eyes
c) The lungs
d) The ear

11) Rotosort is a machine used to sort out:
a) Coated capsules
b) Filled capsules
c) Sealed ampoules
d) Sealed containers

12) Green bones are used for the preparation of a gelatin of the type:
a) A
b) B
c) C
d) A&B

13) In capsules, ROTOFIL is used for filling:
a) Powders
b) Pellets
c) Liquids
d) Corrosive liquids

14) Gelatin and glycerin are used for the preparation of lamellae in a specified ratio. Identify the correct ratio
a) 1:1
b) 5:1
c) 9:1
d) 10:1

15) The size 000 capsules can fill the volume of
a) 1.36ml
b) 0.13ml
c) 0.96ml
d) 0.25ml

16) Capsules shell are made with
a) Starch
b) Pectin
c) Gelatin
d) Shellac

17) Vegetable capsules shell are prepared of:
a) Gelatin
b) Chitosan
c) HPMC
d) None of the above

18) Gelatin is
a) Fat
b) Protein
c) Carbohydrate
d) None of the above

19) Smallest capsule size is represented by number
a) 0
b) 3
c) 1
d) 5

20) The following steps involved in hard gelatin capsule shell production
a) Dipping
b) Spinning
c) Trimming
d) All of the above

21) The shells of soft gelatin capsules may be made elastic or plastic – like the addition of:
a) Sorbitol
b) Povidone
c) Polyethylene glycol
d) Hydroxypropyl methylcellulose

22) High bloom strength gelatin is used in manufacture of
a) Soft gelatin capsules
b) Hard gelatin capsules
c) a & b
d) None of the above

23 Example of Aerosol is;
a) Smoke
b) Solid form
c) Liquid form
d) Emulsion

24. Containers used for aerosol should withstand pressure of
a) 130 -150 psig at 150 °F
b) 140 -180 psig at 130 °F
c) 120 -170 psig at 110 °F
d) 190-200 psig at -10 °F

25. Anthropogenic aerosols are those that are
a) Caused by humans
b) Come from the oceans
c) Come from dry land
d) Caused by natural source

26. Which of the following, found in our atmosphere, is an example of a SECONDARY atmospheric aerosols?
a) Sulphuric acid
b) Dust
c) Smoke
d) Soot

27. Under the ideal gas laws, which of the following is NOT a correct assumption?
a) Molecules occupy a negligible volume
b) Gas volume is insensitive to changes in pressure
c) No energy is lost when molecules collide
d) Forces between molecules are insignificant

28. Which of the following is NOT true of Raoult's law
a) Raoult's law applies to miscible solvents in a closed system
b) The toluene-benzene mixtures obey Raoult's law
c) A pharmaceutical application of Raoult's law is the formulation of pressurised metered dose inhaler
d) The behaviour predicted by Raoult's law is independent of inter-molecular forces

Signature Not Verified
Signed By:SUDHA SURESH RATHOD
Signed By:CN=SUDHA SURESH RATHOD, SERIALNUMBER=ea2a4c

Gases do NOT have a role in which of the following pharmaceutical operations
a) Surface area measurement
b) Lyophilisation
c) Distillation
d) Melting

30. For an aerosol inhaled to the lungs, which of the following is NOT true?
a) Airflow becomes faster and more turbulent the more deeply it penetrates the lungs
b) Particles of 5 µm and above impact in the proximal airways
c) Sedimentation is the major mechanism of deposition for particles between 0.5-3 µm
d) Breath-holding will enhance deposition of sub-micron particles by diffusion

31. For pressurised Metered Dose Inhalers (pMDI) which of the following is NOT true?
a) pMDI emit aerosols at high velocity
b) pMDI use liquefied gases as propellants
c) pMDI may be formulated as solutions or suspensions
d) pMDI cannot be used with spacers

32. Which of the following is NOT true of jet nebulisers?
a) Jet nebulisers produce mists
b) Jet nebulisers use high velocity gas flows to generate the Venturi effect to draw solution into the airflow
c) Jet nebulisers induce an decrease in the temperature of the nebuliser solution during operation
d) Jet nebulisers use ultrasonic forces to produce the aerosol

33. Which of the following polymer is widely used in film coating of tablets?
a) Acacia
b) Syrup
c) HPMC
d) PVA

34. Lamination is:
a) Separation of a tablet into two or more distinct layers.
b) Partial and complete separation of the top and bottom crowns of a tablet from the main body of the tablet.
c) Process of sub-coating of tablets
d) None of the above

35. Poorly manufactured tablets may have small pinholes on the surface. This phenomenon is known as
a) Leaching
b) Picking
c) Mottling
d) Chipping

36. Dissolution test apparatus no. 1 as per IP is
a) Paddle
b) Basket
c) Rotating basket
d) Rotating cylinder

37. Which filler can NOT be used for the preparation of tablets for amine containing basic drugs to avoid discoloration of the tablets?
a) Dicalcium phosphate
b) Microcrystalline cellulose
c) Starch
d) Lactose

38. If the Carr's index of a powder is 10% then the type of powder flow is
a) Poor
b) Excellent
c) Very poor
d) Good

39. In Friability test tablets fall from ___ height.
a) 6 cm
b) 6 inch
c) 9 cm
d) 9 mm

40. ____ is used for guiding movement of the punches in rotary tablet compression machine
a) Die table
b) Strain gauge
c) Cam track
d) Hopper

41. The rate of drug bioavailability is most rapid when the drug is formulated as a
a) Hard gelatin capsule
b) Compressed tablet
c) Solution
d) Suspension

42. Tablet thickness varies with changes In_____
a) Die fills
b) Temperature
c) Compression force
d) a & c

43. GLP stands for?
a) Good Manufacturing Practices
b) Good Clinical Practices
c) Good Laboratory Practices
d) All the above

44. cGMP prohibits false therapeutic claims
a) True
b) False
c) Not Sure
d) May be

45. Training is not a GMP requirement
a) True
b) False
c) Maybe
d) Not Sure

46. Protect materials and product from contamination and restricted access are the GMP requirement answer choices
a) True
b) False
c) Maybe
d) Not sure

47. Which of the following statements are correct?
a) Processes should be Validated, Robust, Produce uniform product, Protect product from contamination, Controlled, Cleanable and kept clean
b) There should be procedures for all pieces of equipment that explain how to disassemble, how to clean, how to reassemble, how to operate, and where necessary, how to trouble shoot
c) Quality needs to be designed into the product from the very beginning of its lifecycle
d) All the above

48. 5P's covers People, Premises, Product, Processes and Procedures
a) True
b) False
c) Maybe
d) Not sure

49. Contamination may be caused by
a) poor hygiene practices
b) inadequate cleaning
c) residual cleaning agents
d) All of the above

50. Manufacture of sterile medicines does not require strict controls on Line clearance and Line opening
a) True
b) False
c) Maybe
d) Not Sure

PRE-GPAT EXAM - 2018-19

Subject: Pharmaceutics (S.K.Kar)

46/50

Note: Answer all questions. Each Question carries 01 mark. No negative marking

Name: Ronak Jain Class: Final Year B Pharm, 2018-19 Roll No : 17

1. Of the following oral liquid formulations which would be considered as an Oropharyngeal formulation?
   a) Syrup
   b) Elixir
   c) Mouthwash
   d) Linctus

2. Which of the following formulations would not be applicable to ocular administration?
   a) Solution
   b) Liniment
   c) Suspension
   d) Ointment

3. A tablet to treat a headache must first be dissolved in water before swallowing. Which one of the following best describes this type of tablet?
   a) Modified release
   b) Oral disintegrating
   c) Effervescent
   d) Buccal

4. Capsules normally fall into two main categories. Which are they?
   a) Hard gelatin capsules and soft gelatin capsules
   b) Hard gelatin capsules and layered capsule
   c) Soft gelatin capsules and compressed capsules
   d) Compressed and layered capsules

5. Intravenous, intramuscular and subcutaneous are all examples of which routes of administration?
   a) Pulmonary administration
   b) Parenteral administration
   c) Otic administration
   d) Ocular administration

6. Where is the site of administration for a dosage form that uses transdermal delivery?
   a) The eyes
   b) The lungs
   c) Under the tongue
   d) The skin

7. Which of the following dosage forms delivers the API to the GI tract?
   a) Rectal suppositories
   b) Nasal sprays
   c) Vaginal pessaries
   d) Eye drops

8. Name two different types of inhaler?
   a) MDI & API
   b) IV & SC
   c) DPI & MDI
   d) GIT & ATP

9. Nasal administration is commonly used for the relief of?
   a) Headache
   b) Cough
   c) Sore throat
   d) Congestion

10. Ocular administration involves the treatment of which are?
    a) The skin
    b) The eyes
    c) The lungs
    d) The ear

11) Bolosort is a machine used to sort out:
    a) Coated capsules
    b) Filled capsules
    c) Sealed ampoules
    d) Sealed containers

12) Green bones are used for the preparation of a gelatin of the type:
    a) A
    b) B
    c) C
    d) A&B

13) In capsules, ROTOFIL is used for filling:
    a) Powders
    b) Pellets
    c) Liquids
    d) Corrosive liquids

ORIENTAL EDUCATION SOCIETY'S

ORIENTAL COLLEGE OF PHARMACY

(Approved by AICTE, PCI, D.T.E, Affiliated to University of Mumbai & Certified by ISO 9001:2008)

Date : 15th July 2018

Minutes of meeting

Following are the minutes of meeting held on 14 July 2018, 11.30am:

- With the consent of all the members the schedule of GPAT lectures were finalized.
- Syllabus portion were distributed among the entire teacher with their consent.
- In meeting, it was decided that lecture will be conducted on Saturday at afternoon session and test will be taken on Monday of next week.
- At the end of meeting, it was decided that next meeting will be held on 28 November 2018, to review GPAT schedule.

NOTICE

All Faculty members and Students of B.Pharmacy, Final Year are hereby informed that classes for "GPAT-2018-19" are re-scheduled and will be held on **Monday** only, @ 2.15 p.m. as per the following schedule written herewith in the table.

S.N.	Date	Teacher's Name	Topic
Department of Pharmaceutical Chemistry			
01	10th December 18	Dr. Nutan Rao	Classification of Drugs and SAR of Important Drugs.
02	17th December 18	Dr.Amjad Ali	Drug Metabolism
Department of Pharmacognosy			
03	24th December 18	Dr. Mohib Khan	Introduction to Alkaloids
04	7th January 19	Dr. Vandana Jain	Lipid,Tanins, Glycosides
Department of Pharmacology			
05	14th January 19	Dr.Vanita Kanase	Urinary System, Immunology
06	21st January 19	Mr.Imtiyaz Ansari	Anatomy of CVS general consideration, Pharmacology of drug acting of ANS

Note:

- The date/s may clash with the Academic Calendar for A.Y. 2018-19, please engage the GPAT class.
- Please keep ready the Question Paper (**With help of M.Pharm. Students assigned under you**) for the exam to be held on immediate Tuesday after your class turn.
- Please don't avail the C.L. on same date mentioned against your name. It will disturb next date/s.

NOTICE

All Faculty members and Students of B.Pharmacy, Final Year are hereby informed that classes for "GPAT-2018-19" will be held on Saturday only, @ 2.30 p.m. as per the following schedule written herewith in the table.

S.N.	Date	Teacher's Name	Topic
		Department of Pharmaceutics	
01	4st August 18	Dr.Ganesh Deshmukh	Colligative property, Chemical kinetics, Thermodynamics.
02	11th August 18	Dr.Sudha Rathod	Viscosity and Rheology
03	25th August 18	Mr. S. K. Kar	Dosage forms, Capsule, Tablet, Aerosols GMP
04	1st September 18	Dr.Pradnya Palekar-Shanbagh	Psology- Numericals Biopharmaceutics
05	8th September 18	Mr.Asish Dev	Stability studies and Preformulation.
06	22nd September 18	Mrs. Kanishka Ladhmani	Crystallization
		Department of Quality Assurance	
07	29th September 18	Dr. S.LBoddu	UV, IR, Raman,NMR sums, Nephelometry, Turbidimetry.
08	13th October 18	Ms.Darakhshan Shaikh	Biochemistry- Concept, Pathway and disorder.
		Department of Pharmacology	
09	20th October 18	Dr.Vanita Kanase	Urinary System, Immunology
