1. Best Practice1: Research Culture (Description)

7.2.1 Best Practice 1: Research Culture

1. Title of the Practice: Research Culture

2. Objectives of the Practice:

The institution is doing well with respect to research publications, patents, MOU's and Industrial Projects by faculties and students. By encouraging staff to pursue Ph.D. programs, attend cutting-edge seminars, workshops, and Faculty Development Programs, engage in minor and major research projects, organize, and participate in workshops and seminars, and encourage staff and students to publish papers in well recognized journals, the institute helps students and faculty to develop a research culture. It also helps faculty put theoretical knowledge into practice by registration of patents. Management is also very keen in developing the research culture in the college.

3. The Context:

The institute accepts students from various regions and from different socio-economic background. The institution promotes students by doing research and review activities outside of the curriculum in order to instil a love of learning via research, and uncover latent potential.

4. The Practice:

The institute places a strong emphasis on encouraging research activities in order to help students develop their abilities and foster their curiosity. The institution has encouraged faculty and students to carry out a variety of research activities in order to promote research activities and skill development. For patent registration management contributes 50% fees. They contribute in 50% publication charges to publish articles in well reputed journals. To improve research skills, Management provides funds for conducting research activities by B. Pharm, M. Pharm and Ph. D. students and faculties. Institute set up various seminars and webinars to reduce the gap in between Industry and Institute. College provides funding for registration to enrol and participate in outside research events. Management also provides funds

for faculty and non-teaching staff for attending workshops seminars, conferences etc. Additionally, management also kept research door open for outside agencies for analysing the samples on OCP instruments.

Faculty members were counselled to seek for research funds from a variety of organizations, including Mumbai University, the UGC, AICTE, and the ICMR.

It was encouraged for academic staff and students to publish their findings in both national and international publications. Faculties are also encouraged to publish scientific books, fetch various grants, and attend renowned FDPs to inculcate and groom scientific skills.

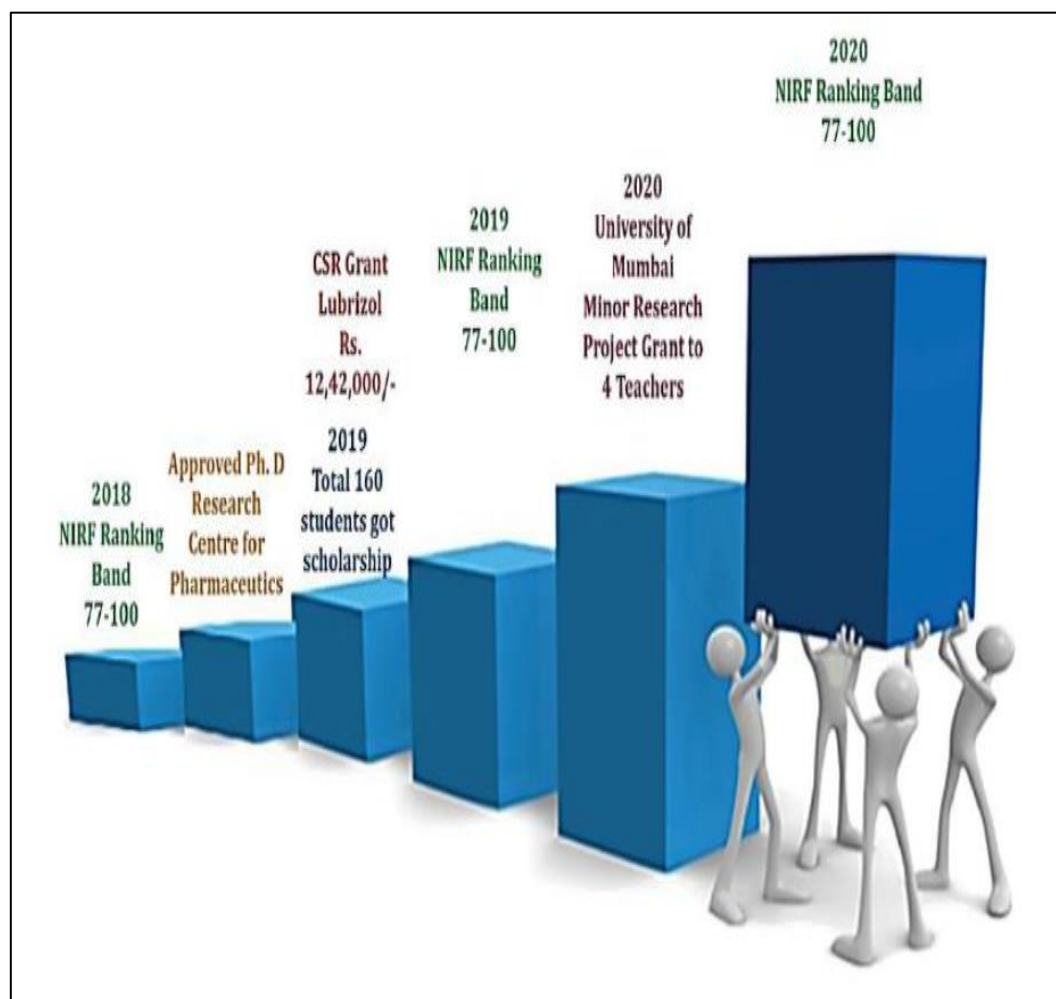

5. Evidence of Success:

College is having research advisory board composed of highly-educated and research oriented personnels. By taking meetings regularly they take review of research of all departments and associated activities. College has several MOUs with multiple Industries and Laboratories. College has executed number of sponsored research projects taken from industries. Faculties at OCP are getting minor research grants from University of Mumbai. Every year, faculties regularly publishing several books and are also maintained good publication count in well reputed journals. Faculties also contributed in inventions and innovations by publishing several patents. Management of college is giving encouragement to student's research by providing contingency to Ph.D., M. Pharm and B. Pharm students. Faculty members were urged to enrol in doctoral programs. 8 faculties are currently enrolled in Ph.D. programs, while 12 faculties are already having Ph. D degree. Samples are being received from various colleges and industries for testing on instruments or machines available in our college. College continuously encourages students as well as faculties to organize and participate in our college as well as in other institutes seminars, workshop to enrich their research skills. Thus, through our research culture college encourages to take higher education in upgradation of community.

6. Problems Encountered and Resources Required:

To pursue high level of research, a considerable volume of research funding/ sponsorships is required. This is required to purchase more sophisticated equipment's which will fasten the research work. After accreditation of government

agencies our researchers would be able to attract more research grants. In order to make available research facilities, college is involving institutes with high rank and preparing MOUs with them. Similarly, industries are also providing help and MOUs prepared with them. We make our research facilities available to other institutes for smooth conduct of their research work.

(PAPL)INDUSTRIAL VISIT REPORT

An industrial visit of First year M. Pharmacy students of Oriental College of Pharmacy to Padmaja Aerobiologicals Pvt. Ltd. (PAPL), Turbhe on 9th March 2021. PAPL was established in the year 1983. Initially it started as a support laboratory to cater the needs of small as well as medium industries situated in Thane-Belapur. Subsequently it was re-engineered to a well-established analytical public testing / referee laboratory in the field of Environmental Monitoring, Work place monitoring, Drugs and Intermediates, Microbiological, Industrial Chemical etc. PAPL has been serving various customers for more than 30 years.

All branches of M. Pharmacy students were involved in the visit. Firstly, students of branches Pharmaceutics and Quality Assurance paid a visit to the organization from 11am to 1pm, followed by Pharmacology branch, from 2pm to 4pm. The morning batch was assisted by respected Principal, Dr. (Mrs.) Sudha Rathod and Dr. (Mrs.) Vandana Jain. The afternoon batch was guided by Dr. (Mrs.) Vanita Kanase. Eleven students of Pharmaceutics branch and Thirteen students from the Quality Assurance branch were present in the first slot. Fourteen pharmacology students were present in the second slot.

The visit comprised of students being given thorough exposure of High Performance Liquid Chromatography (HPLC) and Gas Chromatography (GC) application, working, instrumentation. Students were shown different types of columns used like C₁₈, C₈, etc. in HPLC and also how membrane filters look like. HPLC used was manual Shimadzu 17052 and the software used was Lab solutions, real time analysis. Also demonstration of sample loading was shown. Everything about troubleshooting to cleaning and maintenance was explained. The GC was connected to a Mass Spectrophotometer and also to a Head space. Sample injection was either by manual or by an Autosampler. GC used was of Agilent Technologies and the software used was GC. Different types of columns were shown like capillary column and cap column. Live demonstration of Air monitoring using charcoal was also shown.

Subject: Permission to carry out M. Pharmacy Research Project in industry.

Respected Sir/Madam,

Ours is an upcoming postgraduate college of pharmacy in Navi Mumbai area. College started with its first batch of M.Pharm in Quality Assurance from year 2011. Our batch of Quality assurance (M.Pharm) students will be starting their research projects from the month of Aug/Sep 2021. As the trend of Analytical development in the present time in India is going towards industry based research work, four of my M Pharm students of Quality Assurance branch wish to get the zest of actual industry research work. Yours being an esteemed firm, we would like our students to carry the industry project in Analytical Method Development Laboratory for a period of 6 months.

Details of the students are as below:

1. Name: **Ms. Jadhav Sayali Rajesh**

Project topic: Simultaneous estimation of drugs in marketed formulation by HPLC

2. Name : **Ms. Ghatage Nikita Pramod**

Project topic: Analytical method development and validation of API in marketed formulation

3. Name: **Ms. Jadhav Arti Deepak**

Project topic: Development and validation of novel chromatographic method for the estimation of API

4. Name: **Ms. Daksha Rahmatkar**

Project topic: Simultaneous estimation of drugs using liquid chromatography

Ms. Nikita Ghatage, Ms. Sayali Jadhav, Ms. Arti Jadhav and Ms. Daksha Rahmatkar have very good academic record. All of them are very keen in research methodology and their inclination towards taking project that has industrial applicability. They have always been found working very systematically and responsibly. Kindly do the needful. Thanking you in anticipation.
