

## PERSPECTIVE PLAN

The vision of OCP is to create competent pharmacy graduates to contribute in the development of healthcare profession. The institute strives to work efficiently towards achievement of this goal through its strategic plans that aim at development at different fronts simultaneously for the growth of students, faculty, and institute. These strategic plans are based on following predefined missions:

Sr. No.	Mission	Strategic Plan
1.	To create Pharmacy Graduates through motivated and experienced faculty supported by good infrastructure	<ul style="list-style-type: none"><li>• Use of novel teaching tools</li><li>• Conduct of tutorial lectures, class tests and assignments.</li><li>• Encourage students to present posters/papers in conferences and seminars.</li><li>• Faculty with higher qualifications and good teaching skills and experience are appointed at the institute.</li><li>• Well-equipped and maintained classrooms, laboratories, library and campus.</li><li>• In-door and out-door sports facility.</li></ul>
2.	To encourage students and faculty towards research in the healthcare profession	<ul style="list-style-type: none"><li>• Establishment of M. Pharm course in Pharmaceutics, Pharmacology and Quality assurance and Ph.D. course in Pharmaceutics.</li><li>• Encourage faculty for research, publication, patents, research grants procurement and collaborative industrial projects.</li><li>• MOUs with industries and institutes for bilateral practical training and collaborative research projects.</li><li>• Conduct training sessions for updating faculty knowledge.</li></ul>
3.	To inculcate the social values and responsibilities for the betterment of community healthcare	<ul style="list-style-type: none"><li>• Enhance participation of students in community outreach programs to inculcate social responsibility.</li></ul>

### Perspective Plan 2030

#### *Goal Mission/Objectives 1: Strengthening the Institute*

The institute has plans to apply for permanent affiliation and recognition u/s 12(b) of UGC Act 1956. The institute is also looking forward to improve its Accreditation Grades and Rankings.

#### *Goal 2: Academic Plan*

Through systematic lesson plan, effective teaching-learning pedagogy and regular feedback mechanism, syllabus contents are delivered effectively. We look forward to continuing the already existing system like organizing lectures of eminent speakers from academia and industry to help students in soft skill and personality development, selecting right career path and enhance placement opportunities.

***Goal 3: Strengthening the Alumni Association***

OCP has a strong alumni association. The institute has registered its Alumni Association as per Society's Act, 1860 and Bombay Public Trust Act, 1950. Alumni are invited as resource persons for seminars/workshops and give inputs regarding co-curricular activities to mitigate industry-academia gap. Their contribution will assist in the growth of their alma mater.

***Goal 4: Research, Innovation and IPR Collaboration with National/International Organizations***

OCP encourages undergraduate and postgraduate students to participate in various technical competitions. We plan to expand M. Pharm and Ph.D. courses to other branches too. Faculties at OCP strive to fetch research grants. The meaningful research, publication in good impact factor journals and collaborative research projects with industry will help to increase Industry-Institute Interaction and research translation to industry, IPR and society.

***Goal 5: Infrastructure***

Currently, OCP has a Central Instrument Lab and Pilot Plant. Additional instruments and equipments will be procured to expand research capabilities and for promoting collaborative research with industries. College has already installed a smart board in one of the classrooms and we plan to install the facility in all other classrooms.

***Goal 6: Improvement of Institutional Social Responsibility***

OCP emphasizes on participation of students in various social awareness and community outreach programs like Blood Donation Camps, rural education, mental health, etc. through its Public Health Office of the Indian Pharmaceutical Association Maharashtra State Branch - Student's Forum and DLLE (Department of Lifelong Learning and Extension, recognized as a statutory department of Mumbai University since 1974) activities. These activities will help in facilitating student's sensitization to socio-cultural realities.
