Dear Aishwarya and Puja,

Noted.. But as per previous plan, in the morning itself, for immunomodulatory studies we have added Puja's drug in the U937 cells.. So now with the revised request, we will not further process those samples for qPCR and we will keep fresh U937 cells ready for Aishwarya's drug sample for the immunomodulatory studies. Rest of the other assays are planned as per the revised email.
