

Institutional Development Plan

Quality enhancement in higher education is a process that improves the quality of an institution and the learning experience for students.

Student improvement: Quality enhancement focuses on improving students' knowledge, skills, and potential.

Institutional improvement: Quality enhancement can also refer to improving the quality of the institution's processes and programs.

Continuous improvement: Quality enhancement can be achieved through a cycle of innovation and continuous improvement.

IQAC and enhancement the quality of higher education:

IQAC can help institutions institutionalize best practices, ensure internal communication.

IQAC, also suggests for full admissions, seminar, guest lectures, events management.

IQAC does the quality audits, are used to advance quality assurance.

IQAC, if needed, also helps to redesign curriculum.

IQAC helps get scholarships.

Sr No	Plan of Action	Achievement/Outcome	Annexure
